Foreword

Welcome to the Monthly presentation organised by the Dissemination Branch of the Central Statistical Office (CSO). The CSO embarks on vigorous information delivery strategy to major stakeholders and the media institutions in order to increase utilisation of statistical products and services. The office produces a number of statistical products in the Economic, Social, Agricultural and Environmental areas. The information collected in these areas may be used for various purposes including policy formulation, planning, implementation, monitoring and evaluation of programmes and projects.

This Monthly publication is an attempt to provide highlights of CSO's work and how it can help media institutions and the general public to make use of data and information for sustainable national development and decision-making.

I would like to urge our readers and users of statistical information to send to us any comments that may enhance statistical production and contribute to the improvement of this bulletin.

John Kalumbi ACTING DIRECTOR
DEFICIENCE AND STATISTICS

The Central Statistical Office (CSO) is a department under the Ministry of Finance and National Planning (MoFNP). According to the Census and Statistics Act of the Laws of Zambia. CSO's mandate is to collect and analyse official data on economic and social indicators that are disseminated on a timely basis.

The Central Statistical Office has four Divi- Non Governmental Orsions namely; Economic and Financial Statistics; Agriculture and Environment Statistics: Social Statistics and Information, Research and Dissemination. Each division is headed/managed by a Deputy Director.

The Central Statistical Office (CSO) through its Information, Research and Dissemination (IR&D) Division, in its attempt to provide highlights of CSO's

work, has produced the first edition of "THE STATISTICIAN". This publication has not only laboured to provide user-friendly data but has also given an insight into the operations of the Department.

Through this publication, our data users will gain access to a variety of statistical data on Socio-economic indicators. Some of the relevant information to be found in this publication will include statistics on Agriculture, Gender, Demography, Inflation rates, External trade. National accounts, just to mention a few.

It is our wish that through this publication, media institutions, policy makers, the donor community, ganizations (NGO)'s, researchers, academicians and the general public will make use of this data and information for sustainable national development.

I would like to urge our readers and users of statistical information to send us any comments that may enhance statistical production and contribute to the improvement of this Newsletter.
