## Central Statistical Office

Volume 101

Website: [www.zamstats.gov.zm](http://www.zamstats.gov.zm)

August, 2011

### Foreword

Welcome to the Monthly presentation organised by the Dissemination Branch of the Central Statistical Office (CSO). The CSO embarks on vigorous information delivery strategy to major stakeholders and the media institutions in order to increase utilisation of statistical products and services. The office produces a number of statistical products in the Economic, Social, Agricultural and Environmental areas. The information collected in these areas may be used for various purposes including policy formulation, planning, implementation, monitoring and evaluation of programmes and projects.

This Monthly publication is an attempt to provide highlights of CSO's work and how it can help media institutions and the general public to make use of data and information for sustainable national development and decision-making.

I would like to urge our readers and users of statistical information to send to us any comments that may enhance statistical production and contribute to the improvement of this bulletin.

John Kalumbi  
Acting Director of Census and Statistics

25th August, 2011

#### Inside this Issue

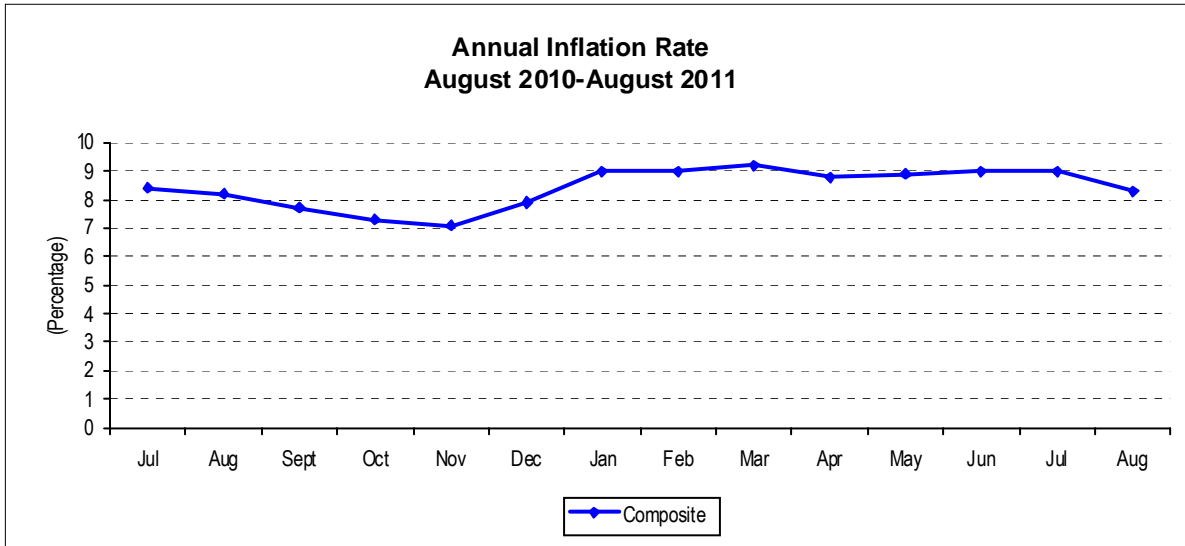

- **August Inflation declines to 8.3 percent**
- **July 2011 Records Trade Surplus**
- **The 2010/2011 Post Harvest Survey is underway!**
- **Selected Socio - Economic Indicators**

# INFLATION

## August Inflation declines to 8.3 percent

The annual rate of inflation, as measured by the all items Consumer Price Index (CPI), declined to 8.3 percent in August

2011 from 9.0 percent in July 2011. The decrease is attributed to reductions in food and non-food prices.

Source: CSO, Price Statistics

## Changes in annual inflation rates for CPI Main Groups

Between July 2011 and August 2011, annual inflation rates reduced for Food, beverages and tobacco; Clothing and footwear; Household fuel and lighting; Medical care; and Furniture and

household goods. The annual rates of inflation increased for Transport and communication; Recreation and education; and other goods and services.

### Annual Inflation Rate: CPI Main Groups

	Total	Food and Beverages	Clothing and Footwear	Rent Fuel and Lighting	Furniture and Household Goods	Medical care	Transport and Comm.	Recreation and Education	Other Goods and Services

# INTERNATIONAL MERCHANDISE TRADE

## July 2011 Records Trade Surplus

Zambia recorded a trade surplus valued at K440.7 Billion in July 2011, representing a nominal decrease in growth of about 19.7 percent from K527.3 billion recorded in June 2011. This means that the country exported more in July 2011 than it imported, in the same month, in nominal terms.

Since January 2011 the country has had monthly trade surpluses with the highest valued at K1,484.3 billion recorded in January 2011 and the lowest in July 2011, valued at K440.7 billion.

Note: January 2011 to June 2011 figures have been revised, while July 2011 figures are provisional

## **Exports by Major Product Categories July and June 2011**

Zambia's major export products in July 2011 were from the Intermediate goods category (*mainly comprising copper cathodes and sections of refined copper*) accounting for 84.8 percent. Other exports were from the Consumer goods, Raw materials and Capital goods categories; which collectively

accounted for 15.1 percent of total exports in July 2011. This implies that between July and June 2011, the country has been a net exporter of Intermediate goods, mainly Metals and their articles, accounting for an average of 84.2 percent of the total exports.

## **Zambia's Major Export Destinations by Commodity in July 2011**

Zambia's major export destination in July 2011 was Switzerland, which accounted for 60.0 percent. The major export products were Cathodes & sections of cathodes of refined Copper accounting for 85.4 percent.

China was the second major destination of Zambia's total exports accounting for 14.1 percent. The major export product to China was copper blister (46.1percent).

South Africa was the third major destination of Zambia's exports accounting for 7.4 percent. The main export products to South Africa were Articles of cobalt (nes), accounting for 24.7 percent.

The Democratic Republic of Congo was the fourth major destination of Zambia's exports, accounting for 4.4 percent. The main export product to the Democratic Republic of Congo was Raw cane sugar in solid form accounting for 13.2 percent.

The United Kingdom was the fifth major destination of Zambia's total exports accounting for 2.9 percent. The major export products to the United Kingdom were Cathodes and sections of cathodes of refined copper accounting for 84.3 percent.

These five countries collectively accounted for 88.8 percent of Zambia's total export earnings in July 2011.

### **Export Market Shares by Regional Groupings, July and June 2011**

The Southern African Development Community (SADC) regional grouping was the largest market for Zambia's total exports, accounting for 17.7 percent in July 2011. Within SADC, South Africa was the dominant market in July and June 2011 with 41.9 and 44.7 percent, respectively. Congo (DR) was second in both July and June 2011 with 25.1 and 19.0 percent, respectively. Other notable markets were Zimbabwe, Mauritius and Malawi.

Asia was the second largest market for Zambia's total exports, accounting for 15.1 percent in July 2011. Within Asia, China was the dominant market in both July and June 2011 with 93.9 and 82.2 percent, respectively. Singapore was the second dominant market in both June and July 2011 with 3.5 and 11.5 percent, respectively. Other notable markets were United Arab Emirates, India and Hong Kong.

The Common Market for Eastern and Southern Africa (COMESA) grouping of countries was the third largest market for Zambia's total exports accounting for 10.4 percent in July 2011. Within COMESA, Congo (DR) was the dominant market with 42.8 percent in July 2011 and 34.1 percent in June 2011. Zimbabwe was the second dominant market in July 2011 with 18.4 percent, while Malawi was the second dominant market in June 2011, with 27.2 percent. Other notable markets were Mauritius and Kenya.

The European Union (EU) was the fourth largest market for Zambia's total exports accounting for 5.6 percent in July 2011. Within the EU, the United Kingdom was the dominant market with 52.8 and 51.4 percent in July and June 2011, respectively. Luxembourg was the second dominant market in July 2011 with 20.5 percent. Other notable markets were Belgium, Slovenia, Netherlands and Germany.

## **Zambia's Major Import Sources by Commodity, July 2011**

The major source of Zambia's imports in July 2011 was South Africa, accounting for 33.1 percent. The major import products from South Africa were Dumpers for off-highway use, contributing 3.7 percent to the share of imports.

The second main source of Zambia's imports in July 2011 was Congo (DR)

accounting for 19.5 percent of the total value of imports. The major import products from Congo DR were Copper ores and concentrates, accounting for 84.9 percent.

Other notable sources of Zambia's imports were China, Kuwait and India, collectively accounting for 23.4 percent of Zambia's total imports in July 2011.

### **Import Market Shares by Regional Groupings, July and June 2011**

The Southern African Development Community (SADC) regional grouping was the largest source of Zambia's imports accounting for 55.9 percent in July 2011. Within SADC regional grouping, South Africa was the major source of Zambia's imports with 59.1 percent in July 2011 and 59.3 percent in June 2011. Congo (DR) was the second major source of Zambia's imports with 34.8 and 35.4 percent in July and June 2011, respectively. Other notable markets were Zimbabwe, Namibia and Tanzania.

Asia was the second largest source of Zambia's imports accounting for 29.5 percent in July 2011. Within Asia, China was the dominant source of Zambia's imports in both July and June 2011 with 39.8 and 45.7 percent, respectively. Kuwait was the second dominant source of Zambia's imports with 30.0 percent in July 2011. Other notable markets were India, the United Arab Emirates and Japan.

The Common Market for Eastern and Southern Africa (COMESA) grouping of countries was the third largest source of Zambia's imports accounting for 22.7 percent in July 2011. Within COMESA, Congo (DR) was the main source of Zambia's imports in both July and June 2011 with 85.6 and 87.7 percent, respectively. Other notable sources were Zimbabwe, Kenya, Malawi and Egypt.

The European Union (EU) was the fourth largest source of Zambia's imports accounting for 9.3 percent in July 2011. Within the EU, the United Kingdom was the major source of Zambia's imports accounting for 24.4 and 35.8 percent in July and June 2011, respectively. Finland was the second largest source of Zambia's imports with 21.1 percent in July 2011. Other notable sources were Sweden, the Netherlands, Germany and Belgium.

# Agricultural Statistics

## ***The 2010/2011 Post Harvest Survey is underway!***

The Central Statistical Office (CSO) will this year conduct the Post Harvest Survey (PHS) during the months of September and October. The survey will be conducted in all the districts of the country. A total number of 13,600 households that were interviewed in March during the Crop Forecasting Survey (CFS) will again be interviewed. In addition, all the large-scale farms in the country will be covered. Unlike the CFS, the PHS will also collect information on livestock numbers and livestock products.

The major objectives of the 2010/2011 PHS are;

- *To provide Key Agriculture Performance Indicators (KAPIs) for the National Development Plans. The indicators that will be generated from the PHS will include land under irrigation, percentage change in livestock and poultry population of cattle, pigs, goats and sheep and disease prevalence of major livestock disease outbreaks such as Foot and Mouth Disease (FMD), Contagious Bovine plurolpneumonia (CBPP) and East Coast Fever (ECF).*
- *To provide benchmark data for the Sixth National Development Plan (SNDP).*
- *To provide indicators of seasonal agricultural performance for planning and research to public institutions, private sector and other stakeholders and the farmers themselves.*
- *To provide agricultural production figures used for calculating agricultural contribution to the country's Gross Domestic Product (GDP).*
- *To provide Government institutions, the donor community and other international partners with useful information that will enable the formulation of developmental programs for improving food security.*
- *To provide baseline data used in carrying out Vulnerability Assessment and Mapping (VAM).*
- *To generate information that will contribute towards preparedness and mitigation of disasters.*
- *To provide both the Ministry of Agriculture and Cooperatives, the Ministry of Livestock and Fisheries and the Ministry of Finance and National Planning (MFNP) with indicators for Agricultural Sector Performance Analysis for agricultural policy, planning and decision making.*

In preparation for the commencement of the survey, the training of trainers has been conducted while the training of Supervisors and Enumerators is expected to start during the first week of September 2011.

# LAYMAN and STATISTICS

## 1. Special Trade System

The special trade type records flows of goods as trade statistics only after they are cleared into or from the free circulation area.

## 2. General Trade System

The general trade type records flows of goods as trade statistics when they cross the boundary of the customs territory.
