January, 2013

Foreword

Welcome to the Monthly presentation organised by the Dissemination Branch of the Central Statistical Office (CSO). The CSO embarks on vigorous information delivery strategy to major stakeholders and the media institutions in order to increase utilisation of statistical products and services. The office produces a number of statistical products in the Economic, Social, Agricultural and Environmental areas. The information collected in these areas may be used for various purposes including policy formulation, planning, implementation, monitoring and evaluation of programmes and projects.

This Monthly publication is an attempt to provide highlights of CSO's work and how it can help media institutions and the general public to make use of data and information for sustainable national development and decision-making.

I would like to urge our readers and users of statistical information to send to us any comments that may enhance statistical production and contribute to the improvement of this bulletin.

John Kalumbi
Director of Census and Statistics

31st January, 2013

Inside this Issue

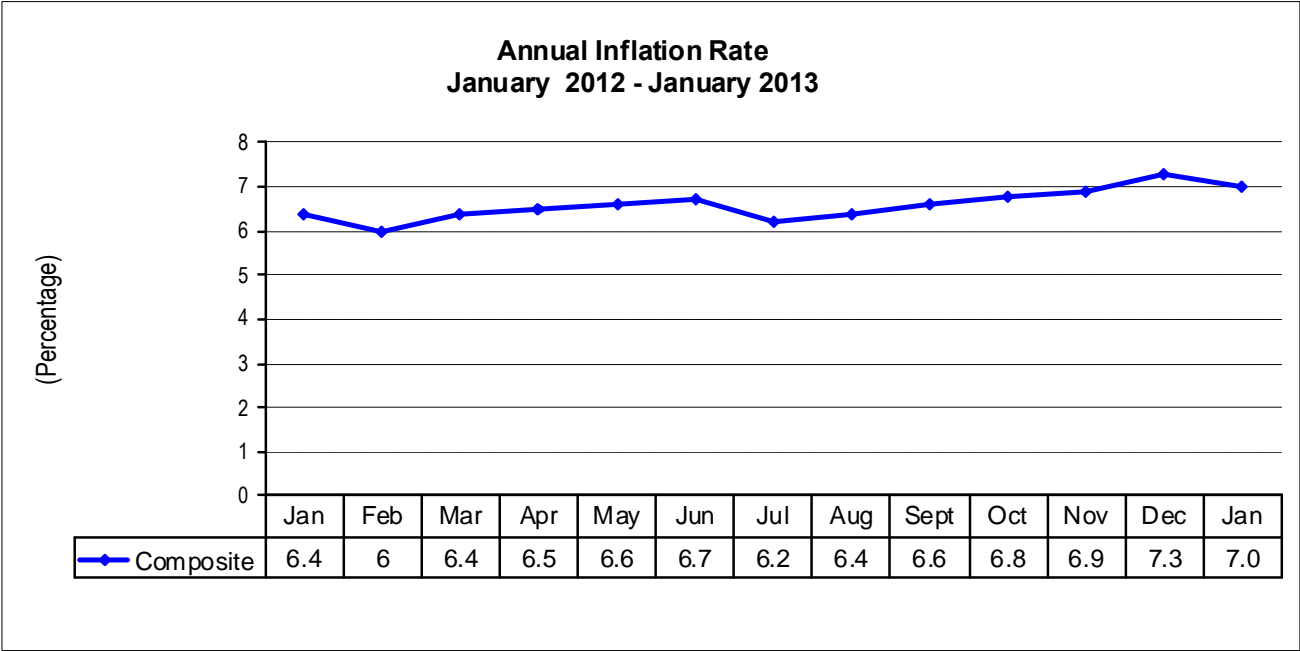

- January Inflation decreases to 7.0 percent
- December 2012 records Trade Surplus
- Activities Being Undertaken
- Selected Socio - Economic Indicators

INFLATION

ation decreases to 7.0 percent

The annual rate of inflation, as measured by the all items Consumer Price Index (CPI), decreased by 0.3 percentage points, from 7.3 percent in December 2012 to 7.0 percent in January 2013. This means that on

average, prices increased by 7.0 percent between January 2012 and January 2013. The decrease in annual inflation is attributed mainly to decreases in some food prices.

Exportations by Commodity in December 2012

Switzerland was the first major export destination in which accounted for 42.2 percent. The major export products were Cathodes & Sections of Cathodes of refined Copper accounting for 93.1 percent.

China was the second major destination of Zambia's exports accounting for 20.0 percent. The chief export product was copper blister (65.1 percent).

South Africa was the third major export destination accounting for 13.6 percent. The main export products were Brans, sharps and other residues of maize, accounting for 56.1 percent.

The fourth major export destination was Congo DR, accounting for 6.7 percent. The main export products were Pallets, box pallets and other load boards of wood; pallet collars of wood (17.5 percent).

The fifth major export destination was Malawi which accounted for 6.6 percent. The major export products were Candles, tapers and the like which accounted for 93.1 percent.

These five countries collectively accounted for 89.2 percent of Zambia's total export earnings in December 2012.
