## FOREWORD

**W**elcome to the Monthly presentation organised by the Dissemination Branch of the Zambia Statistics Agency. The Agency embarks on vigorous information delivery strategy to major stakeholders and the media institutions in order to increase utilisation of statistical products and services. The Agency produces a number of statistical products in the Economic, Social, Agricultural and Environmental areas. The information collected in these areas may be used for various purposes including policy formulation, planning, implementation, monitoring and evaluation of development programmes.

This Monthly publication is an attempt to provide highlights of the work of the Agency and how it can help media institutions and the general public to make use of data and information for decision-making and sustainable national development.

I would like to urge our readers and users of statistical information to send to us any comments that may enhance statistical production and contribute to the improvement of this bulletin.

# INFLATION

## CONSUMER PRICE INDEX

### Year on Year Inflation Rate for June 2020 slows down to 15.9 Percent

The year- on- year (Annual)inflationrate as measured by the all items Consumer Price Index (CPI) for June 2020 decreased to 15.9 percent from 16.6 percent recorded in May 2020 (**see figure 1**). This means that on average, prices of

goods and services increased by 15.9 percent between June 2019 and June 2020.

The decrease in the annual rate of inflation was attributed to price decreases in food items.

**Figure 1: Annual Inflation Rates (%), June 2019 -June 2020**

Source: ZamStats Prices Statistics, 2020

Note: 2009=100

### Year to-Date Inflation Rate, June 2020

The Year- to- Date inflation was recorded at 9.3 percent in June 2020; higher than that of the corresponding period in 2019 of 5.3 percent. This means that, the average prices of goods and

services increasedat a faster rate in 2020 compared to the same period in 2019 (**see figure 2**).

Figure 2: Year to Date Inflation Rates, June 2019 and 2020

(December 2018, 2019 =100)

Source: ZamStats, Prices Statistics, 2020

### Year on Year Food and Non-Food Inflation Rate

The year-on-year food inflation rate for June 2020 was recorded at 16.3 percent compared to 17.5 percent recorded in May 2020, indicating a decrease of 1.2 percentage points. This development was mainly attributed to reductions in prices of food items such as cereals (Breakfast mealie meal, Roller meal, Maize grain) and Fish (i.e. Dried Bream, Dried

Kapenta (Chisense), Dried Kapenta (Mpulungu), Bukabuka and Fresh Kapenta) (see figure 3).

The year-on-year non-food inflation rate for June 2020 was recorded at 15.5 percent same as recorded in May 2020. This means that on average, prices of non-food items increased by 15.5 percent between June 2019 and June 2020 (see figure 3).

## Annual Inflation Rate by CPI Main Groups

The Annual Rate of Inflation for June 2020 increased for the following CPI Main Groups

### 1. Alcoholic Beverages and Tobacco

The CPI for the Alcoholic Beverages and Tobacco main group increased by 10.8 percent between June 2019 and June 2020. This means that prices of items in this group increased by 10.8 percent in June 2020 compared to 6.1 percent in the same month of 2019.

A comparison of the annual inflation rates for May 2020 and June 2020 for this group showed an increase from 10.5 percent to 10.8 percent. (see table 1).

### 2. Clothing and Footwear

The CPI for the Clothing and Footwear main group increased by 8.2 percent between June 2019 and June 2020. This means that prices of items in this group increased by 8.2 percent in

June 2020 compared to 6.0 percent in the same month of 2019.

A comparison of the annual inflation rates for May 2020 and June 2020 for this group showed an increase from 7.4 percent to 8.2 percent.

### 3. Housing, Water, Electricity, Gas, & Other Fuels

The CPI for the Housing, Water, Electricity, Gas, & Other Fuels group increased by 18.2 percent between June 2019 and June 2020. This means prices of items in this group increased by 18.2 percent in June 2020 compared to 5.9 percent in June 2019.

Furthermore, a comparison of the annual inflation rates for May 2020 and June 2020 for this group showed an increase from 17.8 percent to 18.2 percent (see table 1).

#### **4. Furnishing, Household Equipment and Household Maintenance**

The CPI for the Furnishing, Household Equipment and Household Maintenance main group Increased by 12.3 percent between June 2019 and June 2020. This means that prices of items in this group increased by 12.3 percent in June 2020 compared to 5.9 percent in the same month of 2019.

A comparison of the annual inflation rates for May 2020 and June 2020 for this group showed an increase from 11.9 percent to 12.3 percent.

#### **5. Health**

The CPI for the Health main group increased by 11.9 percent between June 2019 and June 2020. This means that on average, prices of items in this group increased by 11.9 percent in June 2020 compared to 6.9 percent in the same month of 2019.

Furthermore, a comparison of the annual inflation rates for May 2020 and June 2020 for this group showed an increase from 11.0 percent to 11.9 percent. **(see table 1).**

#### **6. Recreation and Culture**

The CPI for the Recreation and Culture main group increased by 8.8 percent between June 2019 and June 2020. This means that on

average prices of items in this group increased by 8.8 percent in June 2020 compared to 6.5 percent in the same month of 2019.

A comparison of the annual inflation rates for May 2020 and June 2020 for this group showed an increase from 8.0 percent to 8.8 percent, respectively **(see table 1).**

#### **7. Restaurant & Hotel**

The CPI for the Restaurant & Hotel CPI main group increased by 8.9 percent between June 2019 and June 2020. This means prices of items in this group increased by 8.9 percent in June 2020 compared to 6.5 percent in the same month of 2019.

A comparison of the annual inflation rates for May 2020 and June 2020 for this group showed an increase from 8.1 percent to 8.9 percent.

#### **8. Miscellaneous Goods and Services**

The CPI for the Miscellaneous goods and services main group Increased by 10.6 percent between June 2019 and June 2020.

A comparison of the annual inflation rates for May 2020 and June 2020 for this group showed an increase from 10.5 percent to 10.6 percent **(see table 1).**

### **The Annual Rate of Inflation for June 2020 slowed down for:**

#### **1. Food and Non-alcoholic Beverages**

The CPI for the Food and Non-alcoholic beverages main group increased by 16.3 percent between June 2019 and June 2020. This means that prices of items in this group increased by 16.3 percent in June 2020 compared to 9.2 percent in the same month of 2019.

Furthermore, a comparison of the annual inflation rates for May 2020 and June 2020 for this group showed a decrease from 17.5 percent to 16.3 percent **(see table 1).**

#### **2. Transport**

The CPI for the Transport main group increased by 35.3 percent between June 2019 and

June 2020. This means that prices of items in this group increased by 35.3 percent in June 2020 compared to 21.4 percent in the same month of 2019.

A comparison of the annual inflation rates for May 2020 and June 2020 for this group showed a decrease from 39.4 percent to 35.3 percent (see table 1).

### The Annual Rate of Inflation for June remained the same for;

#### 1. Communication

The CPI for the Communication main group increased by 2.3 percent between June 2019 and June 2020. This means that on average prices of items in this group increased by 2.3 percent in June 2020 compared to 0.9 percent in the same month of 2019.

The annual inflation rate for this group remained the same in June 2020 as in May 2020 at 2.3 percent (see table 1).

#### 2. Education

The CPI for the Education main group increased by 1.7 percent between June 2019 and June 2020. This means that on average prices of items in this group increased by 1.7 percent in June 2020 compared to 5.5 percent in the same month of 2019.

The annual inflation rate for this group remained unchanged in June 2020 as in May 2020 at 1.7 percent (see table 1).

## Provincial Annual Inflation Rates

A disaggregation of the annual inflation rate by province shows that the annual inflation rate for June 2020 increased for Luapula, Northwestern and Western provinces.

Annual inflation decreased for Central, Copperbelt, Eastern, Lusaka, Northern and Southern provinces.

Provincial changes in annual inflation rate show that between June 2019 and June 2020, Northern province had the highest rate of annual inflation at 20.2 percent, followed by Central at 17.8 percent.

Eastern province recorded the lowest annual rate of inflation at 11.8 percent (**see table 3**).

**Table 3: Provincial Annual Inflation Rates June 2019 - June 2020 (%)**

### Provincial Contribution to Overall Inflation

At provincial level, Lusaka province made the highest contribution of 5.0 percentage points to the overall annual inflation rate of 15.9 percent recorded in June 2020. This implies that the price movements in Lusaka Province had the highest influence to the overall annual rate of

inflation. Copperbelt province had the second highest contribution of 3.1 percentage points while North Western province had the lowest contribution of 0.5 percentage points (see table 4).

**Table 4: Provincial Contribution to Overall Inflation, June 2019 -June 2020 (%)**

## June 2020 Month on Month Inflation Rate Decreases to 0.2 Percent

The month on month (monthly) inflation rate for June 2020, was recorded at 0.2percent indicating a decrease of 1.4 percentage points from 1.6 percent recorded in May 2020 (**see figure 4**). This means that on average, prices of

goods and services increased by 0.2percent between May 2020 and June 2020.

The slow down in the monthly inflation rate was attributed to general price movements of food and non food items.

**Figure 4: Month on Month Inflation Rate, June 2019 - June 2020(%)**

Source: ZamStats, Prices Statistics, 2020

## Month on Month Inflation Rates for Food and Non-Food Items, June 2019 - June 2020

The monthly food inflation rate for June 2020 was recorded at -0.6percent indicating a decrease of 2.1 percentage points from 1.5 percent recorded in May 2020. This means that on average, prices of food items decreased by 0.6percent between May 2020 and June 2020. This development was mainly attributed to reductions in prices of food items such as cereals

(Breakfast mealie meal, Roller meal, Maize grain).

Non-Food inflation rate for June 2020 was recorded at 1.1 percent, indicating a decrease of 0.6 percentage points from the 1.7 percent recorded in May 2020. (**see table 5**).

**Table 5: Month on Month Inflation Rate: Food and Non-Food Items, June 2019 - June 2020 (%)**

## District Average Prices for Selected Products, June 2020

The Consumer Price Basket consists of 440 items which are spread across selected outlets in all the districts in Zambia. Over 23,000 price quotations are collected from these outlets between 1<sup>st</sup> and 10<sup>th</sup> of every month. Table 6

shows minimum and maximum prices by district for selected products.

**Table 6: District Average Prices for Selected Products, June 2020**

Product Description	Unit of Measure	Minimum		Maximum	
		Price (K)	Location	Price (K)	Location
Breakfast Mealie Meal	25 kg	100.00	Ithezithezimufulira	200.00	Chama, Chiengi, Chavuma, Kabompo
Roller mealie meal	25 kg	79.99.00	Lusaka	180.00	Chiengi
Maize Grain	20 litre tin	30.00	Mafinga	140.00	Sesheke
Cooking Oil	2.5 Litres	60.00	Luangwa	105.50	Kitwe

## National Average Prices for Selected Products, June 2020

Analysis on a monthly basis, of retail prices between May 2020 and June 2020 shows that the national average price of a 25 kg bag of Breakfast Mealie meal decreased by 8.67 percent from K155.91 to K142.39 while the national average price of a 25 kg bag of Roller Mealie meal decreased by 14.17 percent from K133.28 to K114.39. The national average price of a 20 litre tin of Maize grain decreased by 8.12 percent from K58.22 to K53.49.

On an annual basis, the analysis of retail prices between June 2019 and June 2020 shows that the national average price of a 25kg bag of Breakfast Mealie meal increased by 31.89 percent from K107.96 to K142.39. The national average price of a 20-litre tin of Maize grain increased by 19.21 percent from K44.87 to K53.49 (**see table 7**).

## INTERNATIONAL MERCHANDISE TRADE

### May 2020 records a Trade Surplus

Zambia recorded a trade surplus valued at K3,843.4million in May 2020 from K2,231.6 million recorded in April 2020, indicating a 72.2 percent increase. This trade surplus means that the country exported more than it imported in nominal terms.

Exports which mainly comprise of domestically produced goods increased by 17.9 percent from K8,929.5million in April 2020 to K10,524.5 million in May 2020 (see table 8). This increase was mainly on account of a 12.0 percent and 96.0 percent increase in export earnings

from Intermediate goods and Raw Materials, respectively.

Imports decreased by 0.3 percent from K6,697.9 million in April 2020 to K6,681.1 million in May 2020. This decrease in imports was mainly as a result of a 13.3 percent and 5.2 percent decrease in imports of Capital goods and Consumer goods, respectively (see table 8).

The Total trade from January 2020 to May 2020 increased by 5.5 percent to K79,792.2 million from K75,657.3 million in the same period of 2019 (see figure 5).

Table 8: Total Exports (FOB) and Imports (CIF), Jan. 2020 to May 2020 (K' Million)				
Months	Imports(CIF)	Domestic Exports(FOB)	Total Exports(FOB)	Trade Balance

### Performance of Traditional and Non-Traditional Exports, May 2020 and April 2020

The Traditional Exports (TE's) earnings increased by 17.3 percent from K7,045.5million in April 2020 to K8,261.2 million in May 2020. In terms of share in total exports, TEs accounted for 78.5 percent revenue earnings in May

2020. NTEs earnings increased by 20.1 percent from K1,884.0million in April 2020 to K2,263.3million in May 2020. In terms of share in total exports, NTEs recorded a 21.5 percent in May 2020 (**see table 9**).

## Exports of Copper by Volume and LME prices, May 2020 and April 2020

The volume of Refined Copper exported in May 2020 increased by 11.6 percent from 73,717.3 metric tonnes in April 2020 to 82,287.5 metric tonnes.

The Copper prices on LME market for the corresponding months increased by 3.7 percent, from US\$5,048.3 per metric tonne in April 2020 to US\$5,233.8 per metric tonne in May 2020 (see figure 6).

Note: (\*) Provisional, ® Revised

## Performance of Non-Traditional Exports, May 2020 and April 2020

For the purpose of this analysis, Non-Traditional Exports are divided into Agricultural and Non-Agricultural products.

### Agricultural Products

Agricultural products accounted for a share of 22.8 percent of Zambia's Non-Traditional Exports (NTEs) in May 2020 compared to 15.2 percent recorded in April 2020.

The export earnings from Agricultural products increased by 80.3 percent from K286.0 million in April 2020 to K515.7 million in May 2020. The major export commodities were 'Tobacco, not stemmed/stripped' accounting for 19.3 percent, 'Other raw cane sugar' (15.0 percent) and Tobacco, partly or wholly stemmed/stripped (9.3 percent).

### Non-Agricultural Products

Non-Agricultural products accounted for a share of 77.2 percent of Zambia's Non-Traditional Exports (NTEs) in May 2020 compared to 84.8 percent recorded in April 2020.

The export earnings from Non-Agricultural products recorded an increase of 9.4 percent from K1,598.0 million in April 2020 to K1,747.7 million in May 2020. The major export commodities were 'Bullion semi-manufactured forms (Gold)' accounting for 12.3 percent, 'Sulphuric acid; oleum in bulk' (8.3 percent) and 'Quicklime' (5.9 percent) (see table 10).

## Exports by Major Product Categories, May and April 2020

Zambia's major export products in May 2020 were from the intermediate goods category (mainly comprising Copper anodes for electrolytic refining and Copper blister) accounting for 82.1 percent.

Exports from the Raw Materials, Consumer goods and Capital goods categories, collectively accounted for 17.9 percent of Total exports in May 2020 (see figure 7).

## Zambia's Major Export Destinations by Commodity in May 2020

The major export destination in May 2020 was Switzerland, which accounted for 41.5 percent of the total export earnings. The main export product to Switzerland was Copper anodes for electrolytic refining, accounting for 56.3 percent of total export earnings from that country.

China was the second main export destination accounting for 21.9 percent of the total export earnings. The major export products were Copper anodes for electrolytic refining, accounting for 55.3 percent of total export earnings from that country.

Congo DR was the third main export destination accounting for 14.0 percent of the total export earnings. The major export product was Copper concentrate sulphide, accounting for 25.3 percent of total export earnings from that country.

Singapore was the fourth main destination of Zambia's exports accounting for 11.6 percent of the total export earnings. The major export product to Singapore was Copper anodes for electrolytic refining, accounting for 80.0 percent of total export earnings from that Country.

South Africa was the fifth main export destination accounting for 3.3 percent of the total export earnings. The major export products were Bullion semi-manufactured forms (Gold), accounting for 62.4 percent of total export earnings from that country.

These five countries collectively accounted for 92.3 percent of Zambia's total export earnings in May 2020 (see table 11).

## Zambia's Top Five Non-Traditional Export Destinations by Product in May 2020

The major Non Traditional Exports (NTEs) destination in May 2020 was Congo DR, which accounted for 48.7 percent of the total Non-Traditional Export earnings. The main NTE product to Congo DR was, Sulphuric acid; oleum in bulk, accounting for 13.1 percent of total NTEs earnings from that country.

South Africa was the second main destination of Zambia's NTEs accounting for 15.2 percent of the total NTEs earnings. The major NTE product to South Africa was Bullion semi-manufactured forms (Gold) accounting for 62.4 percent of total NTEs earnings from that Country.

Malawi was the third main NTEs destination accounting for 9.0 percent of the total NTEs earnings. The major NTE products was Tobacco, not stemmed/stripped accounting for 48.8 percent of total NTEs earnings from that country.

Switzerland was the fourth main NTEs destination accounting for 5.4 percent of the total NTEs earnings. The major NTE products were Nickel ores and concentrates accounting for 69.8 percent of total NTEs earnings from that country.

The fifth main NTEs destination was China which accounted for 3.3 percent of the total NTEs earnings. The major NTE products were Articles of stone or other mineral substances, nes accounting for 44.2 percent of total NTEs earnings from that country.

These five countries collectively accounted for 81.6 percent of Zambia's total Non-Traditional Exports earnings in May 2020 (**see table 12**).

### Export Market Shares by selected Regional Groupings and Major Trading Partners, May and April 2020

Switzerland was the largest market for Zambia's total exports in May 2020, accounting for 41.5 percent.

Asia was the second largest market for Zambia's total exports, accounting for 34.6 percent in May 2020. Within this grouping, China was the dominant market with 63.3 percent. Other notable markets in this grouping were Singapore, Hong Kong, India and United Arab Emirates.

The DUAL- SADC & COMESA grouping was the third largest market for Zambia's total exports, accounting for 16.5 percent in May 2020. Within this grouping, Congo DR was the dominant export market, accounting for 84.9 percent. Other notable markets in this grouping were Malawi, Zimbabwe, Mauritius and Seychelles.

The SADC exclusive grouping was the fourth largest market for Zambia's total exports,

accounting for 4.0 percent in May 2020. Within this grouping, South Africa was the dominant market with 82.1 percent. Other notable markets within this grouping were Tanzania, Mozambique, Namibia and Botswana.

The European Union was the fifth largest market for Zambia's total exports, accounting for 2.1 percent in May 2020. Within this grouping, Luxembourg was the dominant market with 44.3 percent. Other notable markets in this grouping were Germany, Italy, Netherlands and Sweden.

The COMESA exclusive grouping was the sixth largest market for Zambia's total exports, accounting for 0.5 percent in May 2020. Within this grouping, Kenya was the dominant market with 48.6 percent. Other notable markets were Burundi, Uganda, Ethiopia and Egypt (**see table 13**).

### Import Market Shares by Selected Regional Groupings and Major Trading Partners May and April 2020

Asia was the main source of Zambia's imports accounting for 40.3 percent in May 2020. Within this grouping, China was the main source of Zambia's imports accounting for 47.1 percent. Other notable markets were United Arab Emirates, India, Saudi Arabia and Japan.

The SADC exclusive grouping was the second main source of Zambia's imports accounting for 33.6 percent in May 2020. Within this regional grouping, South Africa was the major supplier of Zambia's imports accounting for 89.4 percent. Other notable markets were Namibia, Mozambique, Tanzania and Botswana.

The European Union (EU) was the third largest source of Zambia's imports accounting for 10.7 percent. Within this grouping, Ireland was

the main source of Zambia's imports accounting for 16.1 percent. Other notable markets were Netherlands, The United Kingdom, Finland and Sweden.

The Dual SADC & COMESA grouping was the fourth main source of Zambia's imports, accounting for 7.3 percent in May 2020. Within this grouping, Congo DR was the dominant market with 36.1 percent. Other notable markets were Mauritius, Zimbabwe, Seychelles and Malawi.

The COMESA exclusive grouping was the fifth largest source for Zambia's imports accounting for 1.2 percent in May 2020. Within this grouping, Kenya was the dominant market with 65.2 percent. Other notable markets were Uganda, Egypt, Rwanda and Tunisia (**see table 15**).

# QUARTERLY GROSS DOMESTIC PRODUCT ESTIMATES

## Economy grows by 0.2 % in the Fourth Quarter of 2019

Gross Domestic Product (GDP) estimates for the fourth quarter of 2019 show that the economy grew by 0.2 percent. This represents a 2.3 percentage point decline from 2.5 percent recorded in the fourth quarter of 2018. This is based on the year on year comparison of GDP at constant 2010 prices.

The quarterly GDP growth rate in 2018 trended upward from 3.0 percent in quarter 1, peaking at 5.9 percent in the third quarter before slowing to 2.5 percent in quarter 4. However, in 2019 the quarterly GDP trended downwards from 2.3 percent in quarter 1 to 0.2 percent in quarter 4. The 0.2 percent in the fourth quarter of 2019 was the lowest recorded in the four years under review (see figure 9).

## 2.0 Industry contribution to the 0.2 percent growth in Q4

The slow growth in the fourth quarter of 2019 was mainly attributed to the under performance of the five industries namely: Wholesale & retail (-2.2 percentage points), Construction (-0.9 percentage points), Transport & storage (-0.6 percentage points), Mining & quarrying (-0.5 percentage points), and the

Electricity industries (-0.3) percentage points). Industries with the highest positive contributions to the fourth quarter growth were the Agriculture, forestry & fishing, Information & communication and Financial & insurance industries with 3.0, 1.1 and 0.4 percentage points, respectively (**see table 16**).

**Table 16: Gross Value-Added Percentage Growth rates and Contribution to Growth by Industry at Constant 2010 Prices, Q1 2018 - Q4 2019**

## 3.0 Industry Growth Rates in the Fourth Quarter of 2019

The industries with the highest growth rates in the fourth quarter of 2019 were the Agriculture, forestry & fishing (61.9 percent), followed by the information & communication (20.1 percent) and the Financial & insurance industry (11.0 percent). However, negative growth rates were recorded in the following

eight industries: the Electricity (-17.5), Transport & storage (-16.6), Arts & entertainment (-14.0), Wholesale & retail trade (-9.6), Construction (-9.1), Mining & quarrying (-4.8), Administrative activities (-1.2) and Water supply at (-0.3) percent.

#### 4.0 Preliminary Annual GDP Estimates for 2019

The preliminary Annual GDP estimates for 2019, derived as the average of four quarters, shows that the economy grew at 1.4 percent in 2019 compared to 4.0 percent in 2018. The Information & communication industry had the highest contribution to the preliminary growth at 0.8 percentage points, followed by the Agriculture, forestry & fishing industry (0.5

percentage points). However, the following contributed negatively to the 1.4 percent preliminary annual GDP growth in 2019: Mining & quarrying and Construction industries with -0.5 percentage points each; and the Electricity and the Transport & storage industries with -0.1 percentage points each (**see table 17**).

#### 2019 Preliminary Gross Domestic Product in Current Prices

The Preliminary 2019 nominal Gross Domestic Product was estimated at K297, 553 million compared to K282,423 million recorded in 2018 (**see table 18**).

The key industries that significantly contributed to the K297,553 million, were the Wholesale &

retail trade industry, Mining & quarrying, Construction, Manufacturing and Transport & storage, collectively accounting for 58.7 percent. The Water supply and the Arts, entertainment & recreation had the lowest share at 0.3 percent each (**see figure 10**).

# AGRICULTURE STATISTICS

## Area Planted to Maize and Expected Maize Production, 2015/16 to 2019/20

The Ministry of Agriculture in collaboration with Zambia Statistics Agency (ZamStats) provides the country with crop production estimates each agricultural season. As such, the Ministry of Agriculture through the Agricultural Statistics and Early Warning Unit together with ZamStats carries out the Crop Forecasting Survey (CFS) during the second quarter of the year.

### Area Planted to Maize

Analysis for the area planted to maize shows a gradual increase in the period 2016 to 2020. The

area planted to maize increased from 1,364,977 hectares in 2015/16 agricultural season to 1,634,873 in the 2019/20 season. The 2016/17 season recorded the highest area of 1,644,741 hectares as total area planted to maize.

Southern, Eastern and Central provinces recorded the largest proportions of area under maize production in the period under review. Southern Province had the largest proportions in all the agricultural seasons under review except for the 2016/17 season in which Eastern Province recorded 390,807 hectares representing 23.8 percent.

### Expected Maize Production

According to the CFS, the country's maize production increased from 2,873,052 in 2015/16 season to 3,387,470 in 2019/20 season. Maize production was forecast at 3,606,549 MT in the 2016/17 season, the largest quantities recorded in the last five agricultural seasons.

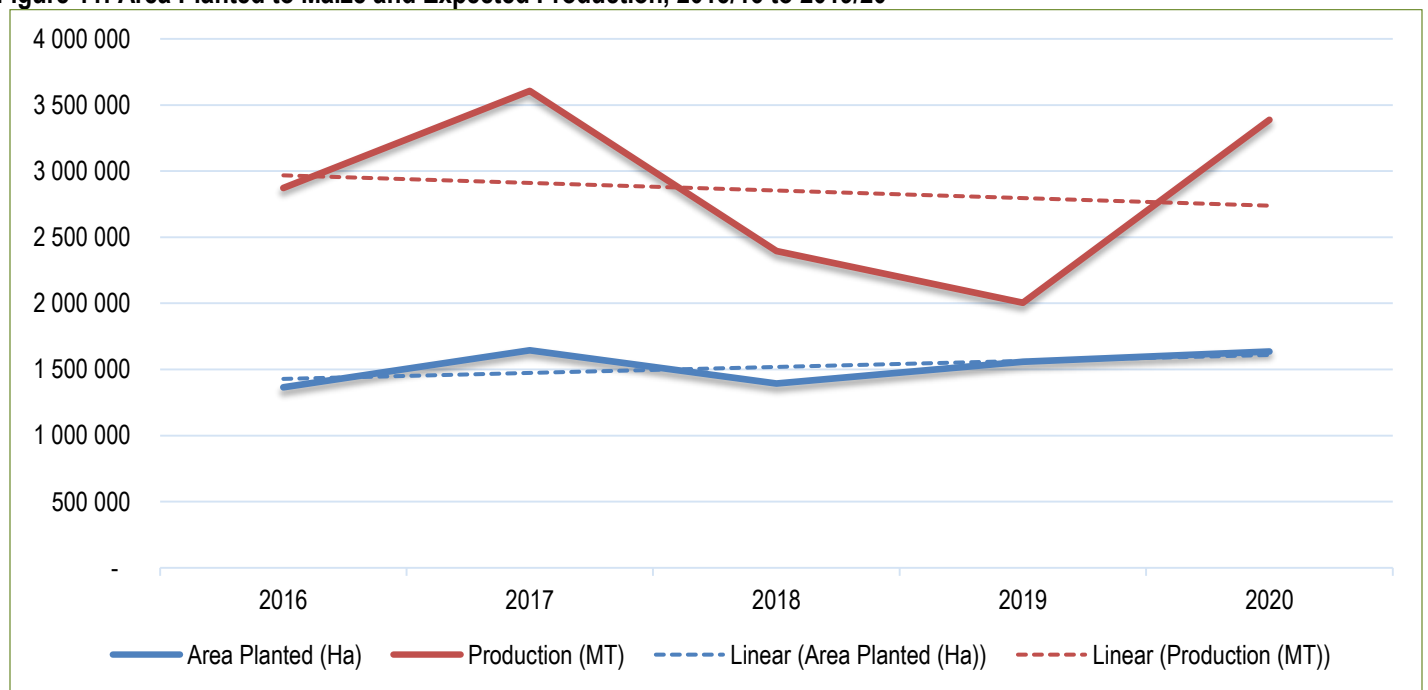

At provincial level, for the 2015/16, 2017/18 and 2019/20 seasons, Central Province recorded the

largest forecast production of 648,114MT, 466,877MT and 663,682MT respectively. However, Eastern Province recorded the largest forecast production of 881,413MT and 500,411MT accounting for 24.4 and 25.0 percent of total maize production for the 2016/17 and 2018/19 seasons, respectively.

# ZAMBIA DEMOGRAPHIC AND HEALTH SURVEY

## Luapula Province Tops on Total Fertility Rates in Zambia

### Introduction

The total fertility rate (TFR) of a population is the average number of children that would be born to a woman over her lifetime if:

She was to experience the exact current age-specific fertility rates (ASFRs) through her lifetime, and  
She was to survive from birth to the end of her reproductive life.

TFR is obtained by summing the single-year age-specific rates at a given time.

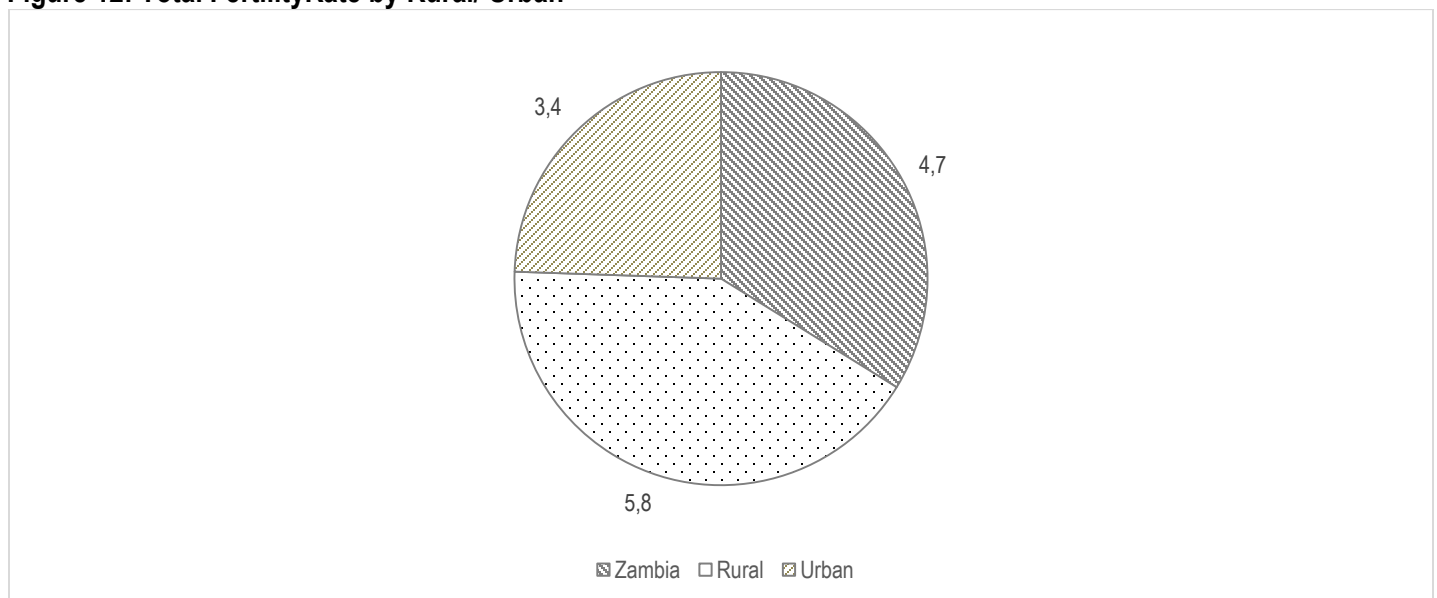

### Age Specific Fertility Rate

The age-specific fertility rate measures the annual number of births to women of a specified age or age group per 1,000 women in that age group. This shows the age pattern of fertility.

### Zambia: Fertility Rate

According to the 2018 Zambia Demographic and Health Survey (ZDHS), Zambia's TFR was recorded at 4.7 children per woman. Therefore, this means that a woman is expected to have about 5 children by the time she reaches the end of her reproductive life. An analysis by rural and urban shows that, TFR was lower in urban areas at 3.4 and 5.8 children per woman, respectively.

Figure 12: Total Fertility Rate by Rural/ Urban

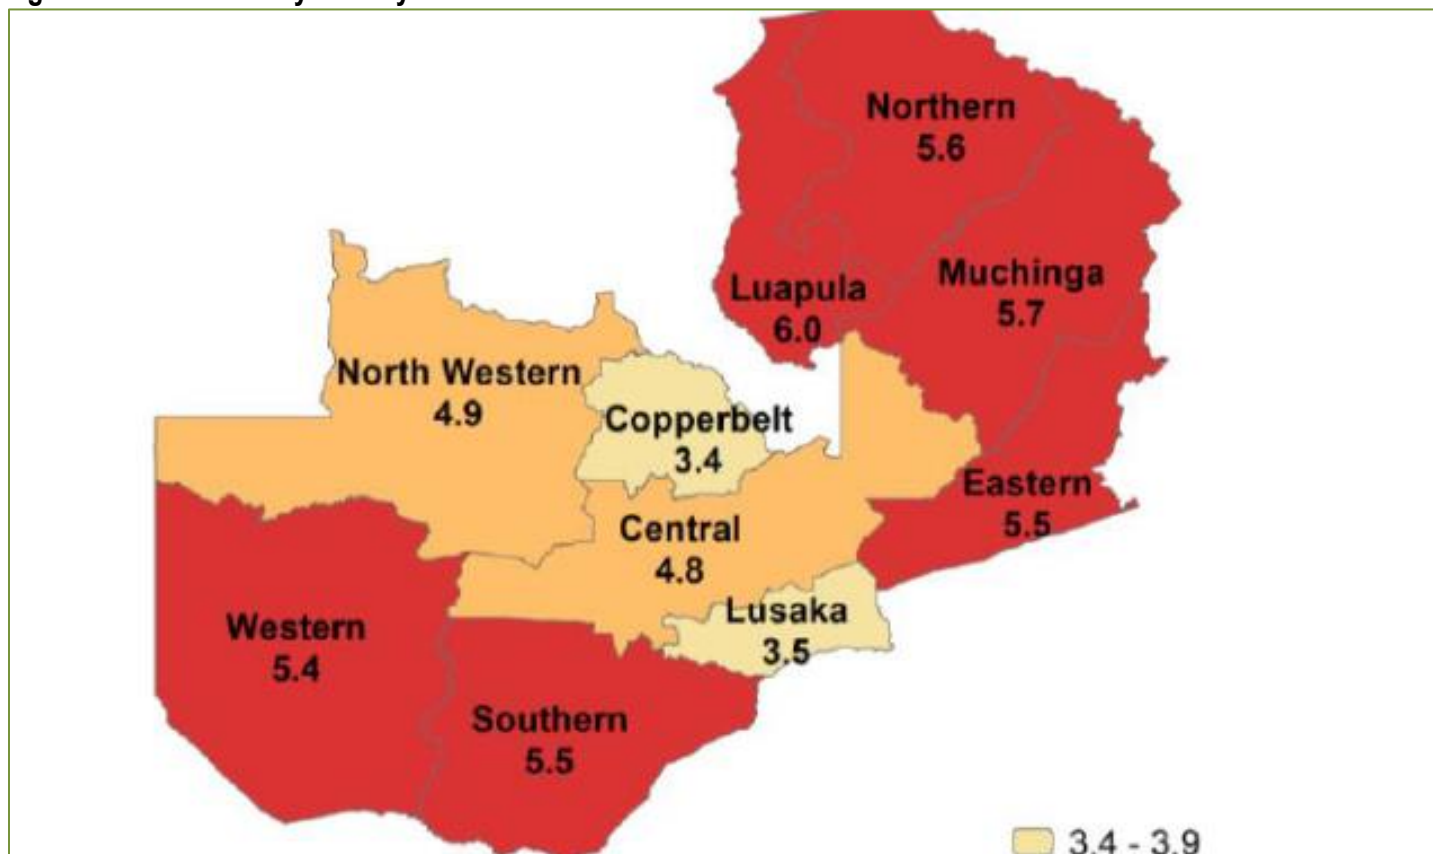

Source: ZamStats, 2018 Zambia Demographic and Health Survey

### Total Fertility Rate by Province

At provincial level, TFR ranged from a low of 3.4 children per woman on the Copperbelt

Province to a high of 6 children per woman in Luapula Province.

Figure 13 : Total Fertility Rate by Province

Source: ZamStats, 2018 Zambia Demographic and Health Survey

### Fertility Rate by wealth status

Total Fertility Rate differs among women with different levels of wealth. Women in the lowest wealth quintile have the highest total fertility

rate at 6.7 children as compared to those in the highest wealth quintile at 3 children per woman.

## 2020 CENSUS UPDATE

Preparations towards the Census 2020 are currently underway, among them is the Mapping and Listing exercise being carried out nationally. The exercise has been staggered in three (3) phases. The First phase covered Lusaka province. The second phase covered Copperbelt, Eastern, Luapula, North-western and Western provinces. The third phase will cover Central, Muchinga, Northern and Southern provinces.

### Current Status on Mapping in the Four Provinces

Training of Map Data Collectors is being conducted in the four provinces. District Coordinators have been deployed in the

respective provinces to ensure that shortlisted candidates are trained to work as MDCs.

### Recruitment

On recruitment in the districts, committees have been instituted to carry out the exercise. Youths aged 18 to 25 years and eligible female applicants with at least 5 'O' levels including Mathematics and English were shortlisted to sit for Aptitude Tests.

The third and final phase will see 1,600 youths being deployed in the four provinces.

Some sections of society have expressed worry with the online application and misunderstood the whole concept of application by alluding that applicants need to have access to the

internet. I wish to inform this August house that you do not need the internet to apply for the temporal jobs. All you need is a mobile phone and a K10 to apply. I wish to use this platform to assure the citizenry that the system is transparent and makes it easy for ZamStat to meet target deadlines, given the tight schedule of the census. Additionally applicants are relieved of worries about mail delivery costs or mail not being delivered on time or letters getting lost, or application being subjected to some favouritism which can result in mistrust between the general public and the Agency.

## **Government Involvement**

The Ministry of National Development Planning through ZamStats is working closely with the Provincial Permanent Secretaries and District Commissioners in the 46 districts of the four provinces to help coordinate the Census activities.

The 2020 Census is a community driven national project and government is committed to engage youths to work in the areas where they live as they are familiar with the people, language spoken and places within their community.

## **Measures taken in Covid-19**

Government is taking precautionary measures to ensure that the MDCs adhere to the health regulations by among others putting on masks and observing social distancing.

Members of the public are therefore urged to ensure they give the Map Data Collectors the necessary information needed to ensure a successful census.

# GET TO KNOW YOUR NEW STATISTICS ACT of 2018

Welcome to the Statistics Act Corner, initiated last month in order to help our other readers, including all data producers and users to gain some insight on the law governing statistics production and dissemination in Zambia. These awareness articles will continue to run in the coming months.

In our last bulletin, one of the key questions asked to our readers was if they were aware that Zambia had a new Statistics Act. It is our hope that all our readers can now give an overwhelming “YES”.

## **What are the Functions of Zambia Statistics Agency?**

One of the highlights, in the previous Bulletin informed readers that the new Act reconstitutes the former Central Statistical Office (CSO) into a corporate body named Zambia Statistics Agency (ZamStats). The new Law provides several functions of ZamStats. In this article, we share with you some of the functions of ZamStats and you can see the rest of the functions in the Statistics Act:

- Develop and coordinate an integrated National Statistical System;
- Establish consultative mechanisms for effective dialogue with a statistical agency or user for the purposes of this Act;
- Advise the Minister on matters related to official statistics and other statistics;
- Review all initiatives to collect data at the national level in the context of an integrated National Statistical System;
- Approve an instrument for data collection developed for national level data collection, including a census frame, register, sample design and questionnaire to be used in conducting a census and survey;
- Promote and encourage use of common concepts, definitions, nomenclatures and standards in the collection, analysis and dissemination of statistics in order to ensure integration of the National Statistical System;
- Compile, analyse, abstract and disseminate demographic, social, economic, financial, agricultural, environmental and other statistics;

In subsequent articles, some of these functions will be elaborated on in order for the readers to understand these **MANY** functions of the new ZamStats.

**Don't Miss out!**

Until next time, find more details on the New Statistics Act, on our website:  
[www.zamstats.gov.zm](http://www.zamstats.gov.zm)
