Foreword

Welcome to the Monthly presentation organised by the Dissemination Branch of the Central Statistical Office (CSO). The CSO embarks on vigorous information delivery strategy to major stakeholders and the media institutions in order to increase utilisation of statistical products and services. The office produces a number of statistical products in the Economic, Social, Agricultural and Environmental areas. The information collected in these areas may be used for various purposes including policy formulation, planning, implementation, monitoring and evaluation of programmes and projects.

This Monthly publication is an attempt to provide highlights of CSO's work and how it can help media institutions and the general public to make use of data and information for sustainable national development and decision-making.

I would like to urge our readers and users of statistical information to send to us any comments that may enhance statistical production and contribute to the improvement of this bulletin.

Zambia's Metal Exports and Non-Traditional Exports (NTEs) January 2011 and December 2010

There has been an increase in the total value of traditional exports to K3,158.1 billion from about K2,780.0 billion between January 2011 and

December 2010. This resulted in the country's ever dominant metal products recording an increase in revenue of about 13.6 percent in

nominal terms. The overall contribution of metal products to the total export earnings in January 2011 and December 2010 averaged about 87.2 percent in both months.

In terms of percentage contribution to the total export earnings, NTEs recorded an average of about 12.8 percent in both months.

Zambia's Major Export Destinations by Product in January, 2011

Zambia's major export destination in January 2011 was Switzerland accounting for 62.0 percent. The major export products to Switzerland were; Cathodes & Sections of Cathodes of refined Copper; and Plates, sheets & strips of refined copper.

China was the second major destination of Zambia's total exports accounting for 13.6 percent. The major export products were Copper blister; Cathodes & sections of cathodes of refined copper; and other articles of cobalt.

South Africa was the third major export destination accounting for about 9.2 percent. The major export products to South Africa were Cathodes and sections of cathodes of refined copper, Unrefined copper; copper anodes for electrolytic and Wire of refined copper, maximum cross-sectional dimension >6mm.

The Democratic Republic of Congo was the fourth main destination of

Zambia's total exports accounting for 3.7 percent. The major export products to this nation were Raw cane sugar, in solid form; Portland cement (excl. white), Wheat or meslin flour and sulphuric acid.

United Kingdom was the fifth main destination of Zambia's total exports, accounting for 3.5 percent. The major export products were: Cathodes and sections of cathodes of refined copper, Fresh cut flowers and buds; and Mixtures of vegetables, frozen.

These five countries collectively accounted for 92.0 percent of Zambia's total export earnings in January 2011.
