Foreword

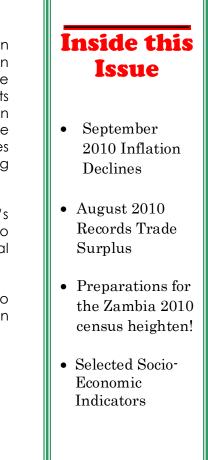

Welcome to the Monthly presentation organised by the Dissemination Branch of the Central Statistical Office (CSO). The CSO embarks on vigorous information delivery strategy to major stakeholders and the media institutions in order to increase utilisation of statistical products and services. The office produces a number of statistical products in the Economic, Social, Agricultural and Environmental areas. The information collected in these areas may be used for various purposes including policy formulation, planning, implementation, monitoring and evaluation of programmes and projects.

This Monthly publication is an attempt to provide highlights of CSO's work and how it can help media institutions and the general public to make use of data and information for sustainable national development and decision-making.

I would like to urge our readers and users of statistical information to send to us any comments that may enhance statistical production and contribute to the improvement of this bulletin.

John Kalumbi Acting Director of Census and Statistics

30th September, 2010

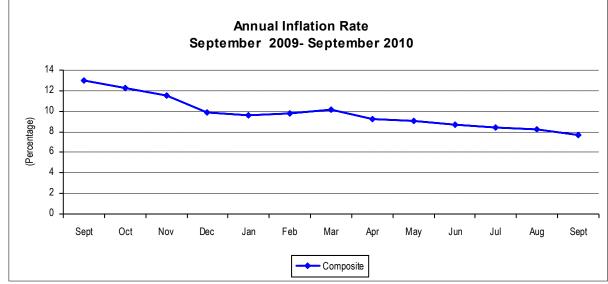

2010 Census of Population and Housing commences on October 16, 2010 after the launch by His Excellency The President of the Republic of Zambia Mr. Rupiah Bwezani Banda on 15th October, 2010

INFLATION

September 2010 Inflation declines

The annual rate of inflation, as measured by the all items Consumer Price Index (CPI), reduced to 7.7 percent in September 2010, from 8.2 percent in August, 2010. The decrease is attributed to reductions in the cost of some food and non-food items.

PREPARATIONS FOR THE ZAMBIA 2010 CENSUS HEIGHTEN!

Zambia will, in two weeks time conduct the Census of Population and Housing. This will be the fifth in series of comprehensive Censuses that Zambia has conducted. So far, Zambia has conducted Censuses in 1969, 1980, 1990 and 2000. A Census of Population and Housing is the corner stone of the national statistics.

A Census of Population and Housing provides essential data for political representation, social and economic planning, decision-making, monitoring and evaluation. It also provides basic data on size, distribution, socio-economic status and composition of the population over time. The Census also gives information on Housing characteristics.

Preparations for the data collection for this year's Census have reached an advanced stage. Various preparatory activities have been accomplished through the Central Statistical Office. This includes cartographic census field mapping and the training of Master Trainers and Assistant Trainers recruited from various Ministries and Institutions of Government. Supervisors who are mainly basic school teachers have also been recruited and trained.

The training of persons short listed to be enumerators has started today, 30th September, 2010 and is expected to be completed on 10th October 2010.

The Census of Population and Housing will be launched on the 15th of October 2010, by His Excellency, **The President of the Republic of Zambia**, **Mr Rupiah Bwezani Banda**. The nationwide enumeration exercise will then commence on the 16th October 2010. This exercise is expected to last for almost four weeks. During the Census period, enumerators will visit each and every household to collect information about each household member. Enumerators will also collect data on each and every building found in their assigned work areas. Information to be collected from each household member will include among others, age, sex (i.e., male or female), employment status, literacy levels, mortality and education status.

HELP THE CENSUS HELP YOU, BE COUNTED!
