## Foreword

Welcome to our monthly dissemination of selected official statistics. The Zambia Statistics Agency (ZamStats), embarks on vigorous information delivery strategy to major stakeholders and the media institutions in order to promote understanding and use of official statistics both within and outside Zambia. The Agency produces a number of statistical products in the Economic, Social, Agricultural and Environmental theme areas. The information collected in these areas may be used for various purposes including policy formulation, planning, implementation, monitoring and evaluation of development programmes.

This Monthly publication is an attempt to provide highlights of the work of the Agency and how it can help media institutions and the general public to improve understanding and uptake of statistical information for decision-making and sustainable national development.

I would like to urge our readers and users of statistical information to send to us any comments that may enhance statistical production and contribute to the improvement of this bulletin.

# NATIONAL ACCOUNTS

## Provincial GDP Shares 2019- 2021

Provincial GDP is compiled a month after the release of the final Annual GDP estimates. The Zambia Statistics Agency recently published the 2021 National Gross Domestic Product showing a 4.6 percent annual growth in the Zambian economy.

Provincial GDP shares from 2019 to 2021 show that the province with the highest share of GDP was Lusaka. In 2021, the share of Lusaka was 31.5 percent followed by Copperbelt at 21.7 percent and North-Western province at 15.3 percent. Three provinces namely Luapula, Western and Muchinga contributed the least shares to GDP with an average of 2.9, 2.6 and 2.5 percent respectively during the period under review (see Figure 1).

**Figure 1: Provincial GDP Shares 2019 - 2021 (%)**

Source: ZamStats, National Accounts Statistics

## Provincial GDP Estimates - 2021

The distribution of GDP by province shows that Lusaka and Copperbelt Provinces accounted for over 50 percent of the National GDP at current prices in 2021, contributing 31 and 22 percent, respectively. Muchinga Province had the least share of the National GDP at 2 percent. In 2021, Lusaka province GDP share increased by 1.1 percentage points, while the contribution of Southern, Copperbelt and Muchinga provinces to national GDP declined by 1.2, 0.8 and 0.6 percentage points respectively (see Figure 2).

**Figure 2: Provincial GDP Shares, 2021(%)**

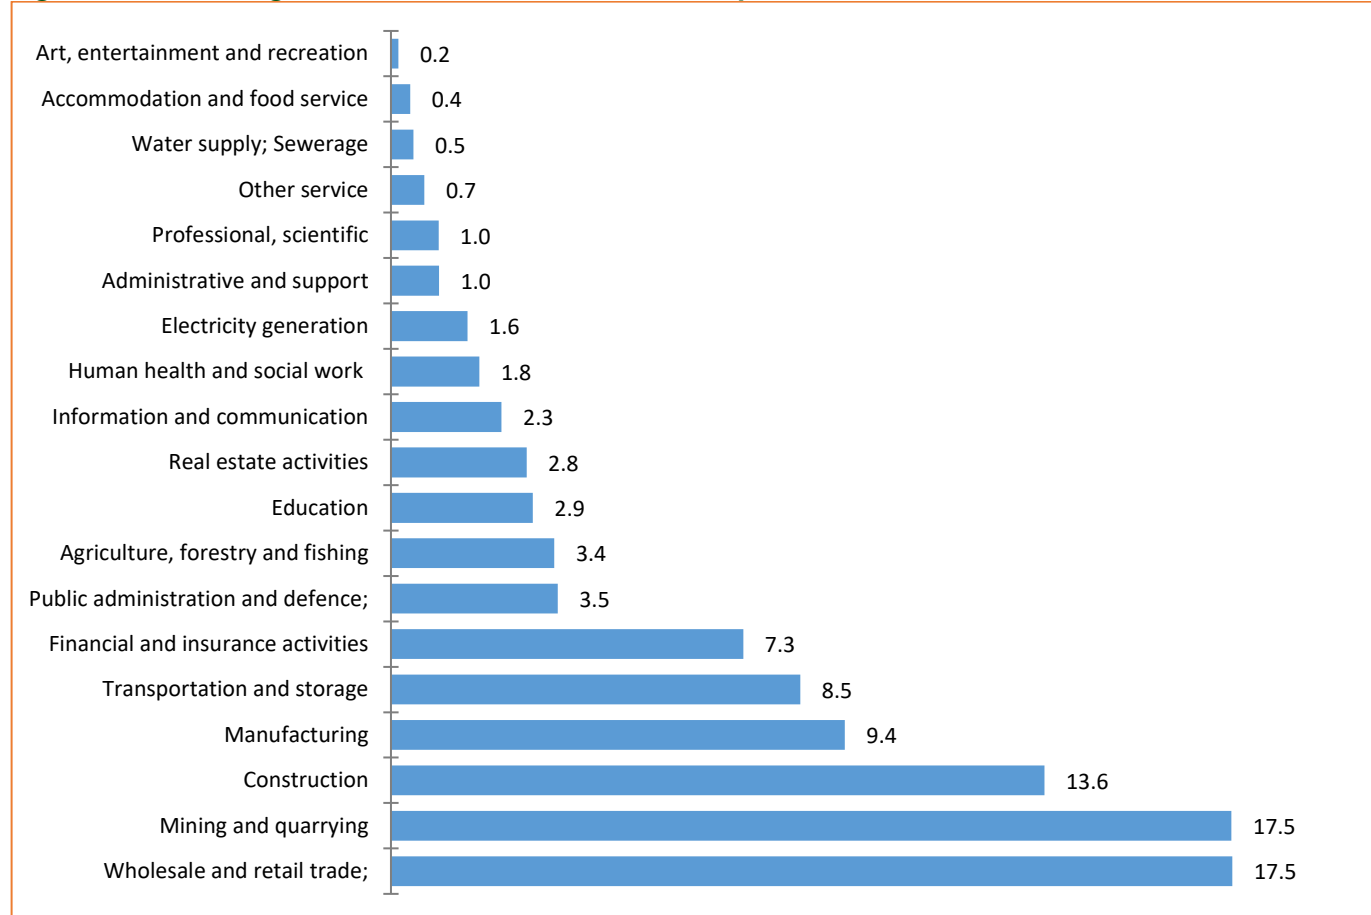

Source: ZamStats, National Accounts Statistics

### Percentage Distribution of Industrial Activity across Provinces, 2021

The industrial activity at national level shows that the wholesale and retail trade industry was the highest contributor to GDP, followed by Mining & quarrying and construction (see Figure 3).

**Figure 3: Percentage Distribution of Industrial Activity at National Level, 2021**

**Source:** ZamStats, National Accounts Statistics

At provincial level, Lusaka and Copperbelt were the highest contributors in almost all the industries. North-Western and Copperbelt provinces dominate the Mining and quarrying industry while Southern province dominates the Electricity industry.

The Eastern, Copperbelt, Southern and Central Provinces were the major drivers of the Agriculture, Forestry & Fishing industry **(see Figure 4 and Annex 2)**.

**Figure 4: Annual Share Percentage Distribution of Industrial Activity across Provinces, 2021**

Source: ZamStats, National Accounts Statistics

### Percentage Distribution of Industrial Activity within Provinces, 2021

The wholesale and retail trade were generally the dominant industry in six out of the ten provinces; being highest in Lusaka province at 35.7 percent and lowest in Luapula province at 3.3 percent.

The Mining & quarrying industry was the dominant industry in North Western province accounting for 67.1 percent of Provincial GDP. Rich copper deposits underpin the industry's dominance in the North Western province. Wholesale & retail trade and Electricity generation industries made the highest contributions to the Southern province GDP accounting for 17.5 and 13.1 percent of provincial GDP (see Figure 5).

**Figure 5: Percentage Distribution of Industrial Activity across Provinces, 2021**

Source: ZamStats, National Accounts Statistics

## Nominal GDP Per Capita by Province - 2021

The GDP per capita at national level was estimated at K24,095.05. North Western, Lusaka and Copperbelt provinces had their GDP per capita above the national level; while the rest of the provinces were below the national GDP per capita. The estimates show that, North Western province had the highest GDP per capita, mainly on account of mining activities and a relative lower population (**see Figure 6**).

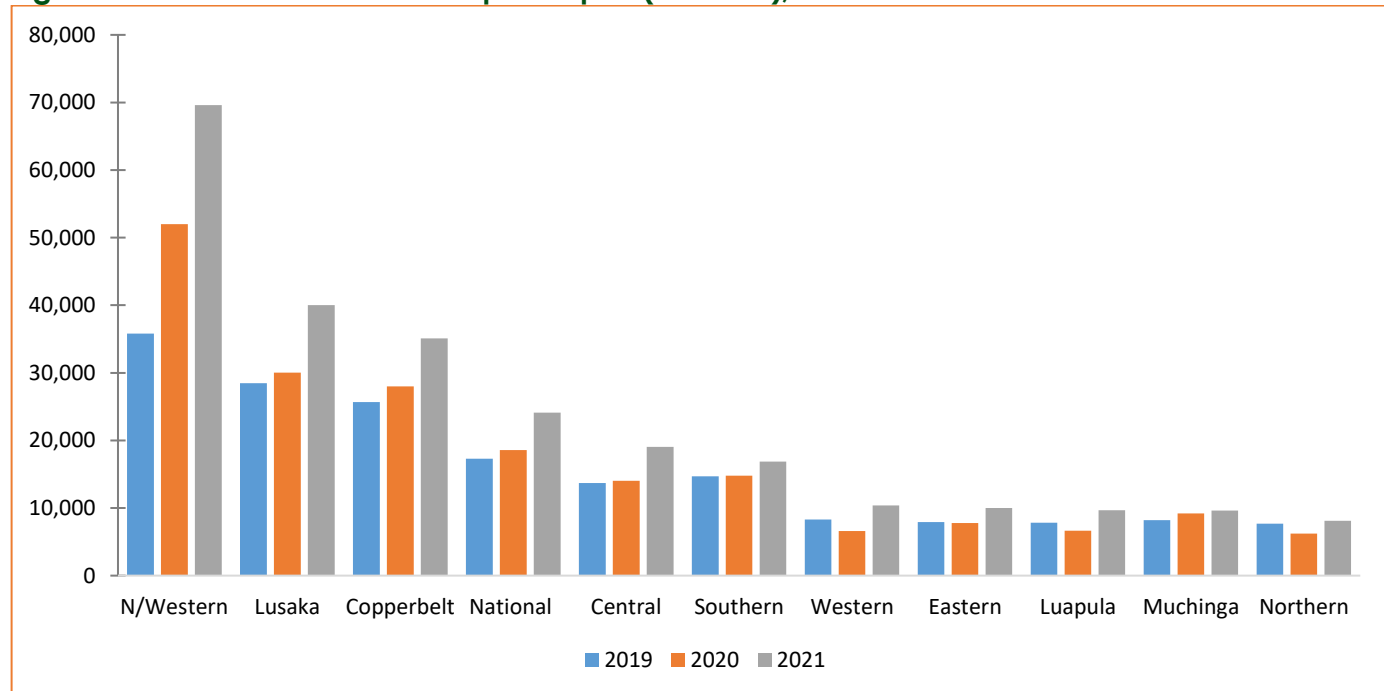

**Figure 6: Nominal Provincial GDP per Capita (Kwacha), 2021**

**Source:** ZamStats, National Accounts Statistics

**Note:** Provincial GDP per capita is GDP divided by total population for each province.

# INFLATION

## Consumer Price Index

### Year-on-Year Inflation for October 2022 at 9.7 Percent

Annual inflation for October 2022 slowed-down to 9.7 percent from 9.9 percent recorded in September, 2022. This means that on average, prices of goods and services increased by 9.7 percent between October 2021 and October 2022 (**see Figure 8**). This development was mainly attributed to movements in prices of non-food items.

**Figure 8: Annual Inflation Rate, Oct 2021-Oct 2022 (%)**

Source: ZamStats

Note: 2009=100

## Annual Food and Non-Food Inflation

Annual food inflation for October 2022 was recorded at 12.2 percent from 12.1 percent in September 2022 (**see Figure 9**). This development was mainly attributed to price movements in food items such as Cereals (*Breakfast Mealie meal, Roller Mealie meal & Maize grain*); and Vegetables (*Rape, Cabbage, Chinese cabbage, Pumpkin, Dried Beans*).

The annual non-food inflation for October 2022 was recorded at 6.5 percent from 7.2 percent in September 2022. This outturn was mainly attributed to decreases in prices of non-food items such as Shoes and other Footwear (*Sports shoes, Ladies synthetic shoes, Boys School Shoes, Girls School Shoes*); Furniture and furnishings (*Bed and Mattress, Lounge suit low price, Coffee table*) and Purchase of Motor Vehicles.

**Figure 9: Annual Food and Non-Food Inflation, Oct 2021-Oct 2022 (%)**

Source: ZamStats, 2022

## Annual Inflation Rate by CPI Main Groups

### The Annual Inflation Rate in October 2022 increased for:

#### 1. Food and Non-alcoholic Beverages

The index for the Food and Non-alcoholic beverages main group increased by 12.2 percent between October 2021 and October 2022. This was lower than 28.1 percent in the same month of 2021 but above the 12.1 percent recorded in September 2022.

#### 2. Alcoholic Beverages and Tobacco

The index for the Alcoholic Beverages and Tobacco main group increased by 7.7 percent between October 2021 and October 2022. This was lower than the 12.0 percent in the same month of 2021 but higher than 7.5 percent recorded in September 2022.

#### 3. Housing, Water, Electricity, Gas, & Other Fuels

The CPI for the Housing, Water, Electricity, Gas & Other Fuels group increased by 6.2 percent between October 2021 and October 2022. This was lower than the 17.4 percent recorded in the same month of 2021 but above the 5.7 percent recorded in September 2022.

#### 4. Health

The index for the Health main group increased by 6.5 percent between October 2021 and October 2022. This was lower than 11.0 percent in the same month of 2021 but above the 5.6 percent recorded in September 2022.

## 5. Recreation and Culture

The CPI for the Recreation and Culture main group increased by 11.5 percent between October 2021 and October 2022. This was lower than the 18.1 percent recorded in the same month of 2021 but above the 10.2 percent recorded in September 2022.

## 6. Restaurant & Hotel

The index for the Restaurant & Hotel main group increased by 8.2 percent between October 2021 and October 2022. This was lower than the 13.5 percent in the same month of 2021 but above the 7.1 percent recorded in September 2022 (**see Table 1**).

## The Annual Rate of Inflation for October 2022 decreased for the following CPI Main Groups:

### 1. Clothing and Footwear

The CPI for Clothing and Footwear increased by 8.2 percent between October 2021 and October 2022. This was lower than 16.2 percent recorded in October 2021 but below the 9.1 percent recorded in September 2022.

### 2. Furnishing, Household Equipment and Household Maintenance

The CPI for the Furnishing, Household Equipment and Household Maintenance main group increased by 5.2 percent between October 2021 and October 2022. This was lower than 18.6 percent recorded in October 2021 but below the 5.7 percent recorded in September 2022.

### 3. Transport

The CPI for the Transport main group increased by 6.0 percent between October 2021 and October 2022. This was above the 0.7 percent in the same month of 2021 but lower than 9.7 percent recorded in September 2022.

### 4. Communication

The CPI for the Communication main group increased by 1.9 percent between October 2021 and October 2022. This was lower than the 3.8 percent in the same month of 2021 and 2.2 percent recorded in September 2022.

### 5. Education

The CPI for the Education main group increased by 1.7 percent between October 2021 and October 2022. This was lower than 5.4 percent recorded in October 2021 and 2.3 recorded in September 2022.

### 6. Miscellaneous Goods and Services

The CPI for the Miscellaneous Goods and Services main group increased by 8.4 percent between October 2021 and October 2022. This was lower than the 15.3 percent recorded in October but below the 8.8 percent recorded in September 2022 (**see Table 1**).

**Table 1: Annual Inflation Trends by CPI Main Groups: October 2021- October 2022 (%)**

### Contribution of CPI Main Groups to Overall Inflation Rate of 9.7 Percent

Of the overall 9.7 percent annual inflation, Food and Non-alcoholic beverages group contributed 6.9 percentage points, while Non-food items accounted for 2.8 percentage points. Of the 2.8 percentage points, Housing, water, electricity, gas and other fuels contributed the highest at 0.7 percentage points, followed by Clothing and footwear at 0.6 percentage points; Furnishing Household equipment and routine household maintenance and Transport groups contributed 0.4 percentage points each. The rest of the Non-Food group accounted for the remaining 0.7 percentage points (see Table 2).

## Provincial Annual Inflation Rates

A disaggregation of the annual inflation by province shows that the annual inflation during the month under review increased for Eastern (6.3% from 5.0%) and Western (12.6% from 10.9%). The Annual inflation slowed down for the following provinces; Central (6.2% from 7.1%), Copperbelt (11.5% from 11.7%), Luapula (8.4% from 9.8%), Lusaka (10.1% from 10.2%), Northern (10.6% from 11.5%), North-western (11.7 from 12.7) and Southern (9.6% from 10.7 %) (see Table 3).

**Table 3: Provincial Annual Inflation Rates, October 2021-October 2022 (%)**

## Provincial Contributions to Overall Inflation of 9.7 Percent

Lusaka Province contributed the highest at 2.9 percentage points while Copperbelt Province contributed 2.4 percentage points to the overall annual inflation of 9.7 percent in the month under review. Western province contributed 0.5 percentage points, while Luapula and North-western provinces had the lowest contribution of 0.4 percentage points each, (see Table 4).

## Overall Monthly Inflation Rate Increased to 0.2 Percent

The overall monthly inflation for October 2022 was recorded at 0.2 percent compared with -0.4 percent the previous month (**see Figure 10**). This outturn was mainly attributed to price increases in both food and non-food items.

**Figure 10: Overall Monthly Inflation, Oct 2021-Oct 2022 (%)**

Source: ZamStats, 2022

## Monthly Inflation Rates for Food and Non-Food Items, October 2021- October 2022

Monthly food inflation for October 2022 was 0.4 percent, an increase of 0.6 percentage points from -0.2 percent in September 2022. This development was mainly attributed to general price increases for Fish (*Buka Buka, Fresh Kapenta, Dried Bream-Medium size*); Fruits (*Oranges, Lemons, Bananas, Watermelon, Avocados*); Vegetables (*Rape, Pumpkin leaves, Spinach, Cabbage, Tomatoes, impwa, Sweet potatoes*).

Monthly non-food inflation for October 2022 was recorded at -0.2 percent from -0.6 percent in September 2022 (**see Table 5**). This outturn was mainly attributed to price increases for Fuels & lubricants (*Diesel, Petrol, brake fluids*); Transport Equipment (car battery, CV joints) and Hammer milling charge.

**Table 5: Overall Monthly Inflation Rate for Food and Non-Food Items, Oct 2021-Oct 2022 (%)**

## District Prices for Selected Products, October 2022

The Consumer Price Basket consists of 440 items which are spread across selected outlets in all the 116 districts of Zambia. Over 23,000 price quotations are collected from these outlets between 1st and 10th of every month. The minimum and maximum prices for selected products by district are highlighted in **Table 6**.

**Table 6: District Prices for Selected Products, October 2022**

Product Description	Unit of Measure	Price (K)	Minimum	Price (K)	Maximum
			Location		Location
Breakfast Mealie Meal	25 kg	140.00	Kapiri Mposhi	210.00	Mafinga
Roller Mealie Meal	25 kg	105.00	Choma	170.00	Chiengi
Maize Grain	20 litre tin	48.00	Chadiza	120.00	Lusaka

## National Average Prices for Selected Products, October 2022

On a monthly basis retail prices between September 2022 and October 2022 showed that the national average price of a 25 kg bag of Breakfast Mealie Meal decreased by 0.25 percent from K161.16 to K161.57. However, the price of a 25 kg bag of Roller Mealie Meal increased by 0.40 percent to K134.75 from K134.21.

The monthly national average price of a 20-litre tin of Maize Grain increased by 4.53 percent from K71.98 to K75.24.

On an annual basis, retail prices between October 2021 and October 2022 showed that the national average price of a 25kg bag of Breakfast Mealie Meal increased by 19.58 percent from K135.11 to K161.57 while that of a 25 kg bag of Roller Mealie Meal increased by 27.10 percent from K 106.02 to K134.75.

The annual national average price of a 20-litre tin of Maize Grain increased by 30.62 percent from K57.60 to K75.24 (**see Table 7**).

## International Merchandise Trade

### Total Trade Jan-Sep 2022

The cumulative total trade for the period January to September 2022 was K259.4 billion while that of 2021 for the same period was K273.8 billion, representing a 5.2 percent decrease (see Figure 11).

**Figure 11: Cumulative Total Trade, (Jan-Sep) 2022 and 2021 (K' Billions)**

Source: ZamStats, 2022

Note: Total Trade = (Exports + Imports)

### Total Exports and Imports by Mode of Transport, Jan - Sep 2022

The total value of **exports** via all modes of transport for the period January to September 2022 was K147.7 billion. Road transport accounted for the highest at K74.9 billion representing 50.7 percent share. Rail transport was second at K2.5 billion (1.7 percent) and Air transport was third accounting for K1.9 billion (1.3 percent). Other modes of transport accounted for K68.5 billion (46.4 percent).

In terms of volume, the total volume of exports for the period January to September 2022 was 4.7 million Mt, of which Road transport accounted for 4.0 million Mt, representing 85.2 percent. Rail transport accounted for 31.0 thousand Mt, representing 0.7 percent, Air transport accounted for 3.4 thousand Mt (0.1 percent), while other modes accounted for 662.3 thousand Mt (14.1 percent) (see Table 8).

**Table 8: Total Exports by Mode of Transport, Jan-Sep (2022)**

Mode of transport	K' Billion	Value % Share	Mt (000)	Volume % Share
Road Transport	74.9	50.7	3,996.1	85.2
Rail Transport	2.5	1.7	31.0	0.7

<b>Total Exports</b>	<b>147.7</b>	<b>100.0</b>	<b>4,692.9</b>	<b>100.0</b>

Source: ZamStats, 2022

The total value of **Imports** via all modes of transport for the period January to September 2022 was K111.7 billion. Road transport was the highest at K65.0 billion representing 58.2 percent share, followed by Air transport at K9.6 billion (8.6 percent). Rail transport was third at K1.4 billion accounting for 1.2 percent of the total import bill. Other modes of transport accounted for K35.6 billion (31.9 percent).

In terms of volumes, a total of 4.1 million Mt of imports was recorded for the period January to September 2022, of which Road transport accounted for 2.4 million Mt, representing the highest share at 59.3 percent, followed by Rail transport which accounted for 150.5 thousand Mt, representing a share of 3.7 percent. Air Transport was third accounting for 7.1 thousand Mt (0.2 percent), while other modes accounted for 1.5 million Mt (36.9 percent) (see Table 9).

**Table 9: Imports by Mode of Transport, Jan - Sep (2022)**

Mode of transport	K' Billion	Value % Share	Mt (000)	Volume % Share
Road Transport	65.0	58.2	2,423.8	59.3

### September 2022 records a Trade Surplus

The country recorded a trade surplus of **K1.1 billion** in September 2022 compared to a surplus of **K3.2 billion** in August 2022 (see Table 10).

Exports mainly comprising domestically produced goods, decreased by 6.8 percent to K14.2 billion in September 2022 from K15.3 billion in August 2022. This was mainly on account of decreases in export earnings from Intermediate goods and Capital goods by 9.8 and 12.4 percent, respectively (see Table 3.2 in Annex).

Imports increased by 9.1 percent to K13.1 billion in September 2022 from K12.0 billion in August 2022. This was mainly as a result of increases in import bills of Consumer goods, Raw Materials and Intermediate goods by 41.2, 17.7 and 1.3 percent, respectively (see Table 3.5 in Annex).

**Table 10: Total Exports, Imports and Trade Balance, Jan - Sep 2022 (K' Billion)**

Months	Imports	Domestic Exports	Total Exports	Trade Balance

**Note:** These trade data are compiled based on the **General Trade System**

Domestic Exports-These are Commodities grown, produced or manufactured locally including commodities imported from foreign countries that have been significantly changed or enhanced in value. Re-Exports=Total Exports-Domestic Exports. (\*) Provisional

## Performance of Traditional and Non-Traditional Exports, September 2022

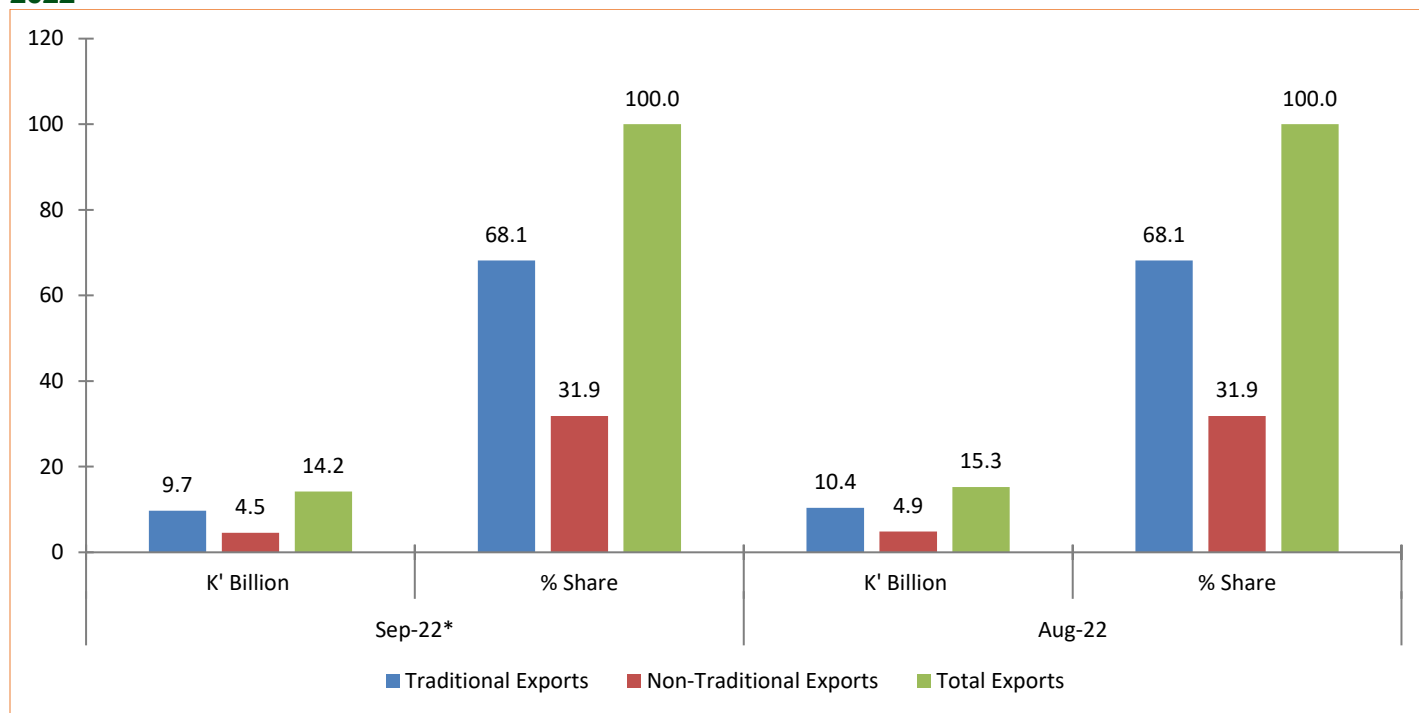

Traditional Exports (TE's) earnings decreased by 6.8 percent to K9.7 billion in September 2022 from K10.4 billion in August 2022.

In terms of share in total exports, TEs accounted for 68.1 percent of export earnings in September 2022.

NTE earnings decreased by 6.8 percent to K4.5 billion in September 2022 from K4.9 billion in August 2022.

In terms of share in total exports, NTEs accounted for 31.9 percent of total export earnings in September 2022 **(see Figure 12)**.

### Export Earnings of Refined Copper and LME Copper Prices, September 2022

Export earnings from refined copper in September 2022 decreased by 10.0 percent to K9.1 billion from K10.2 billion in August 2022.

Export volumes in September 2022 decreased by 5.0 percent to 71.7 thousand mt from 75.5 thousand mt in August 2022.

Further, Copper prices on LME market for the corresponding months decreased by 2.8 percent to US\$7,734.7 per mt in September 2022 from US\$7,961.0 per mt in August 2022 (see Figure 13).

**Figure 13: Export Earnings from Refined Copper and LME Copper Prices per MT, Sep. 2021 to Sep. 2022**

## Zambia's Major Non-Traditional Exports, September 2022

### Agricultural Products

Agricultural products accounted for a share of 31.8 percent of (NTEs) in September 2022 compared to 32.2 in August 2022.

Export earnings from agricultural products decreased by 8.0 percent to K1.4 billion in September 2022 from K1.6 billion in August 2022. The major export commodities were Tobacco partly or wholly stemmed/stripped accounting for 12.6 percent, Oil-cake and other solid residues (10.8 percent) and Other corn (10.4 percent) (see Figure 15 & Annex 2.14).

### Non-Agricultural Products

Non-agricultural products accounted for a share of 68.2 percent of Zambia's NTEs in September 2022 compared to 68.7 percent in August 2022.

Export earnings from non-agricultural products recorded a decrease of 6.2 percent to K3.1 billion in September 2022 from K3.3 billion in August 2022. The major export commodities were Sulphur of all kinds accounting for 22.5 percent, Sulphuric acid (7.7 percent) and Other non-alcoholic beverages (6.2 percent) (see Figure 8 & Annex 2.16).

**Figure 15: Total Values and Shares of Agricultural and Non-Agricultural Non-Traditional Exports, Sep. 2022 and Aug. 2022**

Note: (\*) Provisional, (®) Revised

### Exports by Major Product Categories, September 2022

Zambia's major export products in September 2022 were from the intermediate goods category (mainly comprising copper anodes for electrolytic refining and Electro-refined copper cathodes (High Purity) accounting for 80.8 percent.

Exports from the consumer goods, raw materials and capital goods categories, collectively accounted for 19.2 percent of total exports in September, 2022 (see Figure 16).

**Figure 16: Export Shares by Major Product Categories, Sep. 2022 and Aug. 2022 (%)**

Source: ZamStats, 2022

Note: (\*) Provisional

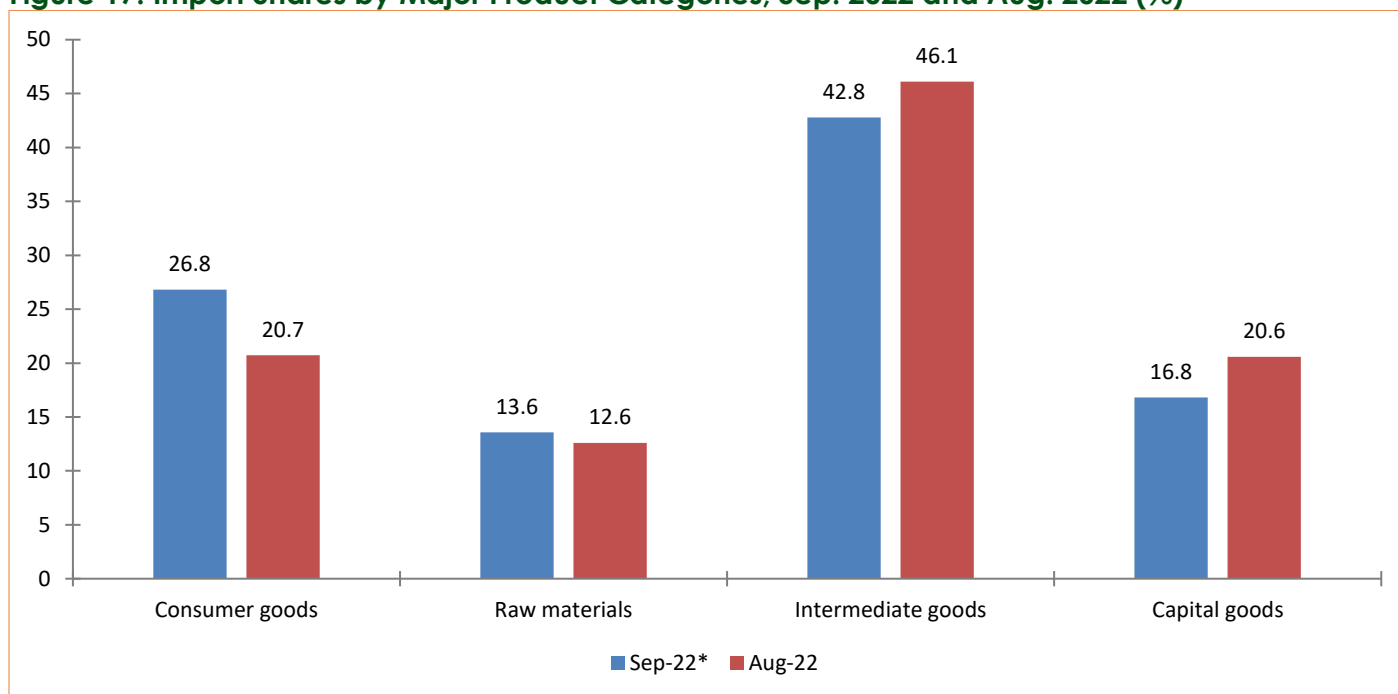

### Imports by Major Product Categories, September 2022

The major import product category in September 2022 was Intermediate goods, accounting for 42.8 percent.

The consumer goods category was second at 26.8 percent, followed by the capital goods and raw materials categories, accounting for 16.8 percent and 13.6 percent, respectively (**see Figure 17**).

Note: (\*) Provisional ® Revised

### Zambia's Major Export Destinations by Commodity, September 2022

The major export destination in September 2022 was Switzerland, which accounted for 37.6 percent of the total export earnings. The main export product to Switzerland was copper anodes for electrolytic refining accounting for 77.1 percent of total export earnings from that country.

China was the second main destination of Zambia's exports accounting for 20.1 percent of the total export earnings. The major export product to China was copper anodes for electrolytic refining, accounting for 77.8 percent of total export earnings from that country.

Congo DR was the third main export destination accounting for 16.7 percent of the total export earnings. The major export products were Sulphur of all kinds accounting for 29.2 percent of total export earnings from that country.

Singapore was the fourth main export destination accounting for 9.9 percent of the total export earnings. The major export products were, copper anodes for electrolytic refining, accounting for 81.8 percent of total export earnings from that country.

Zimbabwe was the fifth main export destination accounting for 2.7 percent of the total export earnings. The major export product was Portland cement (excl. white) accounting for 21.2 percent of total export earnings from that country.

These five countries collectively accounted for 87.0 percent of Zambia's total export earnings in September, 2022 (see Table 11 & Annex 2.13).

**Table 11: Zambia's Five Major Export Destinations, Sep. 2022**

### **Zambia's Top Five Non-Traditional Export Destinations by Product, September 2022**

The major NTEs destination in September, 2022 was Congo DR, which accounted for 50.8 percent of the total NTE earnings. The main export products to Congo (DR) were Sulphur of all kinds accounting for 29.2 percent of total NTE earnings from that country.

Zimbabwe was the second main destination accounting for 7.9 percent of the total NTE earnings. The major export product was Portland cement (excl. white) accounting for 21.9 percent of total NTE earnings from that country.

South Africa was the third main destination accounting for 7.1 percent of the total NTE earnings. The major export products were Bullion semi-manufactured forms (Gold) accounting for 15.1 percent of total NTE earnings from that country.

Switzerland was the fourth main destination accounting for 5.7 percent of the total NTE earnings. The major export product was Tobacco, partly or wholly stemmed/stripped accounting for 50.8 percent of total NTE earnings from that country.

The fifth main destination was Kenya, which accounted for 4.0 percent of the total NTE earnings. The major export product was Other Corn accounting for 46.7 percent of total NTE earnings from that country.

These five countries collectively accounted for 75.5 percent of Zambia's total NTE earnings in September, 2022 **(see Table 12 & Annex 2.14).**

### Export Market Shares by Selected Regional Groupings and Major Trading Partners, September 2022

Switzerland was the largest market for Zambia's exports in September 2022, accounting for 37.7 percent of export earnings.

Asia was the second, accounting for 31.7 of export earnings. Within this grouping, China was the dominant market with 63.4 percent followed by Singapore with 31.4 percent. Other notable markets in this grouping were Hong Kong (2.6 percent), India (1.1 percent) and United Arab Emirates (0.5 percent).

The DUAL-SADC & COMESA grouping was third accounting for 20.8 percent of export earnings in September 2022. Within this grouping, Congo DR was the dominant market with 80.6 percent followed by Zimbabwe with 13.0 percent. Other notable markets within this grouping were Malawi (4.7 percent) and Eswatini (0.9 percent).

The SADC Exclusive grouping was fourth accounting for 4.8 percent of export earnings in September 2022. Within this grouping, South Africa was the dominant market with 52.0 percent followed by Tanzania with 22.5 percent. Other notable markets were Mozambique (11.2 percent), Namibia (5.5 percent) and Botswana (5.4 percent).

COMESA exclusive grouping was fifth accounting for 2.0 percent of export earnings in September 2022. Within this grouping, Kenya was the dominant market with 67.0 percent followed by Rwanda with 15.5 percent. Other notable markets were Burundi (9.0 percent) and Uganda (6.8 percent)

The European Union (EU) was sixth accounting for 1.7 percent of export earnings in September 2022. Within this grouping, Luxembourg was the dominant market with 28.5 percent, followed by Germany (23.4 percent). Other notable markets were Italy (19.9 percent), Belgium (11.8 percent) and Netherlands (9.6 percent) **(See Table 13 & Annex 2.17).**

### Zambia's Major Import Sources by Product, September 2022

The major source of imports in September 2022 was South Africa, accounting for 29.7 percent of the import bill. The main import products were Sulphur of all kinds accounting for 10.6 percent of the import bill from that country.

China was second accounting for 15.8 percent of the import bill. The major import products were Road tractors for semi-trailers accounting for 9.2 percent of the import bill from that country.

United Arab Emirates was third, accounting for 8.8 percent of the import bill. The major import products were Motor Spirit (Petrol), accounting for 29.1 percent of the import bill from that country.

Congo DR was fourth accounting for 5.6 percent of the import bill. The major import products were Other - copper concentrate accounting for 49.6 percent of the import bill from that country.

India was fifth, accounting for 4.7 percent of the import bill. The major import products were Other medicaments of mixed or unmixed products accounting for 9.9 percent of the import bill from that country.

Other sources of Zambia's imports accounted for 35.3 percent **(see Table 14 & Annex 2.15)**.

**Table 14: Zambia's Five Major Import Sources, Sep. 2022**

### **Import Market Shares by Selected Regional Groupings and Major Trading Partners, September 2022**

Asia was the main source of Zambia's imports accounting for 38.8 percent in September 2022. Within this grouping China was the main source of imports accounting for 40.7 percent. Other notable markets were United Arab Emirates, India, Japan and Malaysia collectively accounting for 45.4 percent

SADC Exclusive was second accounting for 32.2 percent of the import bill in September 2022. Within this grouping, South Africa was the main source accounting for 92.3 percent. Other notable markets were Namibia, Tanzania, Mozambique and Botswana collectively accounting for 7.7 percent.

The European Union was third accounting for 11.0 percent. Within this grouping, France was the dominant source accounting for 24.1 percent. Other notable markets were Belgium, Ireland, Germany and Finland collectively accounting for 51.1 percent.

The Dual SADC & COMESA grouping was fourth accounting for 9.4 percent in September 2022. Within this grouping, Congo DR was the dominant source accounting for 60.3 percent. Other notable markets were Mauritius, Zimbabwe, Malawi and Eswatini collectively accounting for 39.5 percent.

The COMESA exclusive grouping was fifth accounting for 0.5 percent in September 2022, within this grouping, Kenya was the dominant market with 74.3 percent followed by Egypt with 20.6 percent. Other notable markets were Uganda, Ethiopia and Comoros collectively accounting for 5.0 percent (see Table 15 & Annex 2.18).

**Table 1.6: Indicators by Industry**

Agriculture, forestry and fishing	
• Agriculture (crop and Livestock)	Crop production/Livestock by Province
• Forestry & Logging	Forestry Sales
• Fishing & Aquaculture	Fish catch by province and 2017 Livestock and Aquaculture summary report
Mining and quarrying	2020 large scale copper production and 2020 active mining licenses by land area
Manufacturing	Sales estimates.
Electricity generation	Generation from provinces.
Water supply; Sewerage	Volumes of Water generation by provinces.
Construction	Employment from LFS 2020.
Wholesale and retail trade;	Employment from LFS 2020.
Transportation and storage	Fuel consumption by province
Accommodation and food service	Accommodation Earnings from 2018 Tourism Statistical Digest
Information and communication	COMBINED INDEX (ownership of TV, cellphone, radio, computer).
Financial and insurance activities	loan disbursements by Province BOZ
Real estate activities	Population projections by provinces/Total house holds
Professional, scientific	COMBINED INDEX (Agriculture, Construction, Education, Health, Manufacturing)
Administrative and support	Employment from LFS 2020.
Public administration and defense;	Employment from PMEC.
Education	Employment from PMEC.
Human health and social work	Employment from PMEC.
Art, entertainment and recreation	Employment from LFS 2020.
Other service	Population by provinces.

# Layman and Statistics

## Demographic Statistics

**Census:** The count of a given population (or other phenomena of interest) and record its characteristics, done at a specific point in time and usually at regular intervals by a government entity (or any other entity) for the geographic area or subareas under its domain. Examples include Population Census, Housing Census, Census of Business establishments, Agriculture Census etc.

**Census Coverage:** An estimate of how complete a census was of a given population.

**Census Night:** The night preceding the Population Census.

## Geographical and Mapping

**Boundary:** A line which defines the extent of an aerial unit or the locations where two areas meet. A boundary is represented in a GIS as a line feature which may define a side of a polygon. The boundary may or may not be visible on the ground, i.e., it can follow real world features, such as roads and rivers or it can be defined solely by geographic coordinates.

**Geographical Information System (GIS):** A computer system capable of capturing, storing, editing, integrating, manipulating, analysing and displaying data related to positions on Earth's surface.

**Global Positioning System (GPS):** The Global Positioning System (GPS) is a space-based navigation system that provides location and time information in all weather conditions, anywhere on or near the Earth where there is an unobstructed line of sight to four or more GPS satellites.

**Constituency:** An electoral boundary segmented for the purpose of electing a member of the National Assembly.

**Constituency Boundary:** A Constituency Boundary is a representation of a constituency on an election thematic map and is symbolized as a polygon feature. A collection of wards forms a Constituency.

**Province:** An area with defined boundaries either by counties, districts, countries or any other specificity, which can clearly differentiate boundaries and is normally named according to the compass direction with respect to the surrounding areas. It can be administrative or statistical.

**Ward:** A Ward is an electoral boundary segmented for the purpose of electing a councillor.

**Rural Area:** An area that lacks most if not all the facilities/amenities found in the urban areas. The population tends to be scattered.

**Urban:** is a place-based characteristic that incorporate elements of population density, social and economic organization, and the transformation of the natural environment into a built environment.

**Urbanization:** The process by which there is an increase in the proportion of people living in urban areas. The common indices used to describe urbanization are: population size, population density and level of administration.

**Urbanization:** refers to a broad- based rural to urban transition involving population, land use, economic activity and culture, or any of these.

### Consumer Price Index (CPI)

**Consumer Price Index (CPI):** measures changes over time in the general level of prices of goods and services that households acquire for the purpose of consumption. The basket relates to a selection of goods and services that is representative of the consumption habits of most households in the country.

**Inflation:** Inflation is defined as a sustained increase in the general level of prices for goods and services over a period of time.

**Annual Inflation:** The annual Inflation Rate is the change in the CPI for all items of the relevant month of the current year compared with the CPI for all items of the same month in the previous year expressed as a percentage.

**Consumption:** any activity in which households use goods and/or services to satisfy their needs and wants but not for business purposes nor for the acquisition of wealth. Thus investment in all forms of assets is excluded.

### International Merchandise Trade and Balance of Payment Statistics

**Balance of Payments (BOP):** These are the summaries of all transactions that a country's individuals, companies and government bodies complete with individuals, companies and government bodies outside the country.

**Bill of Entry:** This is a document against which goods are entered to obtain customs clearance and with which any duties thereon are paid.

**Capital goods:** these are physical assets that are used in the production process to manufacture products and services.

**Certificate of Origin:** This an important international document that certifies that goods in a particular export shipment are wholly obtained, produced, manufactured or processed in a particular country. They also serve as a declaration by the exporters.

**Consumer goods;** these are goods designed for use by final consumers.

**Cost Insurance and Freight (CIF):** The type of values including the transaction value of the goods, the value of services performed to deliver goods to the border of the exporting country and the value of the services performed to deliver the goods from the border of the exporting country to the border of the importing country.

**Free On Board (FOB):** The type of values including the transaction value of the goods and the value of services performed to deliver goods to the border of the exporting country.

**Goods in Transit:** This refers to goods simply being transported through a country.

**Intermediate goods;** these are products which are not final but are used as inputs for production.

**Raw Material;** these are materials in unprocessed or minimally processed states, used to produce finished or intermediate goods.

### **Statistics Act, No.13 of 2018**

**National Statistical System:** The National Statistical System (NSS) comprises data producers, data users, data suppliers and research and training institutions. The National Statistical Office (NSO), which in this case the Zambia Statistics Agency (ZamStats) is the hub of the system, reflecting its coordination and harmonisation role.

**Agency:** The Zambia Statistics Agency established under section 5.

**Metadata:** The range of information, generally textual, that fosters understanding of the context in which statistical data has been collected, processed and analysed with the objective of creating statistical information.

**Official Statistics:** Statistics describing, on a representative basis, the economic, demographic, social or environmental phenomena of the Republic in the statistical work programmes of statistical agencies. The Agency may designate, as official statistics, any statistics or class of statistics produced from collections of statistics by the National Statistical System.

**Spatial Data:** Information that identifies the geographic location and characteristics of natural or constructed features and boundaries on the earth, derived from remote sensing, global positioning systems, geographic information systems, cartographic.

**Statistics:** Any official or unofficial aggregated numerical information relating to demographic, economic, financial, environmental, social or other matters, available in digital or other applicable format, collected at national, regional or local level, which is compiled and analysed according to relevant scientific and statistical methodologies, and which is connected with, or incidental to, any census or survey of all or any of the matters specified in the Third Schedule, and includes information derived from records of administration kept by statistical agencies.

**Statistical Agency:** A public body that has the power to collect, compile or disseminate statistics under a written law.

**User:** In relation to statistics includes a public body, private body, researcher, research institution, higher education institution, international or regional organisation or any other user.

**Dissemination:** The direct or indirect publication, sale or provision of official or other statistics, spatial data or related documentation in any form.
