JULY 2018 RECORDS A TRADE DEFICIT

Zambia's trade deficit decreased by 48.8 percent from K1,620 million recorded in June 2018 to K829 million in July 2018. This trade deficit means that the country imported more than it exported in nominal terms. Imports decreased by 12.9 percent from K10,190.3 million in June 2018 to K8,877.4 million in July 2018, this decrease is mainly attributed to the decrease in the imports of Capital Goods by 20.1 percent from K3,345.7 million in June 2018

to K2,672.9 million in July 2018. Exports decreased by 6.1 percent from K8,570.3 million in June 2018 to K8,048.5 million in July 2018. The decrease in the value of Exports is mainly attributed to the drop in the Traditional Exports by 8.8 percent from K6,633.0 million in June 2018 to K6,049.9 million in July 2018. The reduction in the trade deficit is due to the decrease in imports outweighing that of exports.
