FOREWORD

Welcome to our monthly dissemination of selected official statistics. The Zambia Statistics Agency (ZamStats), embarks on vigorous information delivery strategy to major stakeholders and the media institutions in order to promote understanding and use of official statistics both within and outside Zambia. The Agency produces a number of statistical products in the Economic, Social, Agricultural and Environmental theme areas. The information collected in these areas may be used for various purposes including policy formulation, planning, implementation, monitoring and evaluation of development programmes.

This Monthly publication is an attempt to provide highlights of the work of the Agency and how it can help media institutions and the general public to improve understanding and uptake of statistical information for decision-making and sustainable national development.

I would like to urge our readers and users of statistical information to send to us any comments that may enhance statistical production and contribute to the improvement of this bulletin.

STATISTICIAN GENERAL

25th July, 2024

INFLATION

Consumer Price Index

Year-on-Year Inflation for July 2024 at 15.4 Percent

Annual inflation for July 2024 increased to **15.4 percent** from **15.2 percent** recorded in June, 2024. This means that on average, prices of goods and services increased by 15.4 percent between July 2023 and July 2024 (**see Figure 1**). This development was mainly attributed to price movements of food items.

Note: 2009=100

Annual Food and Non-Food Inflation

Annual food inflation for July 2024 was recorded at 17.4 percent compared to 16.8 percent in the previous month (**see Figure 2**). This means on average prices of food items increased by 17.4 percent between July 2023 and July 2024. This was mainly attributed to increases in prices of food items such as **Bread and Cereals** (Breakfast & Roller Mealie Meal, Rice, bread, Bun, Friters, Cassava meal); **Fish** (Frozen Fish, Buka Buka, Fresh Kapenta, Dried Kapenta Mpulungu); **Vegetables** (Green pepper, Pumpkin, Onion, Dried beans, Irish potatoes, Sweet potatoes); **Fruit** (Oranges, Lemons, Bananas, Apples, Avocados, Groundnuts); Eggs, Cooking oil and Sugar.

The annual non-food inflation for July 2024 was recorded at 12.6 percent compared to 13.0 percent. This outturn was mainly attributed to **decreases** in prices of non-food items such as **Major Household Appliances** (Refrigerator, Washing Machine, Microwave Oven); **Pharmaceutical Products** (Cafenol, Aspirin, Paracetamol, Andrews liver salt, Magnesium Trisilicate, Throat lozenges); **Fuels** (Diesel, Petrol) and Passenger transport by air.

Monthly Inflation Rates for Food and Non-Food Items

Monthly food inflation rate for July 2024 was recorded at 1.5 percent same as 1.5 percent recorded in June, 2024. This means on average prices of goods and services increased by 1.5 percent between June 2024 and July 2024. This development was mainly attributed to general price movements of **Bread and Cereals** (Breakfast & Roller Mealie Meal, Rice, bread, Bun, Friters, Bun, Cassava meal); **Meat** (Rump steak, Brisket, Mixed cut, T-bone, Offals) **Fish** (Frozen Fish, Buka Buka, Fresh Kapenta, Dried Kapenta Mpulungu); **Milk** (Fresh Milk, Fresh Milk Super Milk, Condensed Milk, Sour milk); **Fruit** (Oranges, Lemons, Bananas, Apples, Avocados, Groundnuts); Eggs and Cooking oil.

Monthly non-food inflation rate for July 2024 was recorded at 0.3 percent compared with 1.0 percent recorded in June 2024. This means on average prices of non-food items increased by 0.3 percent between June 2024 and July 2024. This was mainly attributed to decreases in non-food items such as **Major Household Appliances** (Refrigerator, Washing Machine, Microwave Oven) **Fuels** (Diesel, Petrol); 3 piece lounge suit, Repair Charges and Passenger transport by air.

June 2024 records a Trade Surplus

The country recorded a trade Surplus of K1.4 billion in June 2024 compared to a Surplus of K3.0 billion in May 2024 **(see Table10)**.

Exports mainly comprising domestically produced goods, decreased by 9.1 percent to K24.7 billion in June 2024 from K27.1 billion in May 2024. This was mainly on account of 11.4 and 34.2 percent decreases in export earnings from Intermediate goods and Capital goods, respectively.

Imports decreased by 3.5 percent to K23.3 billion in June 2024 from K24.2 billion in May 2024. This was mainly as a result of a 14.7 and 5.3 percent decrease in import bills of Intermediate goods and Capital goods, respectively **(see Table 2.2 in Annex)**.

LAYMAN AND STATISTICS

Demographic Statistics

Census: The count of a given population (or other phenomena of interest) and record its characteristics, done at a specific point in time and usually at regular intervals by a government entity (or any other entity) for the geographic area or subareas under its domain. Examples include Population Census, Housing Census, Census of Business establishments, Agriculture Census etc.

Census Coverage: An estimate of how complete a census was of a given population.

Census Night: This refers to the night preceding the Population Census.

Geographical and Mapping

Boundary: A line which defines the extent of an aerial unit or the locations where two areas meet. A boundary is represented in a GIS as a line feature which may define a side of a polygon. The boundary may or may not be visible on the ground, i.e., it can follow real world features, such as roads and rivers or it can be defined solely by geographic coordinates.

Geographical Information System (GIS): A computer system capable of capturing, storing, editing, integrating, manipulating, analysing and displaying data related to positions on Earth's surface.

Global Positioning System (GPS): The Global Positioning System (GPS) is a space-based navigation system that provides location and time information in all weather conditions, anywhere on or near the Earth where there is an unobstructed line of sight to four or more GPS satellites.

Constituency: An electoral boundary segmented for the purpose of electing a member of the National Assembly.

Constituency Boundary: A Constituency Boundary is a representation of a constituency on an election thematic map and is symbolized as a polygon feature. A collection of wards forms a Constituency.

Province: An area with defined boundaries either by counties, districts, countries or any other specificity, which can clearly differentiate boundaries and is normally named according to the compass direction with respect to the surrounding areas. It can be administrative or statistical.

Ward: A Ward is an electoral boundary segmented for the purpose of electing a councillor.

Rural Area: An area that lacks most if not all the facilities/amenities found in the urban areas. The population tends to be scattered.

Urban: This is a place-based characteristic that incorporate elements of population density, social and economic organization, and the transformation of the natural environment into a built environment.

Urbanization: The process by which there is an increase in the proportion of people living in urban areas. The common indices used to describe urbanization are: population size, population density and level of administration.

Urbanization: This refers to a broad-based rural to urban transition involving population, land use, economic activity and culture, or any of these.

Consumer Price Index (CPI)

Consumer Price Index (CPI): Measures changes over time in the general level of prices of goods and services that households acquire for the purpose of consumption. The basket relates to a selection of goods and services that is representative of the consumption habits of most households in the country.

Inflation: Inflation is defined as a sustained increase in the general level of prices for goods and services over a period of time.

Annual Inflation: The annual Inflation Rate is the change in the CPI for all items of the relevant month of the current year compared with the CPI for all items of the same month in the previous year expressed as a percentage.

Consumption: Any activity in which households use goods and/or services to satisfy their needs and wants but not for business purposes nor for the acquisition of wealth. Thus investment in all forms of assets is excluded.

International Merchandise Trade and Balance of Payment Statistics

Balance of Payments (BoP): These are the summaries of all transactions that a country's individuals, companies and government bodies complete with individuals, companies and government bodies outside the country.

Bill of Entry: This is a document against which goods are entered to obtain customs clearance and with which any duties thereon are paid.

Capital Goods: These are physical assets that are used in the production process to manufacture products and services.

Certificate of Origin: This is an important international document that certifies that goods in a particular export shipment are wholly obtained, produced, manufactured or processed in a particular country. They also serve as a declaration by the exporters.

Consumer Goods: These are goods designed for use by final consumers.

Cost Insurance and Freight (Cif): The type of values including the transaction value of the goods, the value of services performed to deliver goods to the border of the exporting country and the value of the services performed to deliver the goods from the border of the exporting country to the border of the importing country.

Free on Board (FoB): The type of values including the transaction value of the goods and the value of services performed to deliver goods to the border of the exporting country.

Goods in Transit: This refers to goods simply being transported through a country.

Intermediate Goods: These are products which are not final but are used as inputs for production.

Raw Material: These are materials in unprocessed or minimally processed states, used to produce finished or intermediate goods.

Statistics Act, No.13 of 2018

National Statistical System: The National Statistical System (NSS) comprises data producers, data users, data suppliers and research and training institutions. The National Statistical Office (NSO), which in this case the Zambia Statistics Agency (ZamStats) is the hub of the system, reflecting its coordination and harmonisation role.

Agency: The Zambia Statistics Agency established under section 5.

Metadata: The range of information, generally textual, that fosters understanding of the context in which statistical data has been collected, processed and analysed with the objective of creating statistical information.

Official Statistics: Statistics describing, on a representative basis, the economic, demographic, social or environmental phenomena of the Republic in the statistical work programmes of statistical agencies. The Agency may designate, as official statistics, any statistics or class of statistics produced from collections of statistics by the National Statistical System.

Spatial Data: Information that identifies the geographic location and characteristics of natural or constructed features and boundaries on the earth, derived from remote sensing, global positioning systems, geographic information systems, cartographic.

Statistics: Any official or unofficial aggregated numerical information relating to demographic, economic, financial, environmental, social or other matters, available in digital or other applicable format, collected at national, regional or local level, which is compiled and analysed according to relevant scientific and statistical methodologies, and which is connected with, or incidental to, any census or survey of all or any of the matters specified in the Third Schedule, and includes information derived from records of administration kept by statistical agencies.

Statistical Agency: A public body that has the power to collect, compile or disseminate statistics under a written law.

User: In relation to statistics includes a public body, private body, researcher, research institution, higher education institution, international or regional organisation or any other user.

Dissemination: The direct or indirect publication, sale or provision of official or other statistics, spatial data or related documentation in any form.
