August, 2009

Foreword

Welcome to the Monthly presentation organised by the Dissemination Branch of the Central Statistical Office (CSO). The CSO embarks on vigorous information delivery strategy to major stakeholders and the media institutions in order to increase utilisation of statistical products and services. The office produces a number of statistical products in the Economic, Social, Agricultural and Environmental areas. The information collected in these areas may be used for various purposes including policy formulation, planning, implementation, monitoring and evaluation of programmes and projects.

This Monthly publication is an attempt to provide highlights of CSO's work and how it can help media institutions and the general public to make use of data and information for sustainable national development and decision-making.

I would like to urge our readers and users of statistical information to send to us any comments that may enhance statistical production and contribute to the improvement of this bulletin.

Ms. Efreda Chulu
Director of Census and Statistics

Serving Your Data Needs

Inside this Issue

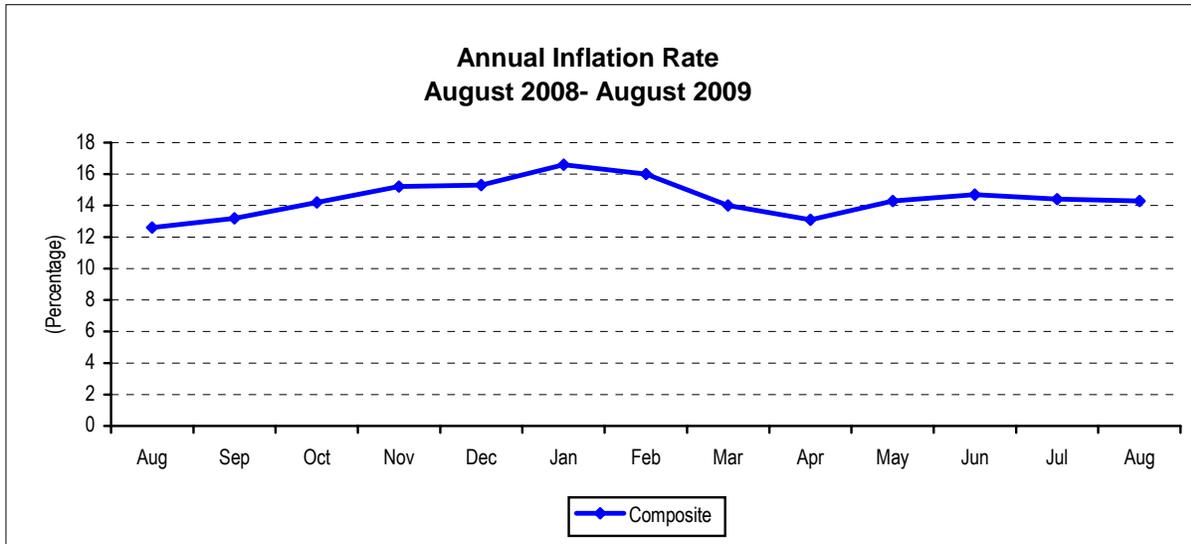

- *Inflation increases from 14.0 percent in July 2009 to 14.3 percent in August 2009*
- *July 2009 records Trade Surplus*
- *Unmet need for Family Planning increases*
- *Two in every three Households use recycled/ Local Maize Seed*
- *Selected Socio-Economic Indicators*

INFLATION

Inflation increases from 14.0 percent in July 2009 to 14.3 percent in August 2009

The annual rate of inflation, as measured by the all items Consumer Price Index (CPI), increased by 0.3 of a percentage point from 14.0 percent in July, 2009 to 14.3 percent in

August, 2009. The rise in the annual inflation rate in August 2009 was mainly due to the increase in electricity tariffs.

Changes in annual inflation rates for CPI Main Groups

Between August 2008 and August 2009, the annual inflation rates increased for clothing and foot wear; rent; fuel and lighting; medical care and recreation and education. The annual inflation rate reduced for food,

beverages and tobacco; furniture and household goods; transport and communication, and other goods and services.

Annual Inflation Rate: CPI Main Groups (Per cent)

The annual food inflation rate

The annual food inflation rate was recorded at 14.6 percent in August 2009. This is a decrease from 14.9 percent recorded in July 2009. Contributing most to the decline in food inflation were decreases in the cost of mealie meal; cereals and cereal products; dried beans; fresh vegetables; and oils and fats.

However, increases were recorded in cost of meat; dried kapenta; sweet potatoes and irish potatoes; milk and milk products; eggs; table salt; tea, coffee and other processed food products.

Non-food inflation

The annual non-food inflation rate stood at 13.9 percent in August 2009. This is an increase from 13.1 percent that was recorded in July 2009.

National Average Prices of Selected Products

A comparison of retail prices between July 2009 and August 2009, shows that the national average price of a 25 kg bag of white breakfast meal reduced by 1.1 percent, from K63,201 to K62,521, while the national average price of a 25 kg bag of white roller meal reduced by 2.3 percent, from K44,413 to K43,408. The national average price of 1kg of tomatoes reduced by 8.1 percent, from K4,588 to K4,217.

However, the national average price of a 20 litre tin of maize grain increased by 4.0 percent, from K20,886 to K21,712. The national average price of 1kg of dried kapenta (Siavonga) increased by 7.8 percent, from K45,072 to K48,609, while the national average price of 1kg of mixed cut (beef) increased by 2.8 percent, from K17,175 to K17,648.

Zambia's Major Export Destinations by Products in July 2009

The five major destinations of Zambia's exports in July 2009 were Switzerland (49.8 percent), China (10.0 percent), South Africa (7.6 percent), Democratic Republic of Congo

(6.0 percent) and Egypt (3.8 percent). These five countries collectively accounted for 77.2 percent of Zambia's total export earnings.

Zambia's major export products to Switzerland were Cathodes and sections of cathodes of refined copper; and copper ores & concentrates accounting for 63.0 and 12.3 percent, respectively. Other export products were Refined copper, nes, unwrought copper blister; Cobalt ores & concentrates; and Plates, sheets and strip, of refined copper, uncoiled.

China was the second largest destination accounting for 10 percent of Zambia's total exports. Major export products were Refined copper, nes, unwrought: copper blister (55.2 percent); Plates, sheets and strip, of refined copper, uncoiled (20.7 percent). Other notable products were Other articles of cobalt, nes (10.1 percent); Cobalt ores and concentrates (6.5 percent); and Cathodes and sections of cathodes of refined copper (5.4 percent).

South Africa was the third largest destination of Zambia's total exports accounting for 7.6

percent. The major export products were Wire of refined copper, maximum cross-sectional dimension >6mm (34.5 percent); Raw sugar in solid form (20.7 percent); Electric conductors, nes, for a voltage ≤80 V (9.2 percent); Soya beans (4.6 percent); and Cotton not carded or combed (4.4 percent).

Democratic Republic of Congo was the fourth largest destination of Zambia's total exports accounting for 6.0 percent. The major export products were: Raw sugar in solid form (13.1 percent); Portland cement (excl. white) (10.2 percent); Sulphuric acid aleum in bulk (8.4 percent); and Other oils (5.5 percent). Other notable products were Wheat or meslin flour (5.2 percent); and Motor spirit (5.2 percent).

Zambia's fifth major export destination was Egypt with 3.8 percent. The major export product to Egypt was plates, sheets and strip of refined copper, uncoiled (100 percent).

Export Market Shares by Regional Groupings, July and June 2009

The Southern African Development Community (SADC) regional grouping was the largest market for Zambia's exports accounting for 20.7 and 21.3 percent in July and June 2009, respectively. Within SADC, South Africa was the dominant market with

36.7 and 37.5 percent in July and June 2009, respectively. Congo DR was the second dominant market with 29.3 and 31.6 percent in July and June 2009, respectively. Other key markets were Zimbabwe, Malawi and Mauritius.

Asia was the second largest market for Zambia's exports accounting for 18.8 and 26.9 percent in July and June 2009, respectively. Within Asia, China was the dominant destination in both months with 53.3 percent in July and 28.9 percent in June 2009. India was second in July 2009 with 14.4 percent while the United Arab Emirates was second in June 2009 with 16.4 percent. Other notable markets were Malaysia and Saudi Arabia.

The Common Market for Eastern and Southern Africa (COMESA) grouping of countries was the third largest market for Zambia's exports accounting for 16.8 percent and 19.2 percent in July and June 2009, respectively. Within COMESA, Congo DR was

the dominant market in both July and June 2009, with 36.1 and 35.0 percent, respectively. Egypt was the second dominant market with 22.8 percent in July and 32.9 percent in June 2009. Other key markets were Zimbabwe, Malawi and Mauritius.

The European Union (EU) was the fourth largest market for Zambia's exports accounting for 5.7 and 3.8 percent of Zambia's total exports in July and June 2009, respectively. Within the EU market, the United Kingdom was the dominant market in July 2009 with 47.0 percent while Belgium was the dominant market in June 2009 with 34.0 percent. Other notable markets were Luxembourg, Netherlands, Germany, France and Sweden.

Zambia's Major Import Sources by Products, July 2009

The major source of Zambia's imports in July 2009 was South Africa accounting for 44.5 percent of the total value of imports. The major import products were Parts of machinery of 84.74; Ammonium nitrate; and Parts of machinery of 84.26, 84.29 and 84.30 nes, collectively accounting for 5.5 percent.

The second main source of Zambia's imports in July 2009 was Congo DR accounting for 10.4 percent. The major import products

were Copper ores and concentrates; Cobalt ores and concentrates; Cathodes & sections of cathodes of refined copper; and refined copper, nes, unwrought; Copper blister collectively accounting for 97.9 percent.

Other notable sources of Zambia's imports were China, Kuwait and the United Kingdom collectively accounting for 14.8 percent of Zambia's total imports in July 2009.

Import Market Shares by Regional Groupings, July and June 2009

The Southern African Development Community (SADC) regional grouping was the largest source of Zambia's imports accounting for 60.3 and 58.7 percent in July and June 2009, respectively. Within the SADC region, South Africa was the major source of Zambia's imports accounting for 73.8 and 73.1 percent in July and June 2009, respectively. It was followed by Congo DR with 17.3 percent in both July and June 2009. Other key market sources were Zimbabwe,

Botswana and Tanzania. The Asian market was the second largest source of Zambia's imports accounting for 20.8 and 26.4 percent in July and June 2009, respectively. Within the Asian market, China was the major source of Zambia's imports in July 2009 accounting for 28.9 percent, while Kuwait was the major source in June 2009, with 42.3 percent. Other notable sources were India, Japan and the United Arab Emirate.

The Common Market for Eastern and Southern Africa (COMESA) grouping of countries was the third largest source of Zambia's imports, accounting for 16.4 and 14.3 percent in July and June 2009, respectively. Within COMESA, Congo DR dominated as the main source of Zambia's imports with 64.8 and 71.3 percent in July and June 2009, respectively. It was followed by Kenya with 21.0 and 11.5 percent in July and June 2009, respectively. Other notable sources were Zimbabwe, Malawi and Swaziland.

The European Union (EU) was the fourth largest source of Zambia's imports with 11.9 and 10.5 percent in July and June 2009, respectively. Within the EU, the United Kingdom was the major source of Zambia's imports in July 2009 accounting for 34.4 percent, while Germany was the major source of Zambia's imports in June 2009 with 20.1 percent. Other key markets were Denmark, Sweden, Netherlands, and France.

DEMOGRAPHY

Unmet need for Family Planning increases

Women use family planning methods either to limit the number of children or to space them. However, some women would like to space or limit the number of children but are not using contraceptives. These are said to

have an unmet need for family planning. The unmet need for family planning has increased from 18.3 percent in 2001/2 to 26.5 percent in 2007 among the currently married women.

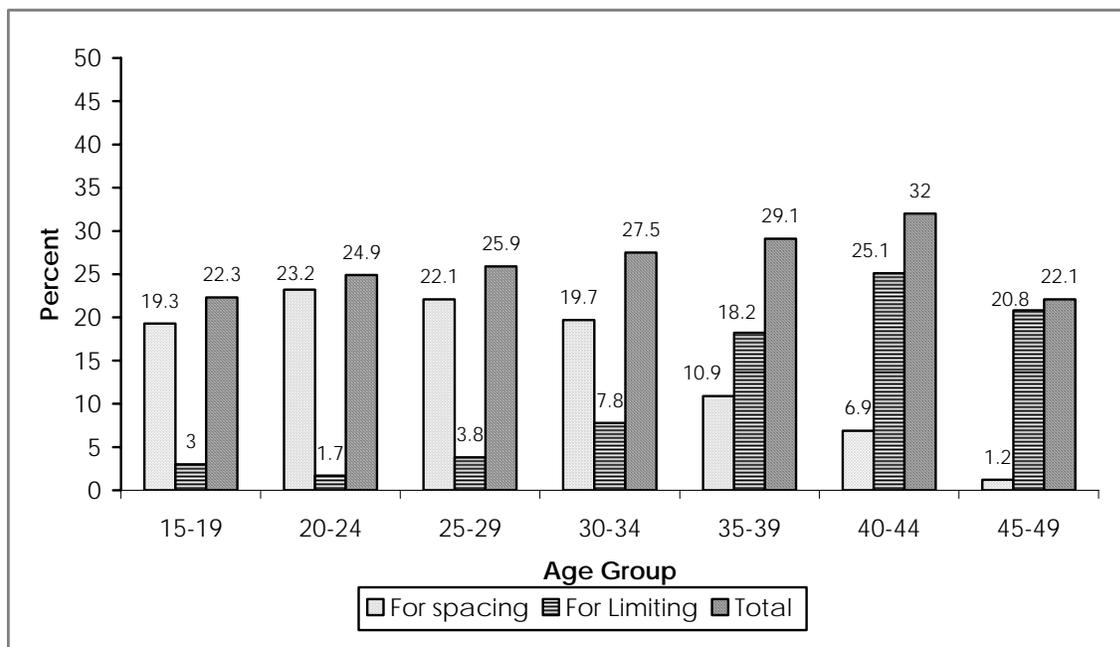

Source: CSO, Zambia Demographic and Health Survey, 2001/2 and 2007

In relation to age, unmet need for family planning is seen to increase with increasing age up to age group 40-44 after which it declines. Of the currently married women aged 15-19, 22.3 percent have an unmet need for family planning. The percentage increases to 25.9 percent among those in the age group 25-29 years and to 32 percent in age group 40-44, then declines to 22.1 at age group 45-49.

A comparison for the unmet need for spacing and limiting shows some variation. The unmet need for spacing increases between age groups 15-19 and 20-24 after which it drops until age group 45-49. In the case of unmet need for limiting, it increases sharply from age group 20-24 (1.7%) to age group 40-44 (25.1%) after which it drops to 20.8 percent.

Need and Demand for family planning: currently married women by age group, ZDHS 2007

Source: CSO, Zambia Demography and Health Survey, 2007

There are various reasons for non-use of contraceptives. These include opposition to use (by partner, others, religion or woman herself), lack of knowledge, fear of side effects, lack of access and cost. There have been efforts to increase use of contraceptives in Zambia. Results from the

ZDHS on unmet need for family planning and the various reasons for non use of contraceptives will, therefore, help the relevant authorities put the necessary measures in place to achieve their intended goal.

AGRICULTURE

Two in every three Households use Recycled/ Local Maize Seed

The 2008/2009 Crop Forecasting Survey (CFS) results indicate that there were 995,343 small and medium scale households that grew maize. The largest number of households that grew maize was reported in Eastern Province while Lusaka Province recorded the lowest.

At national level 61 percent (609,877) of all the maize growing households reported to have used recycled/local seed while 38 percent used hybrid. Only 1 percent of the households used Open Pollinated Varieties (OPVs).

Distribution of Households Growing Maize by Seed Type and by Province

	Number of Households						Total
	Hybrid	%	OPV	%	Recycled and local	%	
Central	71,828	18.9	126	2.5	49,423	8.1	121,377
Copperbelt	43,007	11.3	518	10.1	33,380	5	76,905
Eastern	45,340	11.9	1,969	38.3	196,529	32.2	243,838
Luapula	13,795	3.6	-	-	49,345	8.1	63,140

Northern	56,952	15.0	537	10.5	81,129	13.3	138,618
North Western	19,172	5.0	-	-	55,604	9.1	74,776
Southern	86,663	22.8	1,898	36.9	48,741	8.0	137,302
Western	24,493	6.4	-	-	85,615	14.0	110,108
Total Zambia	380,328 (38%)	100.0	5,138 (1%)	100.0	609,877 (61%)	100.0	995,343 (100%)

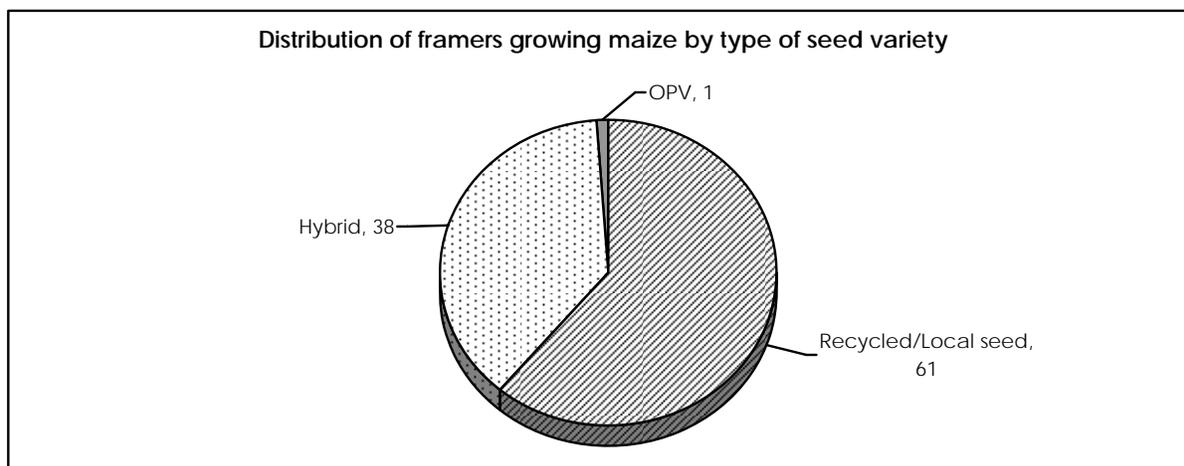

Source: CSO/MACO CFS

Eastern Province had the largest number of farmers using recycled and local seed with 32.2 percent followed by Western Province with 14.0 percent of the total farmers using recycled and local seed. Lusaka Province had the lowest number of farmers using recycled and local seed with 1.7 percent.

The results further show that Southern Province had the highest number of households using hybrid seed with 22.8 percent followed by Central Province with

18.9 percent. The lowest number of farmers using hybrid seed was in Luapula Province with 3.6 percent.

Furthermore, 5,138 households reported to have used OPVs. The highest numbers of farmers using OPVs were reported in Eastern and Southern provinces with 38.3 and 36.9 percent, respectively. Luapula, North Western and Western provinces recorded no farmers using OPVs.
