CONGRATULATIONS

The Board, Management and Staff of the Zambia Statistics Agency (**ZamStats**) wish to congratulate **His Excellency, Mr. Hakainde Hichilema** on his election as the seventh **President of the Republic of Zambia.**

We further extend our heartfelt congratulations to **the Vice President Her Honour Mrs. Mutale Nalumango.**

The Agency wishes you God's protection, guidance and wisdom as you pursue your vision for a prosperous Zambia during your tenure of Office.

Foreword

Welcome to our monthly dissemination of selected official statistics. The Zambia Statistics Agency (ZamStats), embarks on vigorous information delivery strategy to major stakeholders and the media institutions in order to promote understanding and use of official statistics both within and outside Zambia. The Agency produces a number of statistical products in the Economic, Social, Agricultural and Environmental theme areas. The information collected in these areas may be used for various purposes including policy formulation, planning, implementation, monitoring and evaluation of development programmes.

This Monthly publication is an attempt to provide highlights of the work of the Agency and how it can help media institutions and the general public to improve understanding and uptake of statistical information for decision-making and sustainable national development.

I would like to urge our readers and users of statistical information to send to us any comments that may enhance statistical production and contribute to the improvement of this bulletin.

Inflation

Consumer Price Index

Year-on-Year Inflation Rate for August 2021 slows down to 24.4 Percent

The Annual inflation rate for August, 2021 decreased to 24.4 percent from 24.6 percent recorded in July 2021. This means that on average, prices of goods and services increased by 24.4 percent between August 2020 and August 2021 (see Figure 1).

The decrease in the annual rate of inflation was mainly attributed to price movements in non-food items.

Annual Food and Non-Food Inflation

The annual food inflation rate for August, 2021 was recorded at 31.6 percent compared to 31.2 percent recorded in July 2021, an increase of 0.4 percentage points (see Figure 2).

This was mainly attributed to increases in prices of food items such as Meats (Brisket, Mixed Cut, T-bone, Beef Sausages, Goat meat, chicken frozen and chicken live); and Fruits (Oranges, Lemons, Bananas, Apples).

The annual non-food inflation rate for August 2021 was recorded at 16.3 percent from 17.0 percent in July 2021. The decrease in inflation rate was mainly attributed to Price decreases in Purchases of Motor vehicles (Toyota Hilux, Toyota corolla, Nissan Almera 1.5 L Acenta, Nissan Hardbody).

July 2021 recorded a Trade Surplus

Zambia recorded a trade surplus of K3.6 billion in July 2021 compared to a surplus of K5.7 billion in June 2021 indicating a 36.1 percent decrease (see Table 10).

Exports mainly comprising domestically produced goods, declined by 5.1 percent to K18.5 billion in July 2021 from K19.5 billion in June 2021. This was on account of decreases in export earnings of Raw materials, Consumer goods, Capital goods

and Intermediate goods by 17.8 , 14.7, 3.4 and 2.7 percent, respectively (see Table 2.2 in Annex).

Imports increased by 7.6 percent to K14.9 billion in July 2021 from K13.8 billion in June 2021. This was mainly as a result of a 20.1 and 16.9 percent increase in import bills of Consumer goods and Capital goods, respectively (see Table 2.5 in Annex).

Layman and Statistics

Demographic Statistics

Census: The count of a given population (or other phenomena of interest) and record its characteristics, done at a specific point in time and usually at regular intervals by a government entity (or any other entity) for the geographic area or subareas under its domain. Examples include Population Census, Housing Census, Census of Business establishments, Agriculture Census etc.

Census Coverage: An estimate of how complete a census was of a given population.

Census Night: The night preceding the Population Census.

Geographical and Mapping

Boundary: A line which defines the extent of an aerial unit or the locations where two areas meet. A boundary is represented in a GIS as a line feature which may define a side of a polygon. The boundary may or may not be visible on the ground, i.e., it can follow real world features, such as roads and rivers or it can be defined solely by geographic coordinates.

Geographical Information System (GIS): A computer system capable of capturing, storing, editing, integrating, manipulating, analysing and displaying data related to positions on Earth's surface.

Global Positioning System (GPS): The Global Positioning System (GPS) is a space-based navigation system that provides location and time information in all weather conditions, anywhere on or near the Earth where there is an unobstructed line of sight to four or more GPS satellites.

Constituency: An electoral boundary segmented for the purpose of electing a member of the National Assembly.

Constituency Boundary: A Constituency Boundary is a representation of a constituency on an election thematic map and is symbolized as a polygon feature. A collection of wards forms a Constituency.

Province: An area with defined boundaries either by counties, districts, countries or any other specificity, which can clearly differentiate boundaries and is normally named according to the compass direction with respect to the surrounding areas. It can be administrative or statistical.

Ward: A Ward is an electoral boundary segmented for the purpose of electing a councillor.

Rural Area: An area that lacks most if not all the facilities/amenities found in the urban areas. The population tends to be scattered.

Urban: is a place-based characteristic that incorporate elements of population density, social and economic organization, and the transformation of the natural environment into a built environment.

Urbanization: The process by which there is an increase in the proportion of people living in urban areas. The common indices used to describe urbanization are: population size, population density and level of administration.

Urbanization: refers to a broad-based rural to urban transition involving population, land use, economic activity and culture, or any of these.

Consumer Price Index (CPI):

Consumer Price Index (CPI): measures changes over time in the general level of prices of goods and services that households acquire for the purpose of consumption. The basket relates to a selection of goods and services that is representative of the consumption habits of most households in the country.

Inflation: **Inflation** is defined as a sustained increase in the general level of prices for goods and services over a period of time.

Annual Inflation: The annual Inflation Rate is the change in the CPI for all items of the relevant month of the current year compared with the CPI for all items of the same month in the previous year expressed as a percentage.

Consumption: any activity in which households use goods and/or services to satisfy their needs and wants but not for business purposes nor for the acquisition of wealth. Thus investment in all forms of assets is excluded.

International Merchandise Trade and Balance of Payment Statistics

Balance of Payments (BOP): These are the summaries of all transactions that a country's individuals, companies and government bodies complete with individuals, companies and government bodies outside the country.

Bill of Entry: This is a document against which goods are entered to obtain customs clearance and with which any duties thereon are paid.

Capital goods; these are physical assets that are used in the production process to manufacture products and services.

Certificate of Origin: This an important international document that certifies that goods in a particular export shipment are wholly obtained, produced, manufactured or processed in a particular country. They also serve as a declaration by the exporters.

Consumer goods; these are goods designed for use by final consumers.

Cost Insurance and Freight (CIF): The type of values including the transaction value of the goods, the value of services performed to deliver goods to the border of the exporting country and the value of the services performed to deliver the goods from the border of the exporting country to the border of the importing country.

Free On Board (FOB): The type of values including the transaction value of the goods and the value of services performed to deliver goods to the border of the exporting country.

Goods in Transit: This refers to goods simply being transported through a country.

Intermediate goods; these are products which are not final but are used as inputs for production.

Raw Material; these are materials in unprocessed or minimally processed states, used to produce finished or intermediate goods.

Statistics Act, No.13 of 2018
