## Foreword

**W**elcome to our monthly dissemination of selected official statistics. The Zambia Statistics Agency (ZamStats), embarks on vigorous information delivery strategy to major stakeholders and the media institutions in order to promote understanding and use of official statistics both within and outside Zambia. The Agency produces a number of statistical products in the Economic, Social, Agricultural and Environmental theme areas. The information collected in these areas may be used for various purposes including policy formulation, planning, implementation, monitoring and evaluation of development programmes.

This Monthly publication is an attempt to provide highlights of the work of the Agency and how it can help media institutions and the general public to improve understanding and uptake of statistical information for decision-making and sustainable national development.

I would like to urge our readers and users of statistical information to send to us any comments that may enhance statistical production and contribute to the improvement of this bulletin.

# Inflation

## INFLATION

### Consumer Price Index

#### Year- on -Year Inflation Rate for February 2022 slows down to 14.2 Percent

Annual inflation for February, 2022 eased to 14.2 percent from 15.1 percent recorded in January, 2022. This means that on average, prices of goods and services increased by 14.2 percent between February 2021 and February 2022 (see Figure 1).

The slowdown in annual inflation was mainly attributed to the easing in prices of some food and non-food items.

The easing of both food and non-food annual inflation was mainly due to the base effect.

**Figure 1: Annual Inflation Rate, February 2021 – February 2022 (%)**

Source: ZamStats Prices Statistics, 2022

Note: 2009=100

The base effect can be defined as the contribution to the change in the year-on-year inflation rate in a particular month that stems from a deviation of the month- on-month rate of change in the base month (i.e. February 2021); the same month one year earlier) from the usual seasonal pattern (22.2 to 14.2%).

## Annual Food and Non-Food Inflation

Annual food inflation for February, 2022 was recorded at 16.0 percent compared to 16.9 percent recorded in January 2022 (**Figure 2**).

This development was mainly attributed to price movements in food items such as Meat (Rump Steak, Brisket, Mixed Cut, Mince Meat, Offal's, Plain Pork Sausages, Pork Chops, Chicken Live); Fruits (Lemons, Oranges, Pineapples, Bananas); and Vegetables (Pumpkin Leaves, Sweet Potato Leaves (Kalembula), Lumanda, Green Beans, Eggplant, Cucumber, Impwa, Green pepper, Pumpkin, Maize cobs, Mushrooms); Fresh milk, Eggs, and butter.

The annual non-food inflation for February 2022 was recorded at 11.8 percent from 12.7 percent in January 2022.

The decrease in inflation was mainly attributed to price movements of non-food items such as Education (Secondary school fees); Garments (Mens Trouser imported, Ladies Half-slip, Ladies shirt, Boys short, Boys shirt, Ladies sweater); Materials for maintenance and repair of dwelling (Cement, roofing sheets, Concrete block-6 inch block, Floor tiles-Porcelain-60x60), and Lounge suit.

## Annual Inflation Rate by CPI Main Groups

The Annual Inflation Rate for February 2022 increased for the following CPI main groups as shown in Table 1.

### 1. Transport

The CPI for the Transport main group increased by 8.2 percent between February 2021 and February 2022. This was lower than 29.3 Percent in the same month of 2021 and as well as below the 3.0 percent recorded in January 2022.

### 2. Recreation and Culture

The CPI for the Recreation and Culture main group increased by 16.8 percent between February 2021 and February 2022. This was above the 13.3 percent in the same month of 2021 and higher than 16.5 percent recorded in January 2022.

The Annual Rate of Inflation for February 2022 decreased for the following CPI Main Groups.

### 1. Food and Non-alcoholic Beverages

The CPI for the Food and Non-alcoholic beverages main group increased by 16.0 percent between February 2021 and February 2022. This was in comparison to an increase of 16.0 percent during the 12-month period compared to 27.3 percent over the corresponding period in 2021 and was lower than 16.9 percent recorded in January 2022.

### 2 Alcoholic Beverages and Tobacco

The index for the Alcoholic Beverages and Tobacco main group increased by 11.3 percent between February 2021 and February 2022. This was lower than the 12.9

percent in the same month of 2021 and below 12.3 percent recorded in January 2022.

### 3. Clothing and Footwear

The CPI for Clothing and Footwear increased by 13.3 percent between February 2021 and February 2022. This was higher than the 12.9 percent in the same month of 2021 and below 15.7 percent recorded in January 2022.

### 4. Housing, Water, Electricity, Gas, & Other Fuels

The CPI for the Housing, Water, Electricity, Gas & Other Fuels group increased by 14.8 percent between February 2021 and February 2022. This was higher than the 13.2 percent recorded in the same month of 2021 and below the 17.5 percent recorded in January 2022.

### 5. Furnishing, Household Equipment and Household Maintenance

The CPI for the Furnishing, Household Equipment and Household Maintenance main group increased by 12.0 percent between February 2021 and February 2022. This was lower than the 19.4 percent recorded in the same month of 2021 and below 14.9 percent recorded in January 2022.

### 6. Health

The index for the Health main group increased by 7.9 percent between February 2021 and February 2022. This was lower than 15.5 percent in the same month of 2021 and below 10.3 percent in January 2022.

## 7. Communication

The CPI for the Communication main group increased by 2.7 percent between February 2021 and February 2022. This was lower than the 3.4 percent in the same month of 2021 and below 3.3 percent recorded in January 2022.

## 8. Education

The CPI for the Education main group increased by 2.5 percent between February 2021 and February 2022. This was lower than 5.3 percent in the same month of 2021 and below 3.7 percent recorded in January 2022.

## 9. Restaurant & Hotel

The index for the Restaurant & Hotel main group increased by 11.9 percent between February 2021 and February 2022. This was the same as that recorded in the same month of 2021 and below 12.7 percent recorded in January 2022.

## 10. Miscellaneous Goods and Services

The CPI for the Miscellaneous Goods and Services main group in February 2022 remained the same as that recorded in the same month of 2021; and lower than 14.1 percent recorded in January 2022.

## Contribution of CPI Main Groups to Overall Inflation Rate of 14.2 Percent

The Food and Non-alcoholic beverages group contributed 9.0 percentage points, while Non-food items accounted for 5.2 percentage points to the overall inflation rate of 14.2 percent. Of the 5.2 percentage points, the Housing, water, electricity, gas and other fuels contributed the highest at 1.7 percentage points

followed by Clothing and Footwear and Furnishings

Household equipment and routine household maintenance groups that contributed 1.0 and 0.9 percentage points respectively. The rest of the Non-Food groups accounted for the remaining 1.6 percentage points (**see Table 2**).

Source: ZamStats, Prices Statistics, 2022

\*Note: Figures may not add up to national total due to rounding off

February 2022 Overall Monthly Inflation decreased to 1.7 Percent. Overall monthly inflation for February, 2022 was recorded at 1.7 percent, a decrease of 0.9 percentage points from 2.6 percent the

previous month (see Figure 3). This decrease was attributed to general price movements in both food and non-food items.

**Figure 3: Overall Monthly Inflation Rate, Feb 2021 - Feb 2022 (%)**

Source: ZamStats, Prices Statistics, 2022

### Monthly Inflation Rates for Food and Non-Food Items, February 2021 - February 2022

The monthly food inflation rate for February 2022 was recorded at 1.9 percent, a decrease of 1.2 percentage points from 3.1 percent in January 2022. This outturn was mainly attributed to a decrease in food inflation of items such as Cereals (Bread, Wheat Plain Household Flour, Sorghum, Cassava meal, Millet meal); Meats (Fillet Steak, Rump Steak, Brisket, Mixed cut, T-bone, ox-liver, Goat Meat) ; Vegetables ( Cabbage, Chinese

Cabbage, Green Beans, Carrots) ; and Frozen Fish.

The monthly non-food inflation rate for February, 2022 was recorded at 1.5 percent from 1.9 percent in January, 2022. This development was mainly attributed to the general decrease in prices of items such as Fuels and lubricants (Diesel, Petrol); Education (school fees), Television Colour-HD Ready-LED 32 inch, and Hp Printers. (**see Table 5**).

**Table 5: Overall Monthly Inflation Rate for Food and Non-Food Items, February 2021 - February 2022(%)**

## International Merchandise Trade

### Total Trade Jan 2022

Total trade for the month of January 2022 was K26.8 billion while that of 2021 for the same month was K25.7 billion,

representing a 4.5 percent increase (see Figure 4).

**Figure 4: Total Trade, Jan (2022 and 2021) (K' Billion)**

Source: ZamStats, International Trade Statistics, 2022

Note: Total Trade = (Exports + Imports)

### Total Exports and Imports by Mode of Transport, Jan 2022

The total value of exports via all modes of transport for the month of January 2022 was K16.67 billion. Road transport accounted for K8.26 billion representing 49.5 percent, Air transport was second at K175.8 million (1.1 percent) and Rail transport was third accounting for K10.4 million (0.1 percent). Other modes of transport accounted for K8.23 billion (49.4 percent).

In terms of volume, the total volume of exports for the month of January 2022 was 479.4 thousand mt, of which Road transport accounted for 403.9 thousand mt, representing 84.2 percent. Rail transport accounted for 0.9 thousand mt, representing 0.2 percent, Air transport accounted for 0.3 thousand mt (0.1 percent), while other modes accounted for 74.4 thousand mt (15.5 percent) (see Table 8).

**Table 8: Total Exports by Mode of Transport, Jan (2022)**

Mode of transport	K' Billion	Value % Share	Mt (000)	Volume % Share
Road Transport	8.26	49.5	403.9	84.2
Rail Transport	0.01	0.1	0.9	0.2

The total value of Imports via all modes of transport for the month of January 2022 was K10.2 billion. Road transport was the highest at K6.2 billion representing 61.3 percent share, followed by Air transport at K0.8 billion (7.8 percent). Rail transport was third at K0.1 billion accounting for 1.3 percent of the total import bill. Other modes of transport accounted for K3.0 billion (29.6 percent).

In terms of volumes, a total of 393.5 thousand mt of imports was recorded for the month of January 2022, of which Road transport accounted for 231.3 thousand mt, representing the highest share at 58.8 percent, followed by Rail transport which accounted for 17.3 thousand mt, representing a share of 4.4 percent. Air Transport was third accounting for 0.7 thousand mt (0.2 percent), while other modes accounted for 144.2 thousand mt (36.6 percent) (**see Table 9**).

**Table 9: Imports by Mode of Transport, Jan (2022)**

### January 2022 records a Trade Surplus

Zambia recorded a trade surplus of K6.5 billion in January 2022 compared to a surplus of K6.8 billion in December 2021; representing a 4.7 percent decrease (see Table 10).

Exports mainly comprising domestically produced goods, decreased by 6.0 percent to K16.7 billion in January 2022 from K17.7 billion in December 2021. This was mainly on account of a 30.8, 3.4 and 19.8 percent decrease in export earnings

from Consumer goods, Intermediate goods and Capital goods, respectively (see Table 2.2 in Annex).

Imports decreased by 6.9 percent to K10.2 billion in January 2022 from K10.9 billion in December 2021. This was mainly as a result of 18.2 and 23.5 percent decrease in import bills of Capital goods and Consumer goods, respectively (**see Table 2.5 in Annex**).

**Table 10: Total Exports, Imports and Trade Balance, Jan. 2021 to Jan. 2022 (K' Billion)**

### Performance of Traditional and Non-Traditional Exports, January 2022

Traditional Exports (TE's) earnings decreased by 0.6 percent to K13.2 billion in January 2022 from K13.3 billion in December 2021.

In terms of share in total exports, TE's accounted for 79.4 percent of export earnings in January 2022.

NTE earnings decreased by 22.3 percent to K3.4 billion in January 2022 from K4.4 billion in December 2021.

In terms of share in total exports, NTEs accounted for 20.6 percent of total export earnings in January 2022 (**see Figure 5**).

### Export Earnings of Refined Copper and LME Copper Prices, January 2022

Export earnings from refined copper in January 2022 decreased by 0.3 percent to K13.23 billion from K13.27 billion in December 2021.

Export volumes in January decreased by 0.1 percent to 81.2 thousand mt

from 81.3 thousand mt in December 2021.

Copper prices on LME market for the corresponding months increased by 2.4 percent to US\$ 9,775.9 per mt in January 2022 from US\$9,550.3 per mt in December 2021 (see Figure 6).

## Zambia's Major Non-Traditional Exports, January 2022

For the purpose of this analysis, non-traditional exports are disaggregated into agricultural and non-agricultural products.

### Agricultural Products

Agricultural products accounted for a share of 21.8 percent of Zambia's (NTEs) in January 2022 compared to 26.4 percent in December 2021.

Export earnings from agricultural products decreased by 35.8 percent to K0.7 billion in January 2022 from K1.2 billion in December 2021. The

major export commodities were Groats and meal of maize (corn) (18.4 percent), Oil-cake of soya-bean (16.3 percent) and Coffee, not roasted or decaffeinated accounting for 6.3 percent, (see Figure 10 & Annex 2.14).

### Non-Agricultural Products

Non-agricultural products accounted for a share of 78.2 percent of Zambia's NTEs in January 2022 compared to 73.6 percent in December 2021.

Export earnings from non-agricultural products recorded a decrease of 17.4 percent to K2.7 billion in January 2022 from K3.3 billion in December 2021. The major export commodities were Ferro-silico-manganese (10.0

percent), Sulphur of all kinds (9.6 percent) and Other non-alcoholic beverages accounting for 7.3 percent (see Figure 8 & Annex 2.14).

**Figure 8: Total Values and Shares of Agricultural and Non-Agricultural Non-Traditional Exports, Jan. 2022 and Dec. 2021**

Source: ZamStats, International Trade Statistics, 2021

Note: (\*) Provisional, (®) Revised

### Revised Product Categories

The Zambia Statistics Agency (ZamStats) in corroboration with members of the Balance of Payment Statistical Committee (BoPSC) revised the categorization of goods into Raw materials, Capital, Consumer and Intermediate goods. This was necessitated by the observed changes over time in the treatment and usage of internationally traded goods in the Zambian economy.

The new categorisations have been revised with guidelines from the Broad Economic Category (BEC), an

international classification which borders on product end use approach. Beginning this month, January 2022 trade statistics on major product categories will be disseminated using the revised categories. A back series of the revised categories will be provided upon request. For users who would wish to use the old categories data is provided in the annex.

## Exports by Major Product Categories, January 2022

Zambia's major export products in January 2022 were from the intermediate goods category (mainly comprising copper anodes for electrolytic refining and Electro-refined copper cathodes (High Purity) accounting for 91.0 percent.

Exports from the consumer goods, raw materials and capital goods categories, collectively accounted for 9.0 percent of total exports in January, 2022 (see Figure 9).

Note: (\*) Provisional ® Revised

## Zambia's Major Export Destinations by Commodity, January 2022

The major export destination in January 2022 was Switzerland, which accounted for 41.2 percent of the total export earnings. The main export product to Switzerland was copper anodes for electrolytic refining accounting for 68.2 percent of total export earnings from that country.

China was the second main destination of Zambia's exports accounting for 23.2 percent of the total export earnings. The major export product to China was copper anodes for electrolytic refining, accounting for 62.1 percent of total export earnings from that country.

Singapore was the third main export destination accounting for 13.8 percent of the total export earnings. The major export products were, copper anodes for electrolytic refining, accounting for 70.3

percent of total export earnings from that country.

Congo DR was the fourth main export destination accounting for 10.0 percent of the total export earnings. The major export products were Sulphur of all kinds accounting for 15.4 percent of total export earnings from that country.

South Africa was the fifth main export destination accounting for 1.8 percent of the total export earnings. The major export product was Bullion semi-manufactured forms (Gold) accounting for 30.6 percent of total export earnings from that country.

These five countries collectively accounted for 90.1 percent of Zambia's total export earnings in January, 2022 (**see Table 11 & Annex 2.11**).

**Table 11: Zambia's Five Major Export Destinations, Jan. 2022**

## Zambia's Top Five Non-Traditional Export Destinations by Product, January 2022

The major NTEs destination in January, 2022 was Congo DR, which accounted for 48.7 percent of the total NTE earnings. The main export products to Congo (DR) were Sulphur of all kinds accounting for 15.4 percent of total NTE earnings from that country.

South Africa was the second main destination accounting for 8.2 percent of the total NTE earnings. The major export product was Bullion semi-manufactured forms (Gold) accounting for 32.2 percent of total NTE earnings from that country.

Zimbabwe was the third main destination accounting for 7.0 percent of the total NTE earnings. The major export products were Portland cement (excl. white) accounting for 19.3 percent of total NTE earnings from that country.

Italy was the fourth main destination accounting for 5.2 percent of the total NTE earnings. The major export product was Ferro-silico-manganese accounting for 48.9 percent of total NTE earnings from that country.

The fifth main destination was Tanzania, which accounted for 3.1 percent of the total NTE earnings. The major export products were Oil-cake and other solid residues, of soya-bean accounting for 32.2 percent of total NTE earnings from that country.

These five countries collectively accounted for 72.1 percent of Zambia's total NTE earnings in January, 2022 (**see Table 12 & Annex 3.12**).

### Export Market Shares by Selected Regional Groupings and Major Trading Partners, January 2022

Switzerland was the largest market for Zambia's exports in January 2022, accounting for 41.2 percent of export earnings.

Asia was second accounting for 38.8 percent of export earnings in January 2022. Within this grouping, China was the dominant market with 59.8 percent followed by Singapore with 35.5 percent. Other notable markets in this grouping were, Hong Kong (2.6 percent), Pakistan (0.7 percent), and United Arab Emirates (0.4 percent).

The DUAL-SADC & COMESA grouping was third accounting for 12.2 percent of export earnings in January 2022. Within this grouping, Congo DR was the dominant market with 81.9 percent followed by Zimbabwe with 11.8 percent. Other

notable markets within this grouping were Malawi (4.5 percent) and Mauritius (1.8 percent).

The SADC Exclusive grouping was fourth accounting for 3.0 percent of export earnings in January 2022. Within this grouping, South Africa was the dominant market with 58.9 percent followed by Tanzania with 21.6 percent. Other notable markets were Botswana (7.4 percent), Mozambique (4.5 percent) and Namibia (4.3 percent).

The European Union (EU) was fifth accounting for 2.8 percent of export earnings in January 2022. Within this grouping, Italy was the dominant market with 38.0 percent followed by Luxembourg (31.3 percent). Other notable markets were Netherlands (9.6 percent), Germany (9.0 percent) and Spain (3.9 percent).

COMESA exclusive grouping was sixth accounting for 1.1 percent of export earnings in January 2022. Within this grouping, Kenya was the dominant market with 46.9 percent followed by

Uganda with 20.0 percent. Other notable markets were Burundi, Rwanda and Egypt, collectively accounting for 31.9 percent (**see Table 13 & Annex 2.13**).

**Table 13: Export Market Shares by Selected Regional Groupings and Major Trading Partner, Jan. and Dec. 2021**

Grouping	Jan -22*		Grouping	21-Dec	
	K'Billion	% Share		K'Billion	% Share

### Zambia's Major Import Sources by Product, January 2022

The major source of imports in January 2022 was South Africa, accounting for 25.7 percent of the import bill. The main import product was Sulphur of all kinds accounting for 7.0 percent of the import bill from that country.

Congo DR was second accounting for 17.6 percent of the import bill. The major import products were Cobalt oxides and hydroxides accounting for 65.4 percent of the import bill from that country.

China was third, accounting for 11.8 percent of the import bill. The major import products were Sodium sulphites in bulk accounting for 4.8 percent of the import bill from that country.

United Arab Emirates was fourth, accounting for 7.6 percent of the import bill. The major import products were Gas oils, accounting for 33.6 percent of the import bill from that country.

India was fifth, accounting for 6.3 percent of the import bill. The major import products were Other medicaments of mixed or unmixed products, for retail sale, accounting for 38.9 percent of the import bill from that country.

Other sources of Zambia's imports accounted for 31.1 percent (**see Table 14 & Annex 2.13**).

**Table 14: Zambia's Five Major Import Sources, Jan. 2022**

Country / Hs-Code	K'Million	% Share
South Africa	2.6	25.7

# Layman and Statistics

## Demographic Statistics

**Census:** The count of a given population (or other phenomena of interest) and record its characteristics, done at a specific point in time and usually at regular intervals by a government entity (or any other entity) for the geographic area or subareas under its domain. Examples include Population Census, Housing Census, Census of Business establishments, Agriculture Census etc.

**Census Coverage:** An estimate of how complete a census was of a given population.

**Census Night:** The night preceding the Population Census.

## Geographical and Mapping

**Boundary:** A line which defines the extent of an aerial unit or the locations where two areas meet. A boundary is represented in a GIS as a line feature which may define a side of a polygon. The boundary may or may not be visible on the ground, i.e., it can follow real world features, such as roads and rivers or it can be defined solely by geographic coordinates.

**Geographical Information System (GIS):** A computer system capable of capturing, storing, editing, integrating, manipulating, analysing and displaying data related to positions on Earth's surface.

**Global Positioning System (GPS):** The Global Positioning System (GPS) is a space-based navigation system that provides location and time information in all weather conditions, anywhere on or near the Earth where there is an unobstructed line of sight to four or more GPS satellites.

**Constituency:** An electoral boundary segmented for the purpose of electing a member of the National Assembly.

**Constituency Boundary:** A Constituency Boundary is a representation of a constituency on an election thematic map and is symbolized as a polygon feature. A collection of wards forms a Constituency.

**Province:** An area with defined boundaries either by counties, districts, countries or any other specificity, which can clearly differentiate boundaries and is normally named according to the compass direction with respect to the surrounding areas. It can be administrative or statistical.

**Ward:** A Ward is an electoral boundary segmented for the purpose of electing a councillor.

**Rural Area:** An area that lacks most if not all the facilities/amenities found in the urban areas. The population tends to be scattered.

**Urban:** is a place-based characteristic that incorporate elements of population density, social and economic organization, and the transformation of the natural environment into a built environment.

**Urbanization:** The process by which there is an increase in the proportion of people living in urban areas. The common indices used to describe urbanization are: population size, population density and level of administration.

**Urbanization:** refers to a broad-based rural to urban transition involving population, land use, economic activity and culture, or any of these.

## Consumer Price Index (CPI):

**Consumer Price Index (CPI):** measures changes over time in the general level of prices of goods and services that households acquire for the purpose of consumption. The basket relates to a selection of goods and services that is representative of the consumption habits of most households in the country.

**Inflation:** Inflation is defined as a sustained increase in the general level of prices for goods and services over a period of time.

**Annual Inflation:** The annual Inflation Rate is the change in the CPI for all items of the relevant month of the current year compared with the CPI for all items of the same month in the previous year expressed as a percentage.

**Consumption:** any activity in which households use goods and/or services to satisfy their needs and wants but not for business purposes nor for the acquisition of wealth. Thus investment in all forms of assets is excluded.

## International Merchandise Trade and Balance of Payment Statistics

**Balance of Payments (BOP):** These are the summaries of all transactions that a country's individuals, companies and government bodies complete with individuals, companies and government bodies outside the country.

**Bill of Entry:** This is a document against which goods are entered to obtain customs clearance and with which any duties thereon are paid.

**Capital goods;** these are physical assets that are used in the production process to manufacture products and services.

**Certificate of Origin:** This an important international document that certifies that goods in a particular export shipment are wholly obtained, produced, manufactured or processed in a particular country. They also serve as a declaration by the exporters.

**Consumer goods;** these are goods designed for use by final consumers.

**Cost Insurance and Freight (CIF):** The type of values including the transaction value of the goods, the value of services performed to deliver goods to the border of the exporting country and the value of the services performed to deliver the goods from the border of the exporting country to the border of the importing country.

**Free On Board (FOB):** The type of values including the transaction value of the goods and the value of services performed to deliver goods to the border of the exporting country.

**Goods in Transit:** This refers to goods simply being transported through a country.

**Intermediate goods;** these are products which are not final but are used as inputs for production.

**Raw Material;** these are materials in unprocessed or minimally processed states, used to produce finished or intermediate goods.

## Statistics Act, No.13 of 2018

**National Statistical System:** The National Statistical System (NSS) comprises data producers, data users, data suppliers and research and training institutions. The National Statistical Office (NSO), which in this case the Zambia Statistics Agency (ZamStats) is the hub of the system, reflecting its coordination and harmonisation role.

**Agency:** The Zambia Statistics Agency established under section 5.

**Metadata:** The range of information, generally textual, that fosters understanding of the context in which statistical data has been collected, processed and analysed with the objective of creating statistical information.

**Official Statistics:** Statistics describing, on a representative basis, the economic, demographic, social or environmental phenomena of the Republic in the statistical work programmes of statistical agencies. The Agency may designate, as official statistics, any statistics or class of statistics produced from collections of statistics by the National Statistical System.

**Spatial Data:** Information that identifies the geographic location and characteristics of natural or constructed features and boundaries on the earth, derived from remote sensing, global positioning systems, geographic information systems, cartographic.

**Statistics:** Any official or unofficial aggregated numerical information relating to demographic, economic, financial, environmental, social or other matters, available in digital or other applicable format, collected at national, regional or local level, which is compiled and analysed according to relevant scientific and statistical methodologies, and which is connected with, or incidental to, any census or survey of all or any of the matters specified in the Third Schedule, and includes information derived from records of administration kept by statistical agencies.

**Statistical agency:** A public body that has the power to collect, compile or disseminate statistics under a written law.

**User:** In relation to statistics includes a public body, private body, researcher, research institution, higher education institution, international or regional organisation or any other user.

**Dissemination:** The direct or indirect publication, sale or provision of official or other statistics, spatial data or related documentation in any form.
