323 2010 Census of Population and Housing Questionnaire

Preface

The 2010 Zambia Census of Population and Housing is the fifth national census of the Zambian population since independence in 1964. The 2010 Census covered both standard census topics as well as new ones. The inclusion of standard topics ensured the analysis of trends over time and facilitated comparison of past censuses with the 2010 Census in those areas. The inclusion of standard topics also allows for international comparability. The inclusion of new topics showed that the Zambian census is responsive to new data user needs and policy environment.

Analysis of census data can only be achieved if conducted in a systematic manner. A comprehensive tabulation plan helps guide the analysis and output from a census. In the development of the series of tabulation reports, the Central Statistical Office (CSO) conducted a stakeholder consultative meeting in October 2011 to gain input from stakeholders on the tabulation and analysis plans.

Following these consultations, the 2010 Census Tabulation Plan was finalised and used as a guide in the development of this series of Descriptive Tabulation Reports. It must be noted that what is contained in this series of Descriptive Tabulation Reports are key tabulations based on national and international consideration for tabulation and analysis of topics covered in the 2010 Census. The tabulations have also taken into account submissions and input from stakeholders.

The Provincial Tabulation Reports run from Volume 1; Central Province to Volume 10; Western Province. The Volume 11 is the National Level Descriptive Tabulation Report. Within the Tabulation Reports, Tables have been organized by topic and run from Series A; General Population Tables to Series I; Agriculture Tables. This report contains tables for Series E; Economic Activities. It contains tables on the Labourforce, Employed population, Unemployed Population by Employment Status, Occupation and Industry.

The 2010 Census of Population and Housing forms a rich resource of information on several topics covered during the census. This resource is available to users and researchers through the different series of analytical, thematic and descriptive tabulation reports. A huge attempt has been made by the CSO to produce key tabulations on different topics covered in the 2010 Census of Population and Housing, however individual users and researcher are encouraged to make special requests for tabulations not covered in this series of tabulation reports.

I would like to thank all CSO staff involved in the development of this important output from the 2010 Census of Population and Housing. I also thank and appreciate the support of the technical staff of the US Census Bureau during the development of the Tabulation Plan.

I extend my sincere gratitude to the Government of the Republic of Zambia (GRZ), its cooperating partners UNFPA, DfID, USAID and AfDB for supporting the 2010 Census of Population and Housing and ensuring that the Descriptive Tabulation Reports from the 2010 Census are made available to users and stakeholders timely.
