## Central Statistical Office

Volume 136

Website: [www.zamstats.gov.zm](http://www.zamstats.gov.zm)

August, 2014

### Foreword

Welcome to the Monthly presentation organised by the Dissemination Branch of the Central Statistical Office (CSO). The CSO embarks on vigorous information delivery strategy to major stakeholders and the media institutions in order to increase utilisation of statistical products and services. The office produces a number of statistical products in the Economic, Social, Agricultural and Environmental areas. The information collected in these areas may be used for various purposes including policy formulation, planning, implementation, monitoring and evaluation of programmes and projects.

This Monthly publication is an attempt to provide highlights of CSO's work and how it can help media institutions and the general public to make use of data and information for sustainable national development and decision-making.

I would like to urge our readers and users of statistical information to send to us any comments that may enhance statistical production and contribute to the improvement of this bulletin.

# INFLATION

## Inflation remains at 8.0 percent

The annual rate of inflation, as measured by the all items Consumer Price Index (CPI) for August 2014 was recorded at 8.0 percent. This means that on average, prices increased by 8.0 percent between August 2013 and August 2014.

The Consumer Price Index (CPI) measures changes over time in the general level of prices of goods and services that households acquire for the purpose of consumption, with reference to the price level in 2009 (i.e. base year 2009 =100).

### Annual Inflation Rate, August 2013 to August 2014

## Exports by Major Product Categories, June and July 2014

Zambia's major export products in July 2014 were from the intermediate goods category (mainly comprising copper cathodes and sections of refined copper) accounting for 84.9 percent. Other exports were from the Consumer goods, Raw materials and Capital goods categories which collectively accounted

for 15.1 percent of total exports in July 2014. This implies that between July and June 2014, the country has been a net exporter of Intermediate goods, mainly Metals and their articles, accounting for an average of 83.9 percent of the total exports.

## Zambia's Major Export Destinations by Commodity in July 2014

Zambia's major export destination in July 2014 was Switzerland, which accounted for 54.4 percent. The major export products to Switzerland were Cathodes & Sections of Cathodes of refined Copper accounting for 94.8 percent.

China was the second major destination of Zambia's exports accounting for 13.0 percent. The major export product to China was Copper blisters (67.2 percent).

The third major export destination was Congo (DR), accounting for 6.7 percent. The major export product to Congo (DR) was Sulphuric acid; oleum in bulk, accounting for 25.3 percent.

South Aricawas the fourth major export destination accounting for 5.0 percent. The major export products to South Arica were Semi-manufactured gold (incl. Gold plated with platinum), non-monetary (25.0 percent).

Australia was the fifth major export destination accounting for 4.3 percent. The major export product to Australia was Copper blisters which accounted for 100.0 percent.

These five countries collectively accounted for 83.4 percent of Zambia's total export earnings in July 2014.

## Export Market Shares by Regional Groupings, June and July 2014

Asia regional grouping was the largest market for Zambia's total exports, accounting for 18.6 percent in July 2014. Within Asia, China dominated the export market, accounting for 70.0 percent. Other notable markets in Asia were Singapore, United Arab Emirates, Japan and India.

The Southern African Development Community (SADC) was the second largest market for Zambia's total exports, accounting for 17.7 percent in July 2014. Within SADC, Congo DR was the dominant market with 37.7 percent. Other notable markets in SADC were South Africa, Zimbabwe, Malawi and Mauritius.

The Common Market for Eastern and Southern Africa (COMESA) was the third largest market for Zambia's total exports accounting for 12.7 percent in July 2014. Within COMESA, Congo (DR) was the dominant market with 52.4 percent. Other notable markets in COMESA were Zimbabwe, Malawi, Mauritius and Kenya.

The European Union (EU) was the fourth largest market for Zambia's total exports accounting for 3.2 percent in July 2014. Within the EU, United Kingdom was the dominant market with 74.4 percent. Other notable markets were Belgium, Germany, Italy and Netherlands.

## Zambia's Major Import Sources by Commodity in July 2014

The major source of Zambia's imports in July 2014 was South Africa, accounting for 33.7 percent. The major import products from South Africa were Other medicaments of mixed or unmixed products, for retail sale, nes contributing 6.5 percent.

The second main source of Zambia's imports was China which accounted for 8.8 percent. The major import products from China were Liquid dielectric transformers, power handling capacity >10000kva, which accounted for 13.4 percent.

Kuwait was the third main source of Zambia's imports accounting for 7.4 percent. The major import products from Kuwait were Petroleum oils and oils obtained from bituminous minerals, crude, accounting for 100.0 percent.

Other sources of Zambia's imports were Kenya and Congo (DR), which collectively accounted for 11.7 percent of Zambia's imports.

## Import Market Shares by Regional Groupings, June and July 2014

The Southern African Development Community (SADC) regional grouping was the largest source of Zambia's imports accounting for 46.1 percent in July 2014. Within SADC, South Africa was the major source of Zambia's imports with 73.1 percent. Other notable markets were Congo (DR), Mauritius, Zimbabwe and Tanzania.

Asia was the second largest source of Zambia's imports accounting for 29.4 percent in July 2014. Within Asia, China was the main source of Zambia's imports with 29.8 percent. Other notable markets were Kuwait, India, United Arab Emirates and Japan.

The Common Market for Eastern and Southern Africa (COMESA) regional grouping was the third largest source of Zambia's imports accounting for 17.5 percent. Within COMESA, Kenya was the main source of Zambia's imports, accounting for 42.3 percent. Other notable markets were Congo (DR), Mauritius, Zimbabwe and Swaziland.

The European Union was the fourth largest source of Zambia's imports accounting for 11.0 percent. Within this grouping, Germany was the main source of Zambia's imports with 31.6 percent. Other notable markets were The United Kingdom, Belgium, Netherlands and Sweden.

## **THE NATIONAL STRATEGY FOR THE DEVELOPMENT OF STATISTICS (2014 - 2018) TO BE LAUNCHED!**

---

The Central Statistical Office (CSO) will officially launch the **National Strategy for the Development of Statistics (NSDS) 2014 - 2018**. The launch will be held at the New Government Complex on **Tuesday, 2<sup>nd</sup> September, 2014**.

The NSDS was approved by the Zambian Government on 5<sup>th</sup> May 2014 and the CSO was directed to accelerate the implementation of NSDS milestones.

The NSDS, once implemented, will establish an integrated National Statistical System (NSS) which will yield

a comprehensive National statistical database to ensure reliable, comprehensive and harmonized statistical information in the country. The Government recognizes the critical need for good, reliable and timely official statistics. Good, reliable and timely official statistics will help government to make informed decisions in formulating policies and programs on critical issues such as prudent economic management, good governance, poverty reduction and improved living conditions. This will also help in monitoring and evaluating the Revised Sixth National Development Plan (R-SNDP).

## **STAKEHOLDER'S REVIEW MEETING OF THE DRAFT STATISTICS BILL, 2014 TO BE HELD**

The Central Statistical Office will hold a stakeholder's review meeting of the draft Statistics Bill, 2014 on Wednesday, 3<sup>rd</sup> September, 2014.

After the approval of the NSDS by the Zambian Government, one of the major milestones that need to be implemented by the CSO is the amendment of the Census and

Statistics Act of 1964 and the new Statistics Bill has since been drafted.

The draft Statistics Bill, 2014 will be discussed in the review meeting to be held with invited stakeholders before it is finalized. The review meeting provides a platform of consultations that will enrich the process leading to the enactment of the new Statistics Law.

## Notes:

1/ Stocks expected to be held by commodity traders, millers, brewers, FRA, DMMU and commercial and small scale farmers as at 1st February 2014.

2/ Production estimates by MAL/CSO. Cassava production is based on the total area under cassava, using an annual yield figure of 11.7 tonnes per hectare (MAFF Root and Tuber Improvement Programme, 1996). A flour extraction rate of 25% is used. Other tubers are sweet potatoes and Irish potatoes.

3/ Human staple food consumption represents 70% (1,470kCal/person/day, CSO) of total diet (2,100kCal/person/day, National Food and Nutrition Commission) for the national population of 14.58 million people (based on CSO Census projections with 2.8% growth rate projected to February 2012, midmarket). The food balance shows an overall surplus of staple foods. Food prices February affect the level of food consumption.

4/ National strategic requirements expected to be carried over into the next season by FRA. (This amount of 500,000 Mt includes equivalent quantity that is already budgeted for).

5/ Estimated requirements by major stock feed producers.

6/ Estimated requirements by industrial breweries.

7/ Estimated retention of grain for other uses by smallholders.

8/ Post harvest losses are estimated at 5% for grains, sweet potatoes and cassava, in line with estimates from other SADC countries.

9/ Structural exports represents cross-border trade, mostly to the DRC, that occurs on a continuing basis and that is likely to occur during the 2012/13 marketing season. It does not include large-scale formal trade.

10/ Expected surpluses or deficits that arise after meeting minimum overall staple human consumption requirements as well as industrial Requirements.

The total surplus/deficit is expressed as maize equivalent using energy values.

The rice deficit is based on a 3 year rolling average of what is known to be imported each year, as indicated under D.

For cassava, the surplus represents cassava that is still in the ground and February not necessarily be harvested.

11/ Commercial imports/exports represent expected regional and international trade by the private sector.

12/ Total estimated requirement for food relief among vulnerable groups, to be imported. This could be met with maize or other grains.
