NTERNATIONAL MERCHANDISE TRADE

December 2019 records a Trade Surplus

Zambia's trade surplus increased by 273.8 percent from K112.9 million in November 2019 to K422.0 million in December 2019. This trade surplus means that the country exported more than it imported in nominal terms.

Both imports and exports recorded decreases, though the decrease in imports outweighed that of exports resulting into a rise in the surplus.

Exports which mainly comprise of domestically produced goods decreased by

1.9 percent from K8,565.3 million in November 2019 to K8,401.3 million in December 2019. This decrease was mainly attributed to the 42.2 percent decrease in export earnings from the Consumer goods category.

Imports decreased by 5.6 percent from K8,452.4 million in November 2019 to K7,979.3 million in December 2019. This decrease in imports was mainly attributed to the 13.4 percent decline in the import bill for the Capital goods category (see Table 10).
