

## Central Statistical Office

Volume 160 Website: www.zamstats.gov.zm August, 2016

#### **Foreword**

Welcome to the Monthly presentation organised by the Dissemination Branch of the Central Statistical Office (CSO). The CSO embarks on vigorous information delivery strategy to major stakeholders and the media institutions in order to increase utilisation of statistical products and services. The office produces a number of statistical products in the Economic, Social, Agricultural and Environmental areas. The information collected in these areas may be used for various purposes including policy formulation, planning, implementation, monitoring and evaluation of programmes and projects.

This Monthly publication is an attempt to provide highlights of CSO's work and how it can help media institutions and the general public to make use of data and information for sustainable national development and decision-making.

I would like to urge our readers and users of statistical information to send to us any comments that may enhance statistical production and contribute to the improvement of this bulletin.

We treasure what we measure"

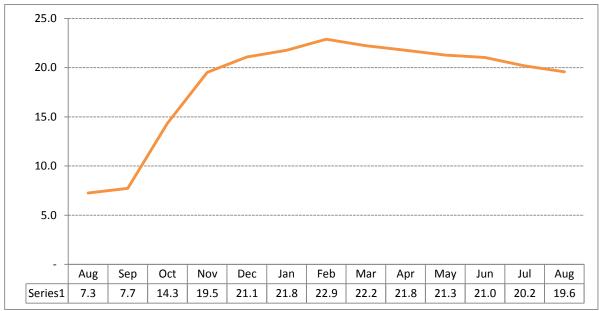

## **INFLATION**

#### Inflation decreases to 19.6 percent

The annual rate of inflation, as measured by the all items Consumer Price Index (CPI) for August 2016 decreased to 19.6 percent from 20.2 percent recorded in July, 2016. This means that on average, prices increased by 19.6 percent between August 2015 and August 2016. The decrease in the annual rate of inflation was mainly attributed to decreases in Food prices.

The Consumer Price Index (CPI) measures changes over time in the general level of prices of goods and services that households acquire for the purpose of consumption, with reference to the price level in 2009 (i.e. base year 2009 = 100).

#### Annual Inflation Rate, August 2015 to August 2016

Source: CSO, Prices Statistics, 2016

#### **Annual Food and Non-Food Inflation Rates**

The annual food inflation rate for August 2016 was recorded at 24.1 percent compared to 24.8 percent recorded in July, 2016. This indicates a decrease of 0.7 percentage points. The decrease in food inflation was mainly attributed

to decreases in the prices of Samp, Local rice, Cassava meal, Rape vegetables, Sorghum, Frozen fish, Fried Bream, and Dried Kapenta (chisense). The annual non-food inflation rate for August 2016 decreased to 14.8 percent from 15.3 percent recorded in July, 2016. This indicates a decrease of 0.5 percentage points.

The decrease in non-food inflation was mainly attributed to decreases in prices of charcoal, motor vehicles and bicycles.

#### **Provincial Changes in Inflation Rates**

#### **Provincial Annual Inflation Rate**

Provincial changes in inflation rate show that between August 2015 and August 2016, North Western Province had the highest annual rate of inflation at 23.6 percent, followed by Northern/Muchinga Province at 23.0 percent. Copperbelt Province recorded the lowest annual rate of inflation at 17.2 percent.

#### **Provincial Monthly Inflation Rate**

Luapula Province had the highest monthly inflation rate in August 2016 at 0.9 percent. The second highest monthly inflation rate was recorded in the Copperbelt, North-western and Western provinces at 0.5 percent each. Eastern and Northern/Muchinga provinces had the lowest monthly rate of inflation recorded at 0.0 percent each.

#### INTERNATIONAL MERCHANDIZE TRADE

Zambia recorded a trade deficit in July 2016 valued at K473.9 million from K355.4 million recorded in June 2016 representing a 33.3 percent increase in

the trade deficit. This means that the country imported more in July 2016 than it exported in nominal terms.

#### Total Exports (FOB) and Imports (CIF), January to July 2016 (K' Million)

## Zambia's Exports of Copper by Volume and corresponding prices at the London Metal Exchange (LME), January to July 2016

The volume of Copper exhibited a fluctuating trend between January and July 2016, with the highest volume of 86,516.3 metric tonnes recorded in January 2016 and the lowest volume of 66,161.5 metric tonnes recorded in April 2016.

The corresponding price of Copper on the London Metal Exchange registered a steady increase between January and March 2016 from USD 4,462.75 per metric tonne to USD 4,947.55 per metric tonne. In June 2016 the price declined to USD 4,630.64 per metric tonne before increasing to USD 4,821.42 per metric in July 2016.

Since this product accounts for the largest weight/ proportion of Traditional Exports, any change in the volume and price/value has a direct bearing on the performance of Traditional Exports.

Zambia's Export Volumes and LME Prices of Copper, January to July 2016

#### Zambia's Top 25 Non-Traditional Exports (NTEs), July and June 2016

Zambia's major Non-Traditional Exports (NTEs) for the month of July 2016 were Telephones for cellular networks or for other wireless networks which accounted for 18.8 percent followed by Bullion ("Bars of Gold or Silver") semi-manufactured forms which accounted for 11.9 percent.

Other notable NTEs in July 2016 were Cotton, not carded or combed, Tobacco, partly or wholly stemmed/stripped and Maize (excl. seed) which collectively accounted for 16.0 percent.

#### Zambia's Major Export Destinations by Commodity in July 2016

The major export destination in July 2016 was Switzerland, which accounted for 39.4 percent of the total export earnings. The major export products to Switzerland were Cathodes & Sections of Cathodes of refined Copper accounting for 45.3 percent.

China was the second main destination of Zambia's exports accounting for 17.5 percent of the total export earnings. The major export product to China was Copper blister accounting for 81.9 percent.

South Africa was the third main export destination accounting for 8.5 percent of the total export earnings. The major export products were Bullion semi-manufactured forms accounting for 40.5 percent.

United Arab Emirates was the fourth main export destination accounting for 7.5 percent of the total export earnings. The major export products were Telephones for cellular networks or for other wireless networks accounting for 69.8 percent.

The fifth main export destination was Congo DR which accounted for 5.8 percent of the total export earnings. The major export products were vegetable fats and oils and their fractions, hydrogenated, etc. accounting for 9.2 percent.

These five countries collectively accounted for 78.7 percent of Zambia's total export earnings in July 2016.

#### Export Market Shares by Selected Regional Groupings and Major Trading Partners, July and June 2016

Switzerland was the largest export destination for Zambia in July 2016, accounting for 39.4 percent of Zambia's total exports.

Asia was the second largest market for Zambia's total exports, accounting for 32.0 percent in July 2016. Within Asia, China was the dominant export market, accounting for 54.7 percent. Other notable markets in Asia were United Arab Emirates, Singapore, Hong Kong and Japan.

The Dual SADC/COMESA grouping was the third largest market for Zambia's total Exports accounting for 11.1 percent in July 2016. Within this grouping, Congo DR was the dominant market with 52.1 percent. Other notable markets in this grouping were Malawi, Zimbabwe, Mauritius and Swaziland.

The SADC exclusive grouping was the fourth major destination accounting for 10.0 percent of Zambia's total exports, in

July 2016. Within this grouping, South Africa was the dominant market with 85.2 percent. Other notable markets were Tanzania, Namibia, Botswana, and Mozambique.

The European Union (EU) was the fifth largest market for Zambia's total exports accounting for 5.8 percent in July 2016. Within the EU, United Kingdom was the dominant market with 91.0 percent. Other notable markets were Luxembourg, Netherlands, Belgium, and Portugal.

The COMESA exclusive grouping was the sixth largest market for Zambia's total exports accounting for 1.4 percent in July 2016. Within this grouping, Kenya was the dominant market with 39.7 percent. Other notable markets in this grouping were Rwanda, Burundi, Uganda and Egypt.

The rest of the world accounted for the remaining 0.2 percent in July 2016.

	Total requirements								
c.	Surplus/deficit (A-B)	0/	634,681	-40,000		0	0	31,713	625,255
D.	Potential Commercial exports	1/	-634,681	40,000	0	0	0	0	0
E.	Food aid import requirements	2/	0	0	0	0	0	0	0

#### **Notes:**

- 1/Stocks expected to be held by commodity traders, millers, brewers, FRA, DMMU and commercial and small scale farmers as at 1st May 2016
- 2/ Production estimates by MoA/CSO. Cassava production is based on the total area under cassava, using an annual yield figure of 11.7 tonnes per hectare (MAFF Root and Tuber Improvement Programme, 1996). A flour extraction rate of 25% is used. Other tubers are sweet potatoes and Irish potatoes.
- 3/ Human staple food consumption represents 70% (1,470 kCal/person/day, CSO) of total diet (2,100 kCal/person/day, National Food and Nutrition Commission), for the national population of 14.58 million people (based on CSO Census projections with 2016 and 2017 average population used). The food balance shows an overall surplus of staple foods. Food prices may affect the level of food consumption.
- 4/ National strategic requirements expected to be carried over into the next season by FRA.(this amount of 500,000 Mt includes equivalent quantity that is already budgeted for)
- 5/Estimated requirements by major stock feed producers.
- 6/ Estimated requirements by industrial breweries.
- 7/ Estimated retention of grain for other uses by smallholders.
- 8/ Post-harvest losses are estimated at 5% for grains, sweet potatoes and cassava, in line with estimates from other SADC countries.
- 9/ Structural exports represents cross-border trade, mostly to the DRC, that occurs on a continuing basis and that is likely to occur during the 2015/16 marketing season. It does not include Formal trade.
- 10/Expected surpluses' or deficits that arise after meeting minimum overall staple human consumption requirements as well as industrial requirements. The total surplus/deficit is expressed as maize equivalent using energy values. The rice deficit is based on a 3 year rolling average of what is known to be imported each year, as indicated under D.
- 11/Commercial imports/exports represent expected regional and international trade by the private sector, been harvested
- For cassava, the surplus represents cassava that is still in the ground and may not necessarily be harvested
- 12/Total estimated requirement for food relief among vulnerable groups, to be imported. This could be met with maize or other grains.

## **SURVEYS/ACTIVITIES BEING UNDERTAKEN**

- 2015 National Disability Survey Analysis and Report Writing
- Zambia Population Based HIV Impact Assessment (ZAMPHIA) Data Collection
- Sample Vital Registration with Verbal Autopsy (SAVVY) Data Collection
- 2015 Selected Social Economic Indicators analysis and report editing
- 2016 Zambia in Figures compilation

## **SELECTED AVAILABLE REPORTS**

- 2015 Living Conditions Monitoring Survey Key Findings (Print copy)
- 2014 Labour Force Survey Report (Electronic and Print copy)
- 2014/2015 Crop Forecast Survey data available (Electronic)
- 2013 2014 Zambia Demographic and Health Survey Report (Electronic and Print copy)
- Zambia in Figures 2014 (Electronic)
- Selected Socio-economic Indicators 2013 (Electronic and Print copy)
- Sample Vital Registration with Verbal Autopsy (SAVVY) 2010-2012 (Electronic and Print copy)
- Gross Domestic Product 2010; Benchmark Estimates Summary Report (Electronic and Print copy)
- Population and Demographic Projections Report, 2011 2035 (Electronic and Print copy)
- 2010 Census of Population and Housing National Analytical and Descriptive Tables Reports (Electronic and Print copy)
- 2010 Census of Population and Housing Provincial Analytical and Descriptive Tables Reports (Electronic and Print copy)
