## FOREWORD

**W**elcome to the Monthly presentation organised by the Dissemination Branch of the Zambia Statistics Agency (formerly Central Statistical Office). The Agency embarks on vigorous information delivery strategy to major stakeholders and the media institutions in order to increase utilisation of statistical products and services. The Agency produces a number of statistical products in the Economic, Social, Agricultural and Environmental areas. The information collected in these areas may be used for various purposes including policy formulation, planning, implementation, monitoring and evaluation of development programmes.

This Monthly publication is an attempt to provide highlights of the Agency's work and how it can help media institutions and the general public to make use of data and information for decision-making and sustainable national development.

I would like to urge our readers and users of statistical information to send to us any comments that may enhance statistical production and contribute to the improvement of this bulletin.

# INFLATION

## CONSUMER PRICE INDEX

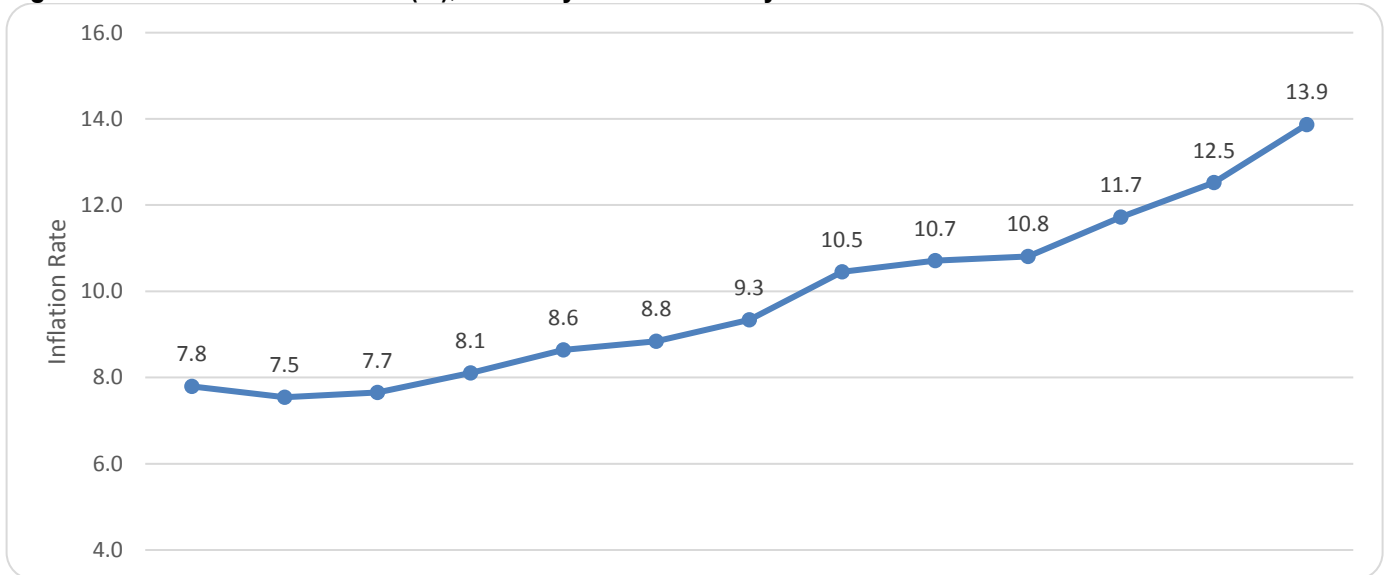

### Year on Year Inflation Rate for February 2020 increases to 13.9 Percent

The year- on- year inflation rate as measured by the all items Consumer Price Index (CPI) for February 2020 increased to 13.9 percent from 12.5 percent recorded in January 2020 (**see Figure 1**). This means that on average, prices of goods and services

increased by 13.9 percent between February 2019 and February 2020.

The increase in the annual rate of inflation was mainly attributed to price increase in both Food and Non- food items.

**Figure 1: Annual Inflation Rates (%), February 2019 - February 2020**

**Source:** ZamStats Prices Statistics, 2020

**Note:** 2009=100

### Year on Year Food and Non-Food Inflation Rate

The year-on-year food inflation rate for February 2020 was recorded at 15.9 percent compared to 15.4 percent recorded in January 2020. This development was mainly attributed to price movements of food items such as Maize grain and Meats (Chicken, Beef and pork sausage, T-bone and Mixed cut).

The year-on-year non-food inflation rate for February 2020 was recorded at 11.6 percent compared to 9.4 percent recorded in January 2020, indicating an increase of 2.2 percentage points. This increase was mainly attributed to items such as Rentals, Cement, Purchase of vehicles and Transport services (Mini Bus, Coach and Taxi Fare and Air Fare (**see Table 1**)).

## Annual Inflation Rate by CPI Main Groups

### The Annual Rate of Inflation for February increased for:-

#### 1. Food and Non-alcoholic Beverages

The Food and Non-alcoholic beverages CPI main group increased by 15.9 percent between February 2019 and February 2020. This means that on average, prices of items in this group increased by 15.9 percent in February 2020 compared to 7.7 percent in the same month of 2019. The annual inflation rate for Food and Non-alcoholic beverages increased from 15.4 percent in January 2020 to 15.9 percent in February 2020 (see Table 2).

#### 2. Alcoholic Beverages and Tobacco

The Alcoholic Beverages and Tobacco CPI main group increased by 6.7 percent between February 2019 and February 2020. This means that prices of items in this group increased by 6.7 percent in February 2020 compared to 5.8 percent in the same month of 2019. The annual inflation rate for this group Increased from 6.4 percent in January 2020 to 6.7 percent in February 2020.

#### 3. Clothing and Footwear

The Clothing and Footwear CPI main group increased by 6.1 percent between February 2019 and February 2020. This means that prices of items in this group increased by 6.1 percent in February 2020

compared to 6.3 percent in the same month of 2019. The annual inflation rate for this group Increased from 5.7 percent in January 2020 to 6.1 percent in February 2020.

#### 4. Housing, Water, Electricity, Gas, & Other Fuels

The Housing, Water, Electricity, Gas, & Other Fuels CPI main group increased by 15.9 percent between February 2019 and February 2020. This means that the annual rate of inflation for this group increased from 12.0 percent in January 2020 to 15.9 percent in February 2020.

#### 5. Health

The Health CPI main group increased by 8.4 percent between February 2019 and February 2020. This means that on average prices of items in this group increased by 8.4 percent in February 2020 compared to the same month in 2019. The annual rate of inflation for Health increased from 8.1 percent in January 2020 to 8.4 percent in February 2020.

#### 6. Transport

The Transport CPI main group increased by 27.0 percent between February 2019 and February 2020. This means that prices of items in this group increased by 27.0

percent in February 2020 compared to 20.7 percent in the same month of 2019. The annual inflation rate for this group increased from 18.6 percent in January 2020 to 27.0 percent in February 2020.

## **7. Restaurant & Hotel**

The Restaurant & Hotel CPI main group increased by 7.0 percent between

February 2019 and February 2020. This means prices of items in this group increased by 7.0 percent in February 2020 compared to the same month in 2019. The annual inflation rate for this group Increased from 6.9 percent in January 2020 to 7.0 percent in February 2020.

### **The Annual Rate of Inflation for January slowed down for:-**

#### **1. Furnishing, Household Equipment and Household Maintenance**

The Furnishing, Household Equipment and Household Maintenance CPI main group Increased by 7.3 percent between February 2019 and February 2020. This means that the annual inflation rate for this group slowed down from 7.7 percent in January 2020 to 7.3 percent in February 2020.

#### **2. Recreation and Culture**

The Recreation and Culture CPI main group Increased by 5.2 percent between February 2019 and February 2020. This Means that on average prices of items in this group Increased by 5.2 percent in

February 2020 compared to 2.9 percent in the same month of 2019. The annual inflation rate for this group slowed down from 6.2 percent in January 2020 to 5.2 percent in February 2020.

#### **3. Miscellaneous Goods and Services**

The miscellaneous goods and services CPI main group Increased by 6.5 percent between February 2019 and February 2020.

This means that the annual inflation rate for this group slowed down from 6.7 percent in January 2020 to 6.5 percent in February 2020.

### **The Annual Rate of Inflation for January remained the same for:-**

#### **1. Communication**

The Communication CPI main group increased by 1.6 percent between February 2019 and February 2020. This means that on average prices of items in this group increased by 1.6 percent in February 2020 compared to the same month in 2019. The annual inflation rate for this group remained the same in February 2020 as in January 2020 at 1.6 percent (**see Table 2**).

#### **2. Education**

The Education CPI main group increased by 1.2 percent between February 2019 and February 2020. This means that on Average Prices of items in this group Increased by 1.2 percent in February 2020 compared to 5.9 percent in the same month of 2019. The annual inflation rate for this group remained unchanged in February 2020 as in January 2020 at 1.2 Percent (**See Table 2**).

## Provincial Annual Inflation Rates

A disaggregation of the annual inflation rate by province shows that the annual inflation rate for February 2020 increased for Central, Copperbelt, Luapula, Lusaka, Northern, North-Western and Southern provinces while it decreased for Eastern and Western provinces. Provincial changes in annual inflation rate show that between February 2019 and February 2020, Southern

province had the highest rate of annual inflation at 16.6 percent, followed by Lusaka at 16.0 percent.

Western province recorded the lowest annual rate of inflation at 8.7 percent (**see Table 4**).

**Table 4: Provincial Annual Inflation Rates, February 2019 - February 2020 (%)**

### February 2020 Month on Month Inflation Rate Increases to 1.9 Percent

The month on month (monthly) inflation rate for February 2020, was recorded at 1.9 percent indicating an increase of 0.1 percentage points from 1.8 percent recorded in January 2020 (**see Figure 2**). This means that on average, prices of goods and services increased by 1.9 percent between January 2020 and February 2020.

The increase in the monthly inflation rate was mainly attributed to general price increases of Non Food items such as Purchase of vehicles and Transport services (Mini Bus, Coach, Taxi Fare and Air fare)

**Figure 2: Month on Month Inflation Rate, February 2019 - February 2020(%)**

Source: ZamStats, Prices Statistics, 2020

## Month on Month Inflation Rate: Food and Non-Food Items

The monthly food inflation rate for February 2020 was recorded at 1.3 percent indicating an increase of 0.1 percentage points from 1.2 percent recorded in January 2020. This means that on average, prices of food items increased by 1.3 percent between January 2020 and February 2020.

Non-Food inflation rate for February 2020 was recorded at 2.7 percent compared to 2.5 percent in January 2020. This means that on average, prices of non-food increased by 2.7 percent between January 2020 and February 2020. The increase in the non-food monthly inflation rate was mainly attributed to price increases of items such as Purchase of vehicles and Transport services (Mini Bus, Coach and Taxi Fare (see Table 6).

### National Average Prices for Selected Products

Analysis on a monthly basis, of retail prices between January 2020 and February 2020 shows that the national average price of a 25 kg bag of Breakfast Mealie meal reduced by 0.14 percent from K162.52 to K162.30 while the national average price of a 25 kg bag of Roller Mealie meal decreased by 2.18 percent from K145.13 to K141.97. The national average price of a 20 litre tin of Maize grain increased by 5.24 percent from K82.65 to K86.98.

On an annual basis, the analysis of retail prices between February 2019 and February 2020 shows that the national average price of a 25kg bag of Breakfast Mealie meal increased by 73.84 percent from K93.36 to K162.30. The national average price of a 20-litre tin of Maize grain increased by 102.33 percent from K42.99 to K86.98 (**see Table 9**).

## INTERNATIONAL MERCHANDIZE TRADE

### January 2020 records a Trade Surplus

Zambia's trade surplus increased by 248.8 percent from K674.3 million in December 2019 to K2,351.8 million in January 2020. This trade surplus means that the country exported more than it imported in nominal terms.

Both imports and exports recorded decreases, though the decrease in imports outweighed that of exports resulting into a rise in the surplus.

Exports which mainly comprise of domestically produced goods decreased by 3.2 percent from K8,656.1 million in December 2019 to K8,375.0

million in January 2020 (**see Table 10**). This decrease was mainly attributed to decreases in export earnings from Intermediate goods and Capital goods category at 4.4 percent and 10.8 percent, respectively.

Imports decreased by 24.5 percent from K7,981.8 million in December 2019 to K6,023.3 million in January 2020. This decrease in imports was mainly attributed to decreases in the import bill for the Consumer goods and Capital goods category at 28.4 percent and 26.5 percent, respectively (**see Table 10**).

**Table 10: Total Exports (FOB) and Imports (CIF), January 2019 to January 2020, K' Million**

**Domestic Exports:** These are Commodities grown, produced or manufactured locally including commodities imported from foreign countries that have been significantly changed or enhanced in value. Re-Exports=Total Exports-Domestic Exports. (\*) Provisional, (®) Revised

## Performance of Traditional and Non-Traditional Exports, January 2020 and December 2019

The Traditional Exports (TE's) earnings decreased by 3.0 percent from K6,402.7 million in December 2019 to K6,210.0 million in January 2020. In terms of share in total exports, TE's recorded a 74.1 percent in revenue earnings in January 2020. Non-Traditional Exports (NTEs) earnings

decreased by 3.9 percent from K2,253.4 million in December 2019 to K2,165.0 million in January 2020. In terms of share in total exports, NTEs recorded a 25.9 percent in revenue earnings in January 2020 **(see Table 11)**.

## Exports of Copper by Volume and LME prices, January 2020 and December 2019

The volume of Refined Copper exported in January 2020 decreased by 2.0 percent from 72,826.9 metric tonnes in December 2019 to 71,392.8 metric tonnes.

Copper prices on LME market for the corresponding months decreased by 0.2 percent, from US\$6,062.4 per metric tonne in December 2019 to US\$6,049.2 per metric tonne in January 2020.

## Performance of Non-Traditional Exports, January 2020 and December 2019

For the purpose of this analysis, Non-Traditional Exports are divided into Agricultural and Non-Agricultural products.

### Agricultural Products

Agricultural products accounted for a share of 26.7 percent of Zambia's Non-Traditional Exports (NTEs) in January 2020 compared to 23.0 percent recorded in December 2019.

The export earnings from agricultural products increased by 11.9 percent from K517.3 million in December 2019 to K579.0 million in January 2020. The major export commodities were Tobacco, partly or wholly stemmed/stripped accounting for 29.2 percent, 'Other raw cane sugar' (10.3 percent) and 'Oil-cake and other solid residues, of soya-bean' (7.0 percent).

### Non-Agricultural Products

Non-Agricultural products accounted for a share of 73.3 percent of Zambia's Non-Traditional Exports (NTEs) in January 2020 compared to 77.0 percent recorded in December 2019.

The export earnings from Non-Agricultural products recorded a decrease of 8.6 percent from K1,736.1 million in December 2019 to K1,586.1 million in January 2020. The major export commodities were 'Rubies, sapphires and emeralds, worked but not set' accounting for 16.9 percent, 'Portland Cement (excl. white)' (7.0 percent) and 'Sulphuric acid; oleum in bulk ' (6.6 percent) (see Table 12).

## Exports by Major Product Categories, January 2020 and December 2019

Zambia's major export products in January 2020 were from the intermediate goods category (mainly comprising Copper anodes for electrolytic refining and Cathodes of refined copper) accounting for 85.3 percent.

Exports from the Consumer goods, Raw Materials and Capital goods categories, collectively accounted for 14.7 percent of Total exports in January 2020 (**see Figure 4**).

### Zambia's Major Export Destinations by Commodity in January 2020

The major export destination in January 2020 was Switzerland, which accounted for 42.7 percent of the total export earnings. The main export product to Switzerland was Copper anodes for electrolytic refining, accounting for 86.3 percent of total export earnings from that country.

China was the second main export destination accounting for 22.7 percent of the total export earnings. The major export products were Copper blister for electrolytic refining, accounting for 38.1 percent of total export earnings from that country.

Congo DR was the third main export destination accounting for 10.5 percent of the total export earnings. The main export product was Sulphuric acid; oleum in bulk accounting for 11.9 percent of total export earnings from that country.

Singapore was the fourth main destination of Zambia's exports accounting for 10.1 percent of the total export earnings. The main export products to Singapore were Copper anodes for electrolytic refining, accounting for 64.3 percent of total export earnings from that Country.

South Africa was the fifth main export destination accounting for 2.5 percent of the total export earnings. The main export products were Bullion semi-manufactured forms (Gold), accounting for 41.7 percent of total export earnings from that country.

These five countries collectively accounted for 88.5 percent of Zambia's total export earnings in January 2020 (**see Table 13**).

## Zambia's Top Five Traditional Exports Destinations by Product in January 2020

The major Tradition Exports (TEs) destination in January 2020 was Switzerland, which accounted for 56.9 percent of the total traditional exports earnings. The main traditional export product to Switzerland was Copper anodes for electrolytic refining, accounting for 87.3 percent of total traditional export earnings from that country.

China was the second main destination of Zambia's Traditional Exports accounting for 27.4 percent of the total traditional export earnings. The major traditional export product to China was Copper blister, accounting for 42.5 percent of total traditional export earnings from that Country.

Singapore was the third main traditional exports destination accounting for 13.3 percent of the total Traditional Export earnings. The major Traditional Export product was Copper anodes for electrolytic refining accounting for 65.8

percent of the total traditional export earnings from that country.

Luxembourg was the fourth main Traditional Exports destination accounting for 1.5 percent of the total traditional export earnings. The major traditional export product was Master alloys of copper accounting for 97.7 percent of total traditional export earnings from that country.

The fifth main Traditional Exports destination was Hong Kong, which accounted for 0.4 percent of the total traditional export earnings. The major traditional export products were Electro-won copper cathodes (High Purity) accounting for 100.0 percent of total traditional export earnings from that country.

These five countries collectively accounted for 99.5 percent of Zambia's total Traditional export earnings in January 2020 (**see Table 14**).

## Zambia's Top Five Non-Traditional Exports Destinations by Product in January 2020

The major Non-Traditional Exports (NTEs) destination in January 2020 was Congo DR, which accounted for 39.6 percent of the total Non-Traditional Export earnings. The main NTEs product to Congo DR was, Sulphuric acid; oleum in bulk, accounting for 12.2 percent of total NTEs earnings from that country.

South Africa was the second main destination of Zambia's NTEs accounting for 9.4 percent of the total NTEs earnings. The major NTE product to South Africa was Bullion semi-manufactured forms (Gold) accounting for 43.2 percent of total NTEs earnings from that Country.

China was the third main NTEs destination accounting for 9.3 percent of the total NTE earnings. The major NTE products was Tobacco, partly or wholly stemmed/stripped accounting for 64.9

percent of total NTEs earnings from that country.

India was the fourth main NTEs destination accounting for 8.6 percent of the total NTE earnings. The major NTEs products were Rubies, sapphires and emeralds, worked but not set, accounting for 89.8 percent of total NTEs earnings from that country.

The fifth main NTEs destination was Hong Kong which accounted for 5.8 percent of the total NTEs earnings. The major NTEs products were Rubies, sapphires and emeralds, worked but not set accounting for 55.8 percent of total NTEs earnings from that country.

These five countries collectively accounted for 72.7 percent of Zambia's total Non-Traditional Exports earnings in January 2020 (**see table 15**).

## Export Market Shares by selected Regional Groupings and Major Trading Partners, January 2020 and December 2019

Switzerland was the largest market for Zambia's total exports in January 2020, accounting for 42.7 percent.

Asia was the second largest market for Zambia's total exports, accounting for 37.2 percent in January 2020. Within this grouping, China was the dominant market with 61.1 percent. Other notable markets in this grouping were Singapore, India, Hong Kong and United Arab Emirates.

The DUAL- SADC & COMESA grouping was the third largest market for Zambia's total exports, accounting for 12.5 percent in January 2020. Within this grouping, Congo DR was the dominant export market, accounting for 83.9 percent. Other notable markets in this grouping were Zimbabwe, Malawi, The Kingdom of Eswatini and Mauritius.

The SADC exclusive grouping was the fourth largest market for Zambia's total

exports, accounting for 3.9 percent in January 2020. Within this grouping, South Africa was the dominant market with 64.4 percent. Other notable markets within this grouping were Tanzania, Namibia, Botswana, and Mozambique.

The European Union grouping was the fifth largest market for Zambia's total exports, accounting for 1.7 percent in January 2020. Within this grouping, Luxembourg was the dominant market with 65.1 percent. Other notable markets in this grouping were Italy, Netherlands, The United Kingdom and Denmark.

The COMESA exclusive grouping was the sixth largest market for Zambia's total exports, accounting for 1.0 percent in January 2020. Within this grouping, Kenya was the dominant market with 45.1 percent. Other notable markets were Burundi, Rwanda, Uganda and Somalia **(see Table 16).**

### Zambia's Major Import Sources by Product in January 2020

The major source of imports in January 2020 was South Africa, accounting for 30.0 percent. The major import products were Mineral or chemical fertilizers with nitrogen, phosphorus and potassium accounting for 8.9 percent of the import bill from that country.

The second main source of imports was China, accounting for 16.5 percent. The major import products were Garments (6201.11 to 19) made up of fabrics (59.03, 59.06 or 59.07) which accounted for 6.8 percent of the import bill from that country.

United Arab Emirates was the third main source of Zambia's imports, accounting for 9.6 percent. The major import products were Petroleum oils and oils obtained from bituminous minerals, crude, accounting for 51.0 percent of the import bill from that country.

Other sources of Zambia's imports were India and Seychelles, which collectively accounted for 9.2 percent of Zambia's imports (**see Table 17**).

A circular collage of various Zambian landmarks and scenes, including a statue of a man, a waterfall, a modern building, a group of people on an elephant, a bridge, and a herd of elephants in a river. The collage is set against a background of a large, multi-story building with a red roof.

**ZAMBIA 2020 IAOS-ISI CONFERENCE**  
Better Lives 2030: 17th International Association for  
Official Statistics Conference and 3rd International  
Statistical Institute Regional Statistics Conference  
hosted by the Zambia Statistics Agency

Avani Victoria Falls Resort  
19-21 May 2020.  
Livingstone, Zambia

# ABOUT ISI

## INTERNATIONAL STATISTICAL INSTITUTE

The ISI is a professional society, established in 1885, with individual and institutional members in over 150 countries. Its objective is:

- *to promote the understanding, development and good practice of statistics worldwide.*

The ISI family includes the following seven Associations that focus on specific sub-fields of statistical science:

- Bernoulli Society for Mathematical Statistics and Probability (BS)
- **International Association for Official Statistics (IAOS)**
- International Association for Statistical Computing (IASC)
- International Association for Statistical Education (IASE)
- International Association for Survey Statisticians (IASS)
- International Environmetrics Society (IES)
- International Society for Business and Industrial Statistics (ISBIS)

## INTERNATIONAL ASSOCIATION FOR OFFICIAL STATISTICS (IAOS)

IAOS is an association founded in 1985. It is an international non-governmental organization (NGO), which was created and developed as a specialized section of the International Statistical Institute (ISI). It is thus an Association of physical and legal persons who have scientific or professional interest in the field of official statistics. IAOS brings together producers and users of official statistics. It is run by an Executive Committee elected for a period of two years. The objectives of IAOS are:

- *to promote the understanding and advancement of official statistics and related subjects.*
- *to foster the development of effective and efficient official statistical services, particularly in developing countries.*

## ISI REGIONAL STATISTICS CONGRESSES

The ISI Regional Statistics Conferences (RSC) serves as a platform to promote statistics and the ISI in different parts of the world. The first RSC was organised in Kuala Lumpur, Malaysia in November 2014 and the second one in Bali, Indonesia from 21-24 March, 2017.
